Wheel Chocks

Preparation Before Installation

1. Park your vehicle in a clean, level location. Check to make sure the vehicle is in park, or for manual drive models, place the transmission in first gear. Engage the parking brake.
2. Chock one wheel on both sides with wheel chocks.
3. Unpack the bracket kit and identify the parts according to the content descriptions above.

Installation Steps

Locate brackets on tabs on Pinch Weld
see frames 4 & 5 for proper placement.

1

Insert U-nuts in holes for rear brackets.

2

Do not tighten bolts.

Black Bolt

3

Installation Steps

Front Drivers Side
Repeat for Passenger side

4

5

Use washers to shim brackets or running board where needed.

Leave bolts loose to aid in the installation of the Running Board to the brackets. Refer to Running Board instruction sheet for board installation.

Inspection After Installation

1. Inspect all bolt and nuts for proper tightness.

Care and Cleaning

1. Wash with mild soap and water.

Congratulations!

You have purchased one of the many quality Lund® branded products offered by Lund International, Inc. We take the utmost pride in our products and want you to enjoy years of satisfaction from your investment. We have made every effort to ensure that your product is top quality in terms of fit, durability, finish, and ease of installation.
