

Outside mirror removal and installation instructions.

FORD

F150 Pick-Up 2004-2014

Installation instruction

- a. Disconnect the cable(s) from negative battery terminal(s).
Remove the fasteners securing the inside door handle.
- b. Remove the inside door handle.
- c. Pry out the armrest switch control plate and disconnect the electrical connectors.
- d. Remove the fasteners at the bottom of the door panel.
Pull upward to release the door panel hooks from the door.
- e. Once all of the hooks are disengaged, raise the trim panel up and off the door.
Disconnect any wiring harness connectors and remove the trim panel from the vehicle. On Models that have Manual mirror's, skip to G.
- f. Unplug the original mirror's electrical connector.
- g. Remove the nuts and detach the mirror from the door.
- h. Installation is reverse of removal.
