

# LP AVENTURE BUMPER GUARD - LARGE - (PREMIUM SERIES) - 2020-2021 OUTBACK

We are proud to present the new LP Adventure bumper guard for the 2020 Subaru Outback. This is the first bumper guard to be part of the new PREMIUM SERIES.

#### Premium = STRONGER

Made of DOM steel tubes 1.25"OD with 0.120" wall combined with DOM 1"OD with 0.095" wall, for more strength.

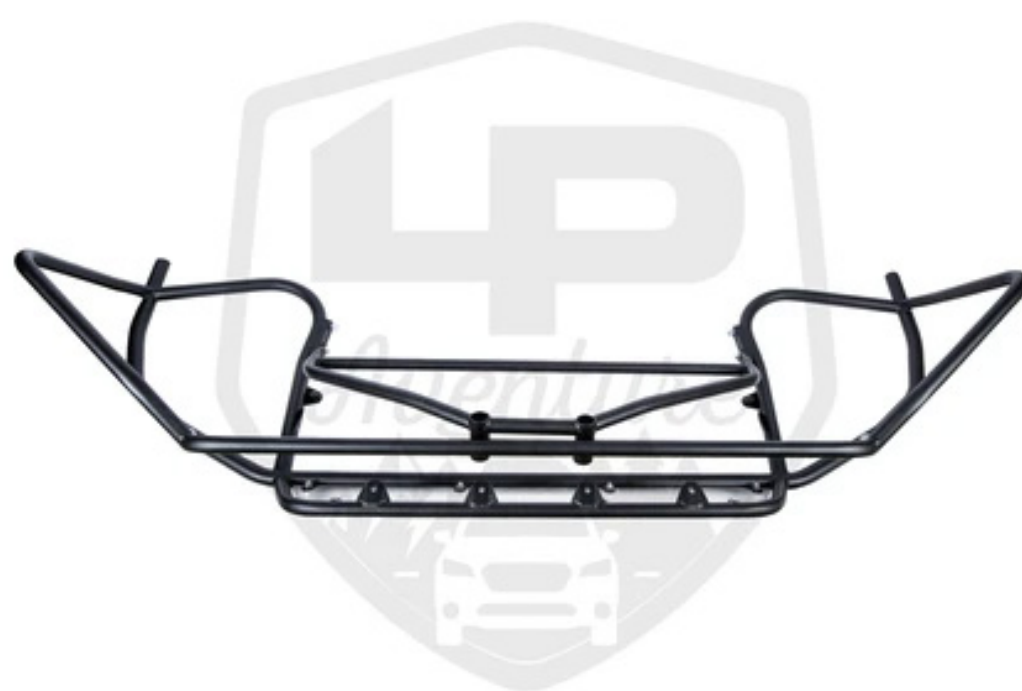

#### Premium for better attack angle

Designed to be even closer to the body in order to maximize the attack angle.

