INSTALLATION INSTRUCTIONS AND PARTS LIST

APPLICATION: MODEL: 255200/255300 TOW GUARD 15" & 20"

- 1. READ INSTRUCTIONS COMPLETELY AND CHECK TO MAKE SURE THAT ALL REQUIRED PARTS (LISTED ON SERVICE PARTS LIST) ARE ON HAND BEFORE STARTING THE INSTALLATION.
- 2. YOUR TOW GUARD COMES COMPLETELY ASSEMBLED. SIMPLY INSERT YOUR 2"-3" RECIEVER BALL MOUNT THROUGH THE 3-1/16" HOLE IN THE CENTER OF THE TOW GUARD BRACE (ITEM #1). SEE PAGE 2.
- 3. PLACE THE BALL MOUNT, AND TOW GUARD INTO THE RECIEVER OF THE VEHICLE, AND INSTALL THE HITCH PIN.
- 4. <u>ADJUST THE TOW GUARD ASSEMBLY</u> SO THAT IT IS NOT AGAINST THE BUMPER, AND TIGHTEN THE (2) 3/8-16 HEX NUTS (ITEM #6) ON THE 3/8-16 X 3-3/4 CARRIAGE BOLT (ITEM #10) SO THAT THE UPPER (ITEM #4) AND LOWER (ITEM #11) MOUTNING ANGLES ARE TIGHT ENOUGH THAT IT CAN NOT MOVE ON THE SQUARE TUBE.
- 5. IT IS RECOMMENDED THERE BE AT LEAST 4" TO 7" OF CLEARANCE BETWEEN THE GROUND, AND THE BOTTOM OF THE MUD FLAPS (ITEM #2, & 3). YOU MAY HAVE TO REMOVE IT FROM THE VEHICLE AND TRIM THE FLAP TO THE DESIRED LENGTH, EITHER USING A JIG SAW OR A UTILITY KNIFE.

NOTE: DODGE RAM 1500 TRUCKS WITH FACTORY DUAL EXHUAST WILL REQUIRE CUTTING TWO HOLES IN THE RUBBER MUDGUARDS, AND INSTALLING A HEAT SHIELD ACCESSORY KIT #553130.

THIS PRODUCT MAY NOT WORK WITH AFTERMARKET EXHUAST. FORD SUPER DUTIES WILL REQUIRE CUTTING THE RUBBER MUD GUARD ON THE LH (DRIVERS SIDE) 2" X 6" SLOT, TO ALLOW ACCESS TO TRAILER WIRING.

SERVICE PARTS LIST
