

*..küat..*

**NV™ 2.0**  
**ADD-ON**

Compatible with 2" NV only.

# Parts:

Add-on Center Beam

Outer Front Tire Tray

Inner Front Tire Tray

Outer Rear Tire Tray

Inner Rear Tire Tray

## Included in the parts box:

6mm Allen Wrench

8mm Allen Wrench

3x M8x160 Bolts

4x M8 Nut

Bottle Opener  
Key-chain

3x Keys

**STEP 1.** Align the trays with the holes on the center-beam by matching the coordinating labels. Then alternate between bolts to tighten.

**Parts Needed:**

**NOTE:** The trays with the “..Küat..” Logo will be farthest from the hitch. Performing this step with the rack upside down will ease assembly.

**NOTE:** This tray has the M8x160 bolt pre-installed.

**STEP 2.** Remove the end cap from your NV 2.0.

**STEP 3.** Connect the Add-on to the NV 2.0 while aligning the bolts with the threaded holes found in the center beam on the NV.

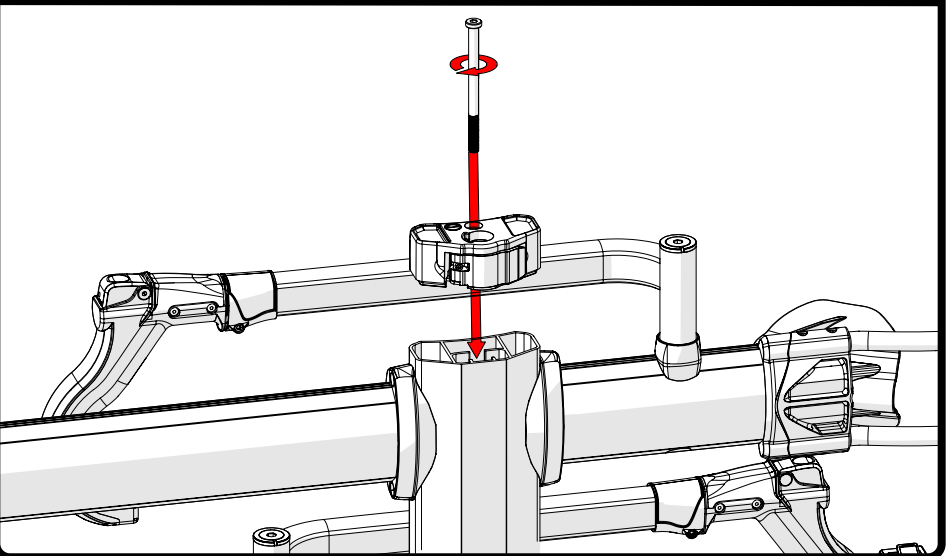

**STEP 4.** Using an 8mm allen wrench alternate tightening the bolts.

**NOTE:** Tighten the bolts and check bolt tightness periodically.

**STEP 5** Reattach the end cap to the rack.
