## GATOR JAWS®

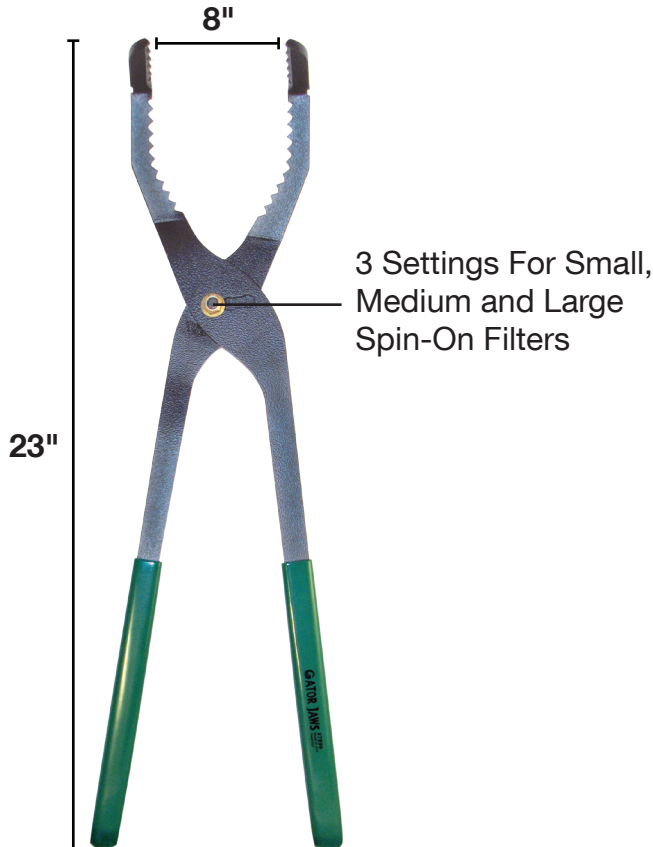

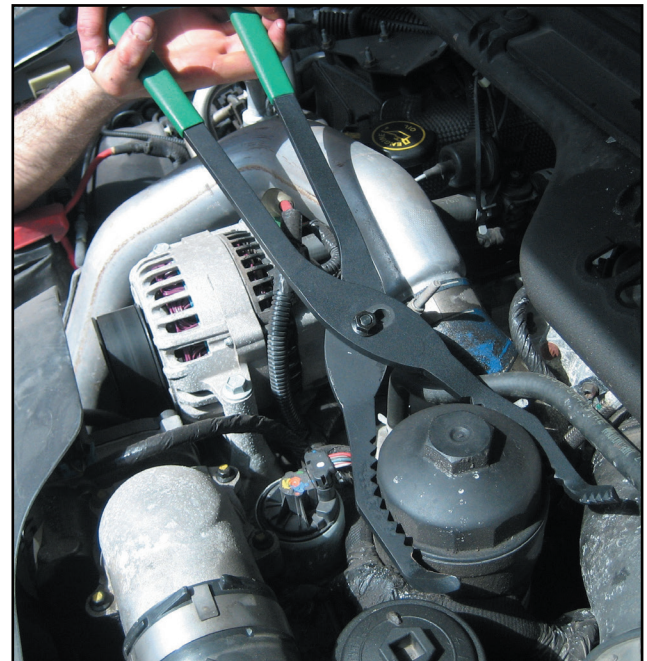

**Experience Unparalleled Gripping Force with the Most Versatile Filter Pliers for Cars, Trucks and Heavy-Duty Equipment. Gator Jaws® Have 32 Teeth That Can Lock onto an Over-Tightened Filter and Break It Loose Without Slipping.**

Have you ever wrestled an oil, fuel or hydraulic filter that was over tightened? Have you ever burned your arms trying to reach around a hot exhaust manifold? This patented, specially designed tool is the most durable and versatile filter pliers ever made! All that's needed is a bite from the 32 gripping teeth and even the most difficult, hard-to-reach filters spin off with ease. The Gator Jaws® can be used for the biggest trucks and equipment as well as SUVs, cars and motorcycles.

### Features and Benefits

- Works on oil, fuel and hydraulic filters, fuel sending units and more
- Snakes around hot exhaust manifolds
- 23 inches long with 32 gripping teeth
- Three different settings for optimum grip
- Made and assembled in the USA
