

INSTALLATION INSTRUCTIONS

Part Number: VF2045

This filter fits:

SEE CATALOG FOR CURRENT APPLICATIONS

K&N® [Cabin Air Filters](#) replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/100,000 mile limited warranty.

When applicable, refer to owner's manual for manufactures installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open glove box and locate access panel for cabin filter housing. Fig. 1, 2
2. Remove access panel to reveal cabin filter housing. Fig. 3
3. Remove cabin filter housing door. Fig. 4
4. Remove cabin filter tray and filter from housing. Fig. 5 & 6 Note: Remove any dirt and debris that may be present in cabin filter housing.
5. Remove filter from tray. Fig. 7
6. Install K&N® cabin air filter into tray. **Note: use caution when installing filter, some trays have tabs that help retain filter.** Fig. 8
7. Reverse steps 1-4 to complete cabin filter installation. With the cabin filter installed, clean an area on the housing and apply the K&N® Stop Decal. The decal will help notify others that this is a reusable cabin filter.
