

IBEAM HEADS UP DISPLAY

TE-HUD HEADS UP DISPLAY

PRODUCT OVERVIEW

iBeam heads up display installs easily, and is universally applicable to most vehicles on the market. Drivers can conveniently view their speed, engine RPM, battery voltage, and water temperature on the windshield, directly in their line of sight. A 3" multi-color LED display automatically adjusts brightness for day or night. The Heads Up Display is a quick and easy way to decrease the risk of accidents by helping drivers keep their eyes on the road.
