

INSTALLATION INSTRUCTIONS

Part Number 33-2445

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modification will be required. However the following procedures **MUST** be followed to ensure the proper fit and seal of the K&N® air filter.

INSTALLATION:

1. Remove the 2 screws on air box slide. **Fig 1**
2. Pull out slide and filter cage, dispose of OE filter.
3. Install K&N filter in stock cage. **Fig 2**
4. Install cage into air box. **Fig 3**
5. Push slide into air box until slide bottoms out against air box. **Fig 4**
6. Tighten the 2 screws on top of Slide.
7. Repeat steps 1 through 6 for opposite side filter installation.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
