# 47875

FIG. 1

WIRE CODE

White wire------ Ground

Blue wire--------Electric brake

Black wire------ Battery

Red wire-------- Stop lamp switch

1. Carefully remove vehicle trim panel underneath the dash (A) making sure not to pull on courtesy lamp wires that are attached.

2. Plug the brake control connector into the vehicle connector located under dash.

3. Plug mating end of the brake control connector (B) into the brake control.

4. Test all functions.

Wire to brake control by function only. Color coding is not standard among all manufacturers. To ensure proper installation, read brake control instructions thoroughly.
