

# INSTALLATION INSTRUCTIONS

## Part Number: VF1018

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

\* K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open the hood.
2. Remove half of the weather strip on the passenger side cowl panel. Fig. 1
3. Lift the cowl panel to access the cabin filter tray. Fig. 2
4. Press the tab on the front of the tray to unlock and remove. Clean any debris that might be present inside the housing. Fig. 3 and 4
5. Remove the dirty filter from the tray and install the K&N® cabin filter. Fig. 3 and 4
6. Locate the trays tab in the slot under the cowl panel. Fig. 5 and 6
7. Lock the tray in and re-install the weather strip to complete the cabin filter installation. Clean an area and apply the K&N® Stop Decal. The decal will help notify others that this is a reusable cabin filter.
