

# HOPKINS #47555

This adapter has the capability to change the electric brake and battery pin locations adapting to different codes.

## WIRE IDENTIFICATION

GD = Ground, white wire

TM = Tail, brown wire

LT = Left Turn, yellow wire

RT = Right Turn, green wire

AX = Battery, black wire

EB = Electric Brakes, blue wire

To change wiring functions, remove screws and switch the black and blue wires.

**NOTE:** Locate wires and pin location by function only. Color coding is not standard among all manufacturers.
