ABOUT US

LIONHART
T I R E S

Lionhart Tires has united the very latest in technology, innovation, unique fitment, overall performance, cosmetics and price. We've done this to deliver distributors, retailers and end users the ultimate value in a true UHP, SUV and Off-Road Tire line. Lionhart Tires now includes a full range of passenger, performance, light truck, and trailer tires to accompany our Flagship (UHP, SUV, Off Road) products of the brand.

Lionhart Tires have exceeded all European standards. These same tires are the best choice for the finest European Sports Cars OE fitments. Lionhart Tires also feature sizes that many tire manufacturers currently do not offer. That is why Lionhart Tires is on the cutting edge of the Tire Industry. We are always establishing new markets for wholesale and retail distribution.

The Lion represents "Strength, Courage and Leadership." This can also be said about the Lionhart Tires brand. From the rugged strength of the "LIONCLAW MT" to our new and unique fitments. Lionhart Tires is blazing new roads by leading the way in creating new markets and opportunities. We do this while maintaining the Courage and Conviction to see our vision to its fruition.

Our brand truly has it all. We can realistically grow your business by leaps and bounds with our solid, high quality, reasonably priced full line of tire options. Lionhart Tires are in it for the long haul. We've established the solid base required to make Lionhart Tires successful for years to come. Please take a moment and really look into this prestigious yet humble tire brand. Lionhart Tires could represent the best decision you've ever made.

LIONHART TIRES

PERFORMANCE

A black and white photograph of the front of a Corvette C7. The car is positioned in the lower half of the frame, showing its hood, grille with the bowtie logo, and headlights. Above the car, a thick yellow horizontal bar spans across the width of the image. On this bar, the word "PERFORMANCE" is written in large, bold, yellow capital letters.

KING OF THE ROAD...

LH-THREE II

Specifically engineered for sports cars and high performance sedans who desire style, performance, handling and value! Excellent handling and traction in dry conditions, the LH-Three II incorporates directional tread and lateral grooves which promote consistent and efficient water evacuation to resist hydroplaning in wet traction conditions. The LH-Three II is manufactured in a new state of the art factory with the very latest in technology that incorporates many, if not most of the attributes of major brand tires costing more than double the price! The end result is improved handling response by resisting distortion while maneuvering at excessive speeds.

Performance, handling, looks and value are the attributes that make the Lionhart LH-Three II your number #1 choice in OE replacement!

PERFORMANCE

LH-EIGHT

THE LIONHART LH-EIGHT SPORT TRUCK HIGH PERFORMANCE RADIALS FEATURE AN ALL SEASON TREAD DESIGN. THIS SHOWCASES SYMMETRICAL TREAD BLOCKS THAT INCLUDE AN ISOLATED SHOULDER AND ALTERNATING BLOCKS COMBINED WITH A CONTINUOUS CENTER RIB TO ENSURE STABILITY ON DRY ROADS.

The four wide circumferential and abundant lateral grooves promote water dispersion to decrease hydroplaning in wet weather. The internal construction consists of twin steel belts, 2 polyester plies, coupled with dual nylon caps to ensure a long lasting, comfortable and predictable ride experience.

The Lionhart LH-Eight was designed and developed to merge sports car performance with a passenger car type ride experience! If you're replacing your original equipment or plus sizing your tires, the Lionhart LH-Eight is the logical choice! Performance, looks, safety and value are the attributes our engineers focused on when developing this tire and the result is a high quality tire available at a reasonable price point.

PERFORMANCE

LH-TEN

THE LIONHART LH-TEN SPORT TRUCK M & S RATED PERFORMANCE RADIAL DESIGNED TO MEET AND EXCEED THE NEEDS OF TODAY'S SUV'S, PERFORMANCE PICKUP DRIVERS AND CROSSOVER VEHICLES!

With the distinctive Lionhart insignia prominently embossed on the LH-Ten's sidewall, this tire is not only cosmetically appealing but will provide year round on-road performance with excellent, traction, handling and comfort! Be assured the internal composition of the LH-Ten consists of the very latest in tire technology engineered with state of the art equipment for the very highest in quality control. You can be assured of a safe, comfortable and reliable ride experience.

