

**TIRE** **COMPARATOR**™  
**TYPE II**

## A Professional “Go/No-Go” Tire Comparator for Dual Tire Pairing

The Tire Comparator™ Type II is the industry’s fastest and most consistent caliper for comparing tread wear on dual mated tires. A simple-to-use, sliding tolerance gauge requires no measuring, guessing, or even visual inspection.

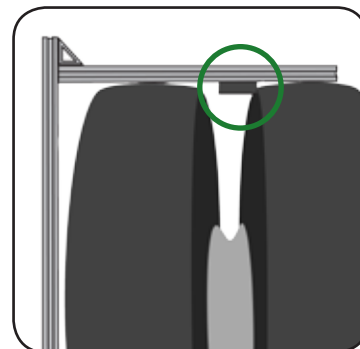

### Features and Benefits

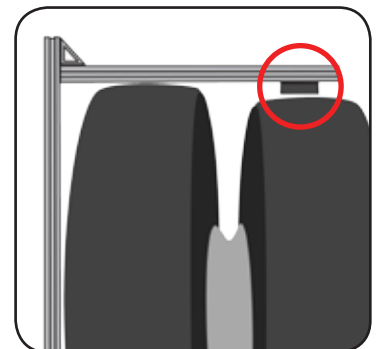

- Fast, simple-to-use; no measuring and no guessing
- Extends tread life, reduces blowouts and tire decapitation
- Improves fuel mileage
- Can be used on any dual mated tires
- Special tread wear adapter gauges available for any rim size
- Light weight and portable
- Made in the USA

Hold the Tire Comparator against the tire, and slide across the treads for a quick, accurate result every time.
