

NEW PRODUCT RELEASE FROM LILAND GLOBAL:

FORD E-SERIES SUPER DUTY

FOR-06-SS

STAINLESS STEEL

Ethanol and Bio-Diesel will not cause tank to rust internally.

FITS: Ambulances, Disabled Access Vans, Mini School Buses, U-Haul, FedEx, UPS & Other

1997-2010 E Series Chassis with Rear 55 Gallon Tanks Gas & Diesel

41X34X18, 132 LBS

STRAPS

ELECTROSTATIC POWDER COATED

IST5029-3

Upper Strap 3 Piece Set

IST5030-3

Lower Bracket 3 Piece Set

YEAR	OEM#
1999-2001	2C2Z9002A
2002-2003	2C2Z9002EB
2004-2008	7C2Z9002F
2009-2010	9C2Z9002F

LILAND IS INTRODUCING A FULL LINE OF STAINLESS STEEL FUEL TANKS.

Why is Liland doing this?

High concentration of ethanol that sits in the tank sometimes forms toxic acidic cloud that eats the internal fuel tanks and sending units. Stainless steel will not rust internally.

Bio-Diesel and other mixtures of diesel are causing fuel tanks to prematurely internally rust a fuel tank, in less than 9 months in some cases. This will not happen in stainless steel fuel tanks.

Liland strongly recommends our stainless steel fuel tanks rather than tin or galvanized steel in the market place. If you have internal rusting in your fuel system, you have to replace, fuel tanks, sending units, fuel injectors, lines, etc. If you replace your tank with one of our stainless steel tanks, it solves most of the issues. You can sleep better knowing that steel is recyclable. Plastic mixed with gasoline or diesel cannot be recycled.
