

INSTALLATION INSTRUCTIONS

Part Number: VF2027

This filter fits:

SEE CATALOG FOR CURRENT APPLICATIONS

K&N® Cabin [Air Filters](#) replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/100,000 mile limited warranty.

When applicable, refer to owner's manual for manufactures installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open hood and locate cabin filter access panel on passenger side. Fig. 1
2. Depress fasteners and remove cabin filter access panel. Fig. 2, 3 & 4
3. Open cabin filter housing door. Fig. 5
4. Remove dirty cabin filter from housing and clean any debris that might be present in the cabin filter housing. Fig. 6 & 7
5. Install K&N® Cabin Air Filter. Fig. 8
6. Reverse steps 1-3 to complete cabin filter installation. With the cabin filter installed, clean an area on the cowl and apply the K&N® Stop Decal. The decal will help notify others that this is a re-usable cabin filter.