Excellent steering response, enhanced handling and a long tread life are all the result of superior tread compounds and a directional tread designed for quick steering response in conjunction with the high degree lateral grooves that encourage water dispersion to channel toward the sides of the tire which resists hydroplaning. Looks, performance and reliability are the primary attributes of this high quality, excellent performing tire at a reasonable price.

HIGHWAY TIRE

Here at Lionhart, we needed a premium all season tire created exclusively for today's SUV's, Light Trucks and Sport/Utility Vans. As a result, our experts designed the Lionclaw HT. The tire is a high quality product delivers a very quiet, comfortable, stable and responsive driving experience no matter the road conditions.

We strove to give you this product at substantial savings compared with comparable competing brands. This doesn't mean the tire suffers in quality. We combined the very latest in computer designed technology, modern manufacturing facilities and streamline distribution to bring you this wheel at a highly competitive price point. The result is an affordable tire that gives you all the benefits of a more expensive brand.

The Lionclaw HT is a long lasting, superior performing all season highway tire that enhances and exceeds your expectations. The tire has firmly established enhanced shoulder treatments. Combined with lateral tread notches and a rigid center rib, the tire yields consistently predictable traction and control in all driving conditions. You get excellent performance in all weather including wet or wintry conditions.

ALL TERRAIN TIRE

We have combined current and thoroughly tested technologies to create the newest addition to the innovative and expanding Lionhart Tire line. This tire holds its own with exceptional All Terrain Performance while maintaining a smooth, quiet ride while on the pavement. You gain the benefit of city luxury with rural terrain access. Whether its Rain, Mud or Snow the Lionhart AT tire will provide the aggressive off road performance you expect.

The carefully designed full depth sipes and grooves provide consistent and reliable performance throughout the entire life of this tire. To ensure stability, a unilateral center rib dominates the core of the tire. This solidifies the ride experience on and off the highway.

The Lionhart AT is set at a price point that gives you the full range of terrain access without breaking your wallet. We've found the perfect balance of technology and testing combined with manufacturing and price to provide the tire that truly serves your all-purpose needs.

MUD TERRAIN TIRE

Rain, sleet, snow, and mud are no match for the very latest in mud terrain tread technology, design and off road performance! The Lionclaw's beefed up side wall and tread protection combine with an awesome side and shoulder treatment. This delivers a safe, comfortable and quiet ride. You get all this while retaining the ability to battle the fiercest terrain conditions. Come what may, you'll be ready for anything.

Performance, reliability, longevity and value are some of the key attributes of this predator. Representing the next generation of Mud Terrain tires, the Lionclaw MT is just what you need!

Beyond being just a tire that functions well on broken grounds, Lionhart cares how good you look doing it. The stylish sidewall sets the Lionclaw apart from normal lesser tires. We know you should look aces as you conquer any terrain.

So feel confident as you gobble up the torn earth and look good doing it. The King of the Road insists on it!

THE LIONHART LH-CTS TRAILER TIRES HAVE THE PROPER LOAD CARRYING CAPACITY FOR YOUR TRAILER HAULING NEEDS AND ARE ENGINEERED TO PROVIDE A LONG LASTING, RELIABLE AND DEPENDABLE SUPPORT TO GIVE YOU PEACE OF MIND WHENEVER YOU DECIDE TO HIT THE ROAD EN ROUTE TO YOUR FINAL DESTINATION.

Whatever your trailer needs may be, you can have confidence that the LH-CTS trailer tires can carry the load with consistent, precise and safe results. If you're looking for a workhorse at an extremely reasonable price point, look no

further. Trailer tires have been around a long time and we thought it was time a high quality, lower cost alternative was made available to the general public.

We know this is a tremendous value when making your trailer tire replacement purchase, do yourself a favor and check these awesome trailer tires out!

THE LIONHART LH-303 IS AN EXCELLENT OPTION FOR SMALLER VEHICLES REQUIRING 13, 14 & 15 INCH TIRE REPLACEMENTS.

This tire is a tremendous value. Even though it is inexpensive, it truly provides all the functions you need in a replacement tire. Your value extends to tread life, performance, wet and dry traction and most importantly, safety!

