

INSTALLATION INSTRUCTIONS

Part Number **33-2329**

This filter fits: **See current catalog for applications**

Congratulations, you have purchased the finest air filter the money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedures MUST be followed to endure the proper fit and seal of the K&N Filtercharger®.

1. Loosen the clamps of the air box lid. [See fig. 1]
2. Remove the air box lid and remove the stock air filter from the housing. Care should be taken to dislodge as little dirt as possible. [See fig. 2]
3. Clean the filter sealing surface and the housing.
4. Remove the adhesive backing from the gasket and install the gasket around the smaller orifice on the air box. [See fig. 3]
5. Install the K&N air filter in the air box. [See fig. 4]
6. Install the air box lid and tighten the clamps. [See fig. 5]

NOTE: FAILURE TO FOLLOW INSTALLATION INSTRUCTIONS AND NOT USE THE PROVIDED HARDWARE MAY IMPAIR THE PERFORMANCE OF YOU FILTER AND DAMAGE YOUR ENGINE.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
