

FIT GUIDE OVERVIEW

Malone Canoe and Kayak Carriers feature the JAWZ universal attachment system designed to fit all types and shapes of cross bars.

- Aftermarket Cross Bars: Our JAWZ mounting system attaches to round, square and oval cross bars using the standard hardware. If you're cross bars do require optional mounting bolts **BUY SPARE PARTS**.
- Factory Cross Bars: To confirm the fit requirement for factory installed cross bars, please use the automated Fit Guide above. Note: Some factory cross bars may not be recommended or require optional mounting bolts.

Malone AirFlow2™ and SteelTop Cross Bars are for vehicles with factory installed raised side rails. Please use the automated Fit Guide above for vehicle compatibility and cross bar length requirement.

Malone VersaRail Cross Bars are for vehicles with a bare roof. Please use the automated Fit Guide above for vehicle compatibility and cross bar length requirement. Please Note: Installation requires two pass-through straps that can inhibit the deployment of side-curtain air bags. In no event will Malone be liable for any direct, indirect, consequential, incidental, special exemplary, or punitive damages, or, for any other damages of any kind or nature due to the installation and/or use of Malone VersaRail Cross Bars.

Malone HandiRack and HR20 Roof Racks are for vehicles with a bare roof. Please use the automated Fit Guide above for vehicle compatibility and cross bar length requirement. Please Note: Installation requires two pass-through straps that can inhibit the deployment of side-curtain air bags. In no event will Malone be liable for any direct, indirect, consequential, incidental, special exemplary, or punitive damages, or, for any other damages of any kind or nature due to the installation and/or use of Malone HandiRack or HR20 Roof Racks.
