

INSTALLATION INSTRUCTIONS

Part Number E-0782

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, the following procedures **MUST** be followed to ensure the proper fit and seal of the K&N[®] Air Filter.

INSTALLATION:

1. Remove stock air filter per service manual and discard, retain 4 screws from stock air filter bracket. These will be used in step 5.
2. Install K&N air filter into air box with K&N logo facing upward. **Fig.1**
3. Evenly press K&N air filter into air box. **Fig.2**
4. Place plastic brackets into grooves on top of filter. **Fig.3**
5. Using 4 screws from stock air filter bracket tighten screws until brackets are touching air box. **Fig. 4**
6. Install air box per service manual.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
