

#9004M

**MOBILE SMART MUTT®
(7-FLAT PIN TRAILER TESTER)**

PRO EDITION

**Remote-Controlled, Mobile Diagnostic Trailer Tester for
Light-Duty Trailer Lights and Electric Brakes**

The Mobile Smart MUTT® is a portable, electronic trailer tester that instantly tests lights and electric brakes on light-duty type trailers (7 flat, 6 round, 5 and 4 pin).

ELECTRICAL SYSTEM TESTING (12/24V)

- Power lights and electric brakes: Manually, All-On, Auto Scan, or by Remote Control from over 200 ft. away
- Audible and visual alerts: cross, open, overloaded and short circuit indication
- Trailer wiring and circuit testing
- Diagnostic Pulsar® mode allows safe overloaded/short circuit repair
- Amperage readout and range (-/+ 20 amp range)

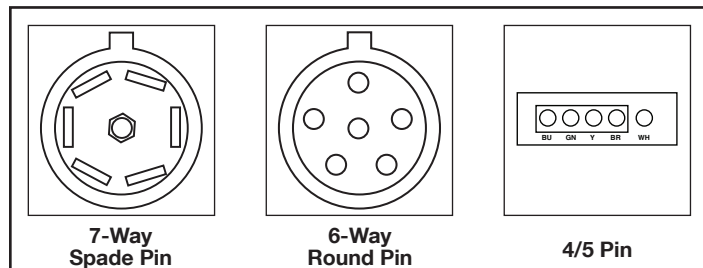

REMOTE CONTROL

- Remotely test all trailer electric circuitry individually with new 12-button remote
- 3-button remote control included cycles forward and backward through trailer lighting circuits
- Sync multiple (12) remotes to one unit

Specifications	
Power Input:	12/24V DC
Battery Requirements:	Group 31 or Similar (Battery Not Included)
Output:	20 Amps @ 12/24 Volts DC
Connection Type:	7 Flat, 6 Round, 4/5 Pin
Controls:	Manual, Remote, Automatic
Materials:	Steel Construction
Weight:	40 lbs.
Dimensions:	W: 14" x H: 28" x D: 10"

Works with These Connection Types:

Includes

(1) 12-Button Remote Control, (1) 3-Button Remote Control, 10 Amp Battery Charger, 3-Way Trailer Adapter and Rain Cover

3-Button Remote Control

12-Button Remote Control
