

INSTALLATION INSTRUCTIONS

Part Number: VF3005

This filter fits:

SEE CATALOG FOR CURRENT APPLICATIONS

K&N® [Cabin Air Filters](#) replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/100,000 mile limited warranty.

When applicable, refer to owner's manual for manufactures installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Locate cabin air filter housing underneath the glove box. Fig. 1 & 2
2. Remove cabin filter housing cover. Depending on your model vehicle, you will need to slide the cover (left or right) before pulling down to remove. Fig. 3 & 4
3. Remove cabin air filter. Fig 5 **NOTE: There may be debris present during the removal of the cabin air filter. Ensure that all debris is removed before installation of K&N® cabin air filter.**
4. Install K&N® cabin air filter into housing. Fig 6 & 7 **NOTE: K&N® cabin air filter has notches built into the sides of the filter. This will allow the filter to bend for easier installation into cabin filter housing.**
5. With K&N® filter installed, replace cabin filter housing cover. Ensure that the cover is seated correctly, then slide to the right to lock cover into place. Fig. 8 **NOTE: With the cabin filter installed, clean an area on the housing and apply the K&N® Stop Decal. The decal will help notify others that this is a reusable cabin filter.**
