

Leadership through technology

An integral part of our philosophy is the direct dialogue with our customers. In this effort, we keep looking for innovative and even more cost-efficient solutions. Over the years, we have managed to build up a vast amount of expertise and competence. We guarantee you quick, flexible and cost-efficient services custom fit to your requirements.

In design engineering, our CAD systems constitute an important part for the cooperation with the customer. All CAD systems and data links in use are available for the professional and quick development work:

- PRO ENGINEER
- CATIA V4
- CATIA V5
- UNIGRAPHICS
- SIEMENS NX
