

LIMITED SLIP SUPPLEMENT

**For use in all final drives and limited slip posi-traction units.
NOT FOR USE IN AUTOMATIC TRANSMISSIONS**

U.S. PATENT 5,282,989

DESCRIPTION: LUBEGARD® LIMITED SLIP SUPPLEMENT is specifically formulated for the clutches in limited slip differentials. Limited slip differentials depend on the operation of pre-loaded clutch packs on each axle shaft. Gear oils made for standard differentials do not contain the additives that make these clutches work. LUBEGARD® LIMITED SLIP SUPPLEMENT contains patented and synthetic LXE® (liquid wax esters) Technology, an advanced friction modifier to eliminate chatter. It contains rust and corrosion inhibitors to protect bearings and gear surfaces. The LXE® Technology also acts as an enhanced heat transfer component to pull heat out of the gear box and clutches more quickly providing cooler running units. LUBEGARD® LIMITED SLIP SUPPLEMENT benefits all makes of vehicles with limited slip differentials including GM, Ford and Chrysler.

ADDING LUBEGARD® LIMITED SLIP SUPPLEMENT TO A DIFFERENTIAL WILL:

- Universally work in all makes & models with limited slip differentials- Saving Time, Space and Money!
- Eliminate differential chatter, chatter and noise
- Inhibit rust and corrosion
- Reduce differential oil temperatures
- Extend clutch pack and equipment life

FOR USE IN ALL LIMITED SLIP UNITS

DIRECTIONS: Put entire contents of the bottle (4 fl. oz.) into the differential. If necessary, remove enough gear oil to maintain proper level with supplement. Allow 20 miles of road operation for complete mixing.

TYPICAL PROPERTIES:

Specific Gravity, API	0.84
Viscosity Index	193
Flash Point	>450°F
Pour Point	< 0°F

AVAILABILITY:

Stock No.	Unit Size	Case Weight/QNTY
31904	4 oz.	3.22 lbs. (12/case)
31920	4 oz.	4.90 lbs. (12/case)

Note: NOT FOR USE IN AUTOMATIC TRANSMISSIONS!

#31920

Limited Slip Supplement

Superior Friction Modifier Works in ALL Makes & Models including Ford, Chrysler, and GM

LUBEGARD® Limited Slip Supplement is a concentrated friction modifier formulated specifically for eliminating noise and chatter in clutch type limited slip differentials. It can safely be used in all limited slip differentials with either synthetic or petroleum lubricants and replaces manufacturer-recommended friction modifiers.

Limited slip differentials depend on the operation of pre-loaded clutch packs on each axle shaft. Gear oils made for standard differentials do not contain the additives that make these clutches work. LUBEGARD Limited Slip Supplement contains proprietary synthetic LXE® (liquid wax ester) Technology, an advanced friction modifier to eliminate chatter. LXE Technology acts as an enhanced heat transfer component to pull heat out of the gearbox and clutches more quickly providing cooler running units. This formula also contains rust and corrosion inhibitors to protect bearings and gear surfaces.

- » Eliminates differential chatter, groans, squeals and popping
- » Reduces differential oil temperatures
- » Extends clutch pack and equipment life
- » Contains rust and corrosion inhibitors
- » Works for cone or plate type LS differentials

Ask for your free limited slip chart that includes identifications and applications.

LUBEGARD®

THE #1 BRAND

TRUSTED BY MORE
PROFESSIONALS

LUBEGARD® Multi-Vehicle Limited Slip Supplement can be used in place of OE friction modifiers (for example Ford, Chrysler, GM, etc) for limited slip differentials.

IMPORTANT! Please be sure to adequately research technical resources such as your vehicle's manual to determine the type of assembly for your application. LUBEGARD Limited Slip Supplement is only for use in clutch-type limited slip differentials.

LIMITED SLIP DIFFERENTIAL

Identification and Application Chart

For use in all clutch-type limited slip differentials

Eliminate differential chatter and noise

Reduce differential oil temperatures

Extend clutch pack and equipment life

Part #42581

THE #1 FRICTION MODIFIER TRUSTED
BY MORE PROFESSIONALS

LUBEGARD #42581
LIMITED SLIP
SUPPLEMENT

- Eliminates noise. No differential chatter, groans, or squeals
- Reduces differential temperatures
- Extends clutch pack and equipment life

WORKS IN ALL MAKES AND MODELS.

CAUTION: EYE IRRITANT.
Read cautions on back panel.

4 FL OZ (118 mL)

S90/V90	98	Dana LS/Eaton Automatic Lock	1	N/A	N/A
XC 90	03-04	Rear LS Differential	1	N/A	N/A

DIRECTIONS: Pour entire contents (4 fl. oz.) into the differential. Applications with fluid capacities over 2 quarts will require using an additional 4 ounces. If necessary, remove enough gear oil to maintain proper level with supplement. Allow 20 miles of road operation for complete mixing.

Shop for other oils, fluids, lubricants on our website.
