### Regulatory Compliance

### Pre-Installation Guidelines

1. Read all safety notes and mounting guidelines before installing the product. Verify that all parts listed under "In the Box" are present and complete.
2. Inspect the product for damage. **DO NOT** install the product if there is any damage. Contact the authorized retailer where you purchased it to initiate a warranty claim if there is damage.
3. Verify that all power supply and/or charging systems comply to the specified voltage limits for the light.

#### PRODUCT WARRANTY:

**If you have issues with a J.W. Speaker product, please contact the authorized retailer where you purchased it.**

To properly install this light you should have a good understanding of automotive electrical procedures and systems, and proficiency in the installation of fog lights. If you do not, please seek professional assistance.

### Installation Instructions

1. Turn off the vehicle and disconnect the battery.
2. Remove the existing fog lights from the vehicle. Be careful not to damage the vehicle and keep all hardware that attaches the fog light to the vehicle.
3. Unplug the connector of the existing fog light.
4. Plug in the Model 6045 connector.
5. Lay and secure wires to avoid any pulling or abrasion that may damage the wires or light.
6. Install the headlight with the existing hardware into the bumper, with the J.W. Speaker logo oriented at the bottom.
- 7. Aim the lights (continued on next page).**

### FOG LIGHTS MUST BE AIMED AFTER INSTALLATION

Fog lights must be securely mounted and properly aimed such that the beam pattern "cut off line" complies with all applicable regulations. If you are not familiar with the legal requirements for aiming your fog lights, please see a professional service provider. We recommend that fog lights are aimed with an system for proper alignment.
