

## Race Car Cover Cleaning Instructions

### Hand Wash (preferred method)

1. Install the cover on a clean dry car
2. Gently spray the cover with clean water
3. Spray or sponge a mild detergent diluted with water onto the cover and lightly cleanse with a soft sponge
4. If the cover is also dirty on the inside you may install it inside out on the car and repeat the steps above, gently cleaning the liner
5. Rinse thoroughly until all suds are gone
6. Air dry

### Machine Wash

1. Wash in a large commercial washer with a mild detergent
2. Use a gentle cycle if possible
3. Wash with cold water
4. Run the rinse cycle twice
5. Air dry
