

# Klever R/T

## KR601

The Kenda Klever R/T was designed to conquer rough terrain without sacrificing the ride and comfort of an A/T tire. Combining our triple threat 3-ply sidewall for exceptional durability and an optimized tread design with a superior all-weather compound, makes the Klever R/T the right solution for 4x4 owners in the dirt or any off-road environment. On the road, the KR601 has exceptional wet traction, in addition to providing low road noise and strong winter performance. The Klever R/T is ready for snow and pinned for winter studs. Aggressively styled, strong upper sidewall tread blocks assist with typically difficult mud, sand and gravel environments while the construction provides long lasting wear.

Disclaimer: Indexed tests results shown were conducted on LT285/70R17 via 3rd Party Sheldon Avenue Engineering.

### TRIPLE THREAT SIDEWALL

- 3 full carcass plies of polyester ensure the best amount of protection from impact damage and punctures
- Aggressive sidewall tread not only gains you traction but protects against cutting, tearing and abrasions
- Robust bead protector shields the bead area and rim from close encounters with trail obstacles

- Interlocking center tread blocks for aggressive Off-Road, and Snow performance
- Large groove volumes to maximize hydroplaning resistance, wet traction, and mud traction performance
- High sipe density for excellent snow, ice, and wet traction
- Stud-able for increased winter performance (TSMI #15)
