

FORD BRONCO 2.3L OVERLAND PART NO. 19556

MAGNAFLOW RECOMMENDS PROFESSIONAL INSTALLATION ON ALL THEIR PRODUCTS

WARNING: When working on, under, or around any vehicle exercise caution. Please allow the vehicle's exhaust system to cool before removal, as exhaust system temperatures may cause severe burns. If working without a lift always consult vehicle manual for correct lifting specifications. Always wear safety glasses and ensure a safe work area. Serious injury or death could occur if safety measures are not followed.

ATTENTION: Always install any supplied band or V-band clamps to the proper torque specifications of 40-45 ft-lbs for band clamps and 70 in-lbs for V-band clamps. Over tightening will result in the clamp breaking and will NOT be warranted by MagnaFlow.

INSTALLATION INSTRUCTIONS

Begin removal of the OE exhaust system by removing the fasteners attaching the exhaust to the flex pipe.

With the system supported, working front to rear disengage the hangers from rubber insulators and remove the OE system. Do not discard or damage the clamp or rubber insulators as they will be used to install the new system.

Begin installation of your new MAGNAFLOW system by attaching the Inlet Pipe Assembly to the flex pipe using the OE Fasteners. Engage the welded hanger to the rubber insulators. Keep all fasteners and clamps loose until final adjustment.

The included Connector Pipe is required for the four door model only. It is to be installed between the Inlet Assembly and the Over-Axle Pipe. if you have the two door model this pipe may be discarded.

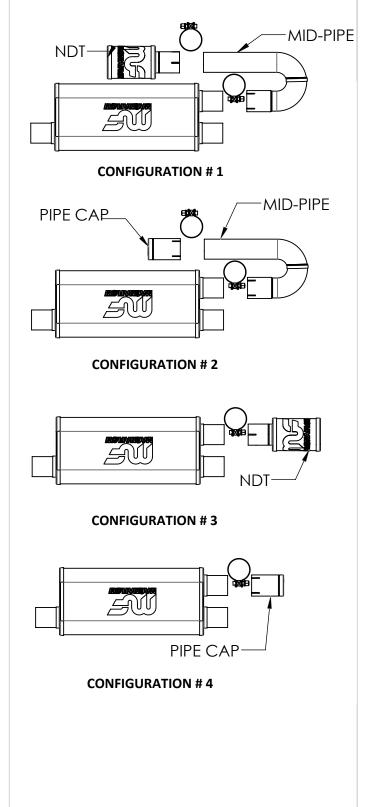

INSTALLATION INSTRUCTIONS

Step 5: Next loosely install the Over-Axle and Extension Pipe Assemblies using the supplied 3.00" clamps. Locate all welded hangers to the rubber insulators.

Step 6: Next attach the Oval Muffler to the Extension Pipe Assembly with the supplied 3.00" clamp. This exhaust system is configured to allow the user to tune the sound. For a more moderate exhaust sound install the U-pipe Assy and the 4.00" NDT Chamber (as shown) using the suppled 2.50" clamps. For a more aggressive sound see configuration chart.
