

Air-Conditioner System Cleaner Gun

Description

Special cleaning gun for optimum application of the specially developed Air Conditioning System Cleaning Fluid, Part. No. 4091/4092. Enables optimum atomization of the cleaning fluid and thanks to the spherical spray jet ensures 100% removal of mold and bacteria such as legionellae from the air conditioning system. The very flexible spray probe allows even the most remote corners to be reached. We recommend that the tips given in our cleaning instructions are observed.

Properties

- optimizes economical use
- simple to use
- long and flexible spray probe
- assures optimum spray diffusion
- cleans air inlet ducts

Areas of application

Developed specially for cleaning and disinfecting air conditioning systems in passenger cars, commercial vehicles and buses as well as domestic air conditioning systems.
