

INSTALLATION INSTRUCTIONS

Part Number: VF1002

This filter fits:

SEE CATALOG FOR CURRENT APPLICATIONS

K&N® [Cabin Air Filters](#) replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/100,000 mile limited warranty.

When applicable, refer to owner's manual for manufactures installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Remove the two locking pins under glove box. Fig. 1, 2 & 3
2. Open glove box. This will allow the glove box to hang free. Fig. 4
3. Remove fasteners that holds prop cable and allow the glove box to hang down. Fig. 5 & 6
4. Locate cabin air filter housing and unscrew bolt to remove housing cover. Fig. 7, 8 & 9
5. There are 2 filters located in the cabin filter housing. Remove the first filter, then slide the second filter to the left and remove from cabin filter housing.
6. With the dirty cabin filters removed, clean any debris that might be present in the cabin filter housing.
7. Install the first K&N® Cabin Filter into the housing and slide it to the right. With the first cabin filter installed, insert the second K&N® Cabin Filter into the housing. Fig. 10, 11 & 12
8. Reverse steps 1-8 to complete cabin filter installation. With the cabin filter installed, clean an area on the housing and apply the K&N® Stop Decal. The decal will help notify others that this is a re-usable cabin filter.
