

#48133

1. Attach the colored wires on the 4-wire flat to the SAME FUNCTIONS on the trailer.
2. Plug into vehicle and check the lighting system for proper operation. Step on the brake to check brake lights, turn on headlamps to check tail / parking lights and operate directional signals to check right / left turn.
3. When the right turn signal is activated, the LED above "RT" on the 4-wire flat should activate. This should also be the case for the left turn ("LT"), tail marker ("TM") and brake ("RT" and "LT").

NOTE:

Have trailer on ball of vehicle when testing trailer functions

LOCATE WIRES BY FUNCTION ONLY

White Ground (GD)
Yellow Left turn (LT)
Green Right turn (RT)
Brown Taillight (TM)
