

INSTALLATION INSTRUCTIONS

Part Number: VF1011

This filter fits:

SEE CATALOG FOR CURRENT APPLICATIONS

K&N® [Cabin Air Filters](#) replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/100,000 mile limited warranty.

When applicable, refer to owner's manual for manufactures installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Cabin air filter is located behind the glove box. To access, remove 2 plastic clips on the bottom of the glove box before opening. Fig. 1 & 2
2. Open the glove box and locate the glove box stop feature. Line up the stop feature with the hole in the glove box and press to remove. Once completed then remove the glove box. Fig. 3 & 4
3. Gently pull 2 clips out allowing for removal of the cabin air filter access door. Fig. 5
4. Remove the cabin air filter door. Fig. 6
5. Remove dirty cabin filter from housing & clean any debris that might be present in the cabin filter housing and install K&N® Cabin Air Filter. Fig. 7
6. Reverse steps 1-3 to complete cabin filter installation. With the cabin filter installed, clean an area on the cowl and apply the K&N® Stop Decal. The decal will help notify others that this is a re-usable cabin filter.
