Congratulations on your purchase of the Hyline Offroad TJ & YJ Oversized Tire Mount. All of our products are completely manufactured in our facility located in Perkasio, PA. They are designed and engineered by Offroad enthusiasts just like you to be rock solid at an affordable price. Hyline Offroad would like to thank you for your recent purchase and look forward to serving you in the future.

Hyline Offroad Staff

IMPORTANT: We do not recommend installing any tire larger than 33" in Diameter. Doing so may cause damage to your Jeep's tailgate hinges.

TJ Oversized Tire Mount:

Step 1 – Using the ½" Socket remove the existing stock tire carrier from vehicle. Remove 4 Bolts from the tailgate. Save these bolts as you will be reusing them.

Step 2 – Cut third brake light wire as needed. If you're installing a 2" Round LED Third Brake Light leave the existing wire longer. If not, you can terminate the wire inside vehicle.

Step 3 – With the Hyline Oversized Tire Mount still off the Jeep, you can install the 3 wheel studs. To do this, lay the tire mount flat on the ground with the tire on top of it. Then insert the wheel studs through the appropriate holes. Then tighten down the lug nuts. This will draw the press fit wheel studs into the tire mount. Remove the tire once the wheel studs are installed.

Step 4 – Install the Hyline Oversize Tire Mount onto the tailgate using the same bolts you previously removed.

Step 5 – If installing a 2" Round LED Third Brake Light you can do so by first inserting the rubber grommet into the hole in the center of the Hyline Oversized Tire Mount, then push in the LED Light and wire.

Attention

Installation instructions provided must be read and followed exactly when installing product. Failure to do so could potentially result in injury or death of any occupants in the vehicle. **WEAR SEAT BELTS AT ALL TIMES WHEN DRIVING!**

Though our products are rugged, they are primarily designed and built to enhance the appearance of the vehicle and will not protect from death or injury in the event of an accident. Adhere to all vehicle manufacturers specifications
