LED TAIL LIGHTS

Your new IPCW L.E.D. TAILLIGHT are quality-made products that will work beautifully on your vehicle. Please refer to the pictures below for installation.

Open liftgate to remove the screws on stock tail lights. Keep the screws for Step 10.

Remove stock tail light.

Twist open the sockets on the back of stock light.

Remove and discard **ONLY** the light bulb from the Running light. (the top socket)

Keep the bulb on the reverse light connected.

Take (IPCW) L.E.D. Taillight out from box.

Gently pull out the Running light connector from LED taillight.

Plug this connector to vehicles Running light socket. Make sure to match up the wires match **(Black to Black)**.

Twist in both sockets from the vehicle wiring harness and make sure they are sealed.

Make sure the light functions properly, then install the screws kept from Step 1.

Done! **Thank you** for your purchase. We hope you enjoy your new IPCW LED TAILLIGHTS.