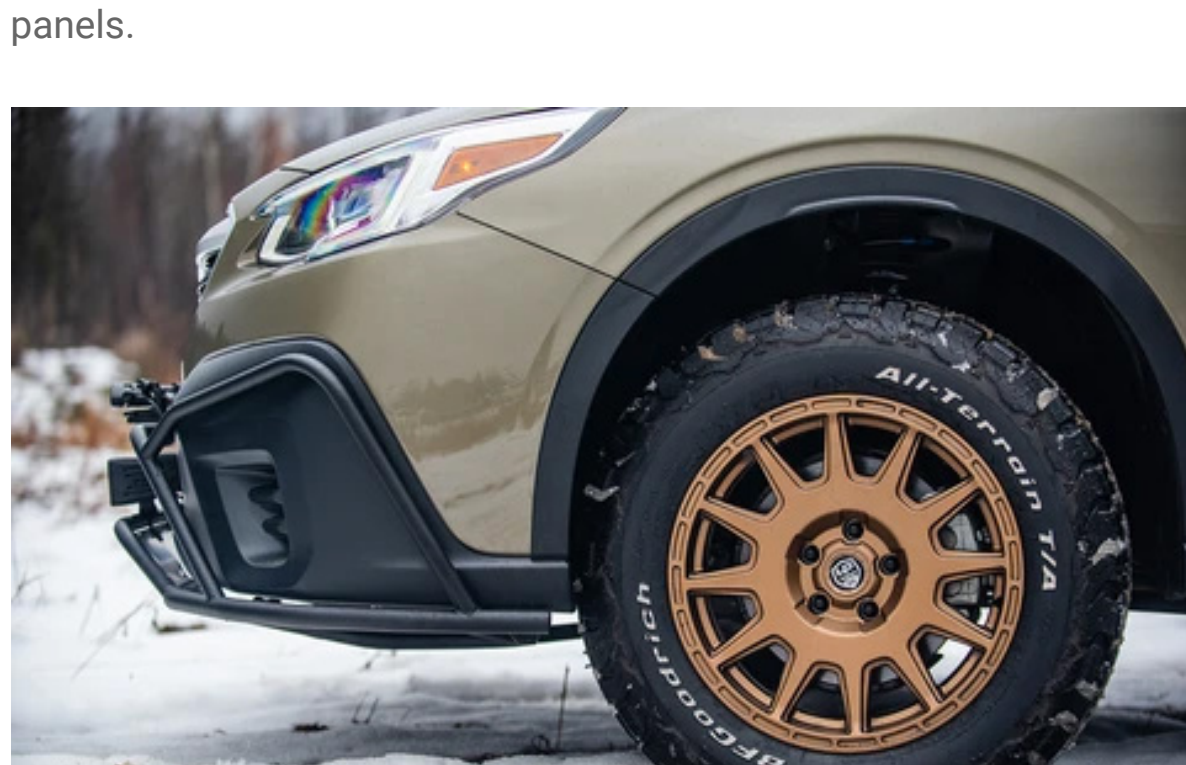

#### Premium for a less expensive shipping

Foldable design of 2 sections to reduce the packaging dimension allowing you to save on shipping costs.

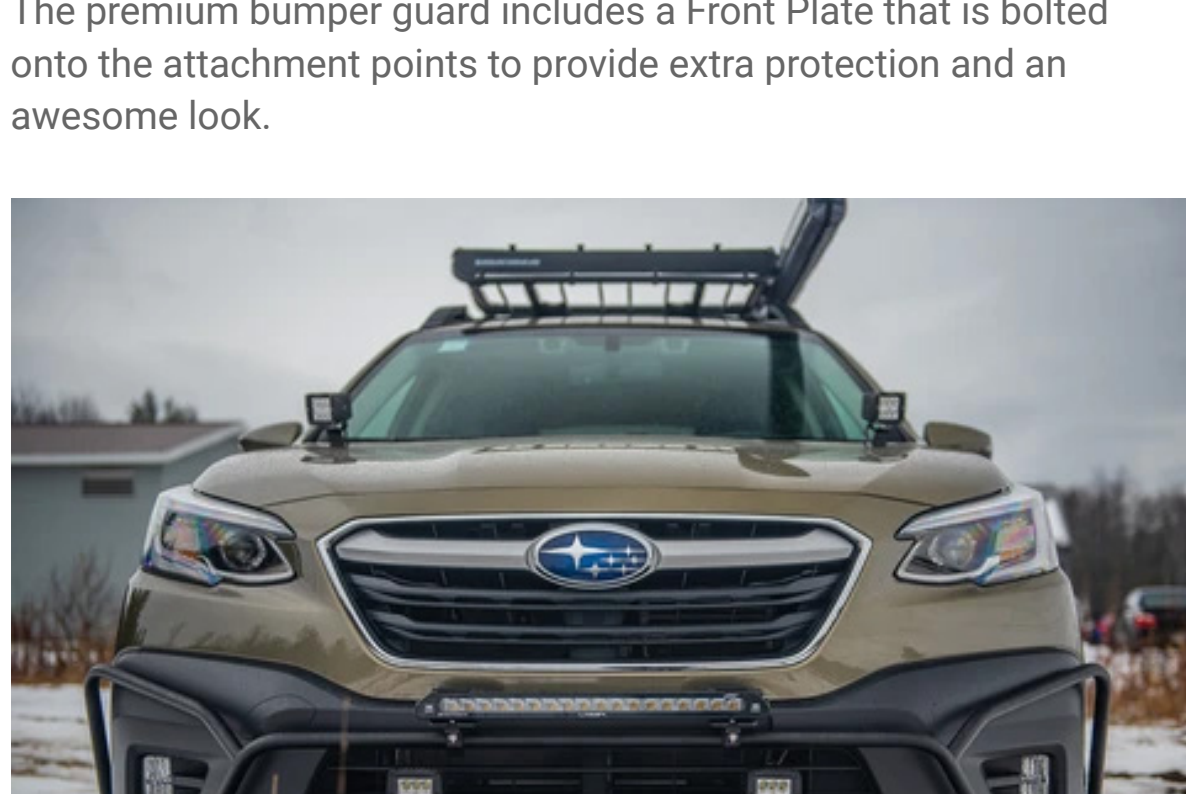

#### Premium for a simple and efficient installation

Designed to allow easy installation without having to remove the front bumper, and you can re-install the original plastic protection panels.

#### Premium for more equipped

The premium bumper guard includes a Front Plate that is bolted onto the attachment points to provide extra protection and an awesome look.

#### What's FULL ARMOR OPTION?

It offers the ultimate protection for the front end of your Outback 2020+.

This option includes two additional skid plates that are installed directly on the bumper guard. These aluminium plates (3/16" thick) cover the two corners of the bumper guard as shown on this picture:

This **FULL ARMORED BUMPER GUARD** is custom made in order to attach and receive the full armor plates. The plates are held by tabs that are welded on the bumper guard tubes.

**The full armor plates can NOT be added to a regular bumper guard. The full armor (plates) option can only be ordered with the FULL ARMOR BUMPER GUARD.**

This is the first full armor option to be included with our PREMIUM bumper guard series.
