

Installation Instructions

Part Number 33-2713

This filter fits: **Please check current K&N catalog for complete listing**

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedure **MUST** be followed to ensure a proper fit and seal of the air filter.

- 1) Follow the instructions in the service manual on replacing the air filter.
- 2) Carefully remove the rubber seal from the original filter and fit to the K&N [air filter](#). The K&N filter will not seat in the airbox properly without this rubber seal.
- 3) Gently place the oiled K&N filter into airbox. **DO NOT FORCE THE FILTER!**
- 4) The filter will only fit in one way. There is an "Engine Side", printed on the filter.
- 5) Re-assemble airbox according to service manual.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