LH-303

Not every car needs expensive sports performance tires. Expensive specialty tires are overkill for everyday urban and rural driving. Quality tread that grips the road while getting you from A to B is what really matters. With the LH-303, this can be achieved without breaking the bank.

The LH-303 is built using time tested tread technology. Your ride will be free to navigate its way through the complex weather mother nature often throws at us. Drive the streets with the confidence you deserve.

The LH-303 is the practical choice for small car tire replacement providing trust worthy driving characteristics at a very affordable price.

SMOOTH AND QUIET RIDES ARE A JOY. WHEN YOUR RIDE HAS HARMONIC TIRES THAT GET YOU FROM A TO Z WITHOUT LOSS OF GRIP OR STABILITY, YOU KNOW YOU'RE ROLLING ON THE LIONHART LH-311.

We want our tires to be well balanced, safe and give us a quiet ride. Achieving proper results in testing is a goal for every tire, but some always perform better than others. The Lionhart LH-311 is part of our Harmonic family of tires. The technology behind this passenger vehicle tire gives an incredibly smooth and stable ride.

The three centralized tread patterns provide stable grip in all directions. Engineered to properly maintain constant contact with the road under any directional conditions, the solid core rings achieve high non-slip standards. The well balanced deep treads and how they've been spaced to handle compression also provide a smooth quiet ride.

Studying and holding every aspect of the LH-311 to the highest standards helped us to achieve this perfectly harmonic tire. Controlling lateral and radial force while providing the best distribution of fore and aft force is a complex science requiring well-planned design and diligent testing. The LH-311 is what happens when both receive diligence.

A BLOWOUT AT HIGH SPEEDS IS A SCARY AND DANGEROUS EXPERIENCE. LIONHART'S LH-403RF RUN FLAT TIRE MINIMIZES THE EFFECTS OF THESE TRAUMATIC MOMENTS.

It's the tires that holds your ride to the earth, so nothing defines your safety like an inflated set of tires. A blowout at an inopportune moment can thrust you into harms way. Lionhart LH-403 Run-Flat tires are the answer to this dilemma. They are designed to bridge that critical moment when a flat occurs and the time you can safely respond.

Self-sealing and self-supporting tires are a result of endless testing on how tires fail. Punctures from road debris often cause instant and violent pressure failure. The LH-403 uses advanced construction technology to instantly seal around imbedded objects. They also seal or slow punctures where an invading object is pulled free. Shifting rubber and internal puncture sealant respond quickly to keep your tire inflated. This can slow tire failure to the point a trip to the tire shop is a inconvenience as opposed to a rescue tow.

Another common factor in tire failure is the loss of stability vertically when tire pressure changes. Lionhart's LH-403 combats this with stiffer internal construction on the sidewalls. This enhanced construction won't carry the weight of the vehicle indefinitely, but it will reduce the violence of sudden pressure loss. Mobility on a damaged tire can be everything when the location you're potentially stranded in isn't ideal. The LH-403's puncture repair and sidewall stability will help you move safely.

PASSENGER

WHEN THOSE NEW EXPENSIVE "ORIGINAL EQUIPMENT" TIRES NEED REPLACEMENT, LOOK NO FURTHER THAN BEST VALUE TIRE IN ITS CLASS, THE **LIONHART LH-404**.

Focusing on 15" & 16" applications with high speed capability (H & V rated) this tire also provides a quiet, responsive and reliable riding experience. The unilateral tread ensures proper road contact in a quiet and refined manner, while the strategically engineered sipes and grooves result in rapid water distribution which equates to non-hydroplaning.

We all love the equipment that comes new with our rides. It was good enough for the manufacturer, so it's often good enough for us. The problem is that product comes with a price and that price is often out of proportion with comparable or even better products on the free market.

That's where the LH-404 comes in. You can keep some of that hard earned money in your pocket while traveling on a quality set of Lionhart tires. Your ride won't be able to tell the difference, so why should your finances?

When those expensive O.E. tires need replacement, the Lionhart LH-404 is a tremendous value in price and performance!
