A new standard in the Automotive Aftermarket – HÜCO's 5 Years Warranty

Dear Partner

For nearly 30 years the brand name HÜCO has been setting quality standards for our product lines in the Aftermarket. Our high standards are ensured by our quality certificate EN ISO 9001:2002.

Is there a better way to emphasize this claim of high quality than by prolonging the warranty we offer to you, our valued customer? We have therefore decided to extend the warranty on the electronics* of all products delivered after 2nd January 2009 to 5 (five) years*. Within the International Aftermarket we are according to our knowledge the first and only manufacturer of our product lines that has taken this step. In our opinion we can allow ourselves to do it and we would like you to profit from it.

HÜCO single unit packaging boxes will have a sticker from 2nd January 2009 which refers to the new 5 year warranty* period. Our high quality standards allow us to stand out from our competitors and will therefore also further help you in the near future. We would be grateful if you could also communicate this news to your customers. We will add special posters to your next consignment and trust that these will help you to promote HÜCO even further. Please note that our General Terms of Conditions and Sales will be amended accordingly.

High quality will always prevail in the long run. We wish you and your team ongoing success with HÜCO products in the future!

Yours faithfully

Christian Westerkamp
Managing Director
