

QUICK START USER GUIDE FOR CARCONNECT (ISTY751, ISHD751, and ISIM7518)

HOW TO PAIR YOUR TOYOTA OR HONDA CAR WITH YOUR PHONE/DEVICE

(Ask your installer whether your CARCONNECT was set up for SATELLITE or CD)

Satellite mode

1. Press your satellite access button (aux/xm/sat)
2. Screen will now show XM RADIO, press your preset 5 button five times
3. Screen should show DISCOVERABLE
4. Now initiate pairing from your phone device, see phone instructions

Device name you are looking for is "CARCONNECT"

CD Mode

1. Press your CD changer access button (AUX/DISC/CD)
2. Screen will now read CD1 Track1
3. Press your REPEAT button five times to initiate PAIRING mode
4. Now initiate pairing from your phone device, see phone instructions

Device name you are looking for is "CARCONNECT"

NOTE: Toyota AND Honda cars cannot make calls using steering wheel controls (use radio controls to make calls instead).

HOW TO MAKE A CALL USING RADIO CONTROL

Satellite mode

1. Press preset 6 and listen for prompts

CD Mode

1. Press disc down and listen for prompts

HOW TO RECEIVE A CALL USING RADIO CONTROL

1. When you hear a ring, press tune or seek up
2. Say "hello!"

HOW TO END A CALL USING RADIO CONTROL

1. Say "goodbye!"
2. To end call push seek down or tune down depending on your model
