MASTER LOCK® COMMERCIAL SECURITY

ABOUT US

Recognized as the authentic, enduring name in padlocks and security products, Master Lock® has set the standard for quality and selection for more than 95 years.

THE BROADEST LINE
Master Lock offers a full line of products for virtually any commercial, institutional and industrial security and safety application.

SUPERIOR PRODUCT QUALITY
All Master Lock products are built with the unmatched strength and durability that you've come to know and trust. Each lock is individually tested to ensure years of trouble-free operation, dependable performance and peace of mind.

CONTROLLED KEY SECURITY
Establish a safe, secure and convenient locking system – Master Lock stands alone among padlock suppliers in designing security into the padlock's cylinder and operating key, and providing key and installation database security management services as needed to assure the utmost in system integrity.

UNMATCHED SALES SUPPORT
Service is available to you through our broad network of distributors as well as Master Lock's experienced sales organization.

PERSONAL SERVICE
Our inside customer service group stands ready to provide assistance to your call.

PROMPT DELIVERY
Direct from our stocking distributors, or alternatively, through one of Master Lock's ISO-9001 certified facilities, our stock product distribution center or special product 'Make-to-Order' factory.

You can trust Master Lock for the products, security, support and service you need.

PADLOCK KEYING SECURITY

ESTABLISHING A SAFE, SECURE AND CONVENIENT LOCKING SYSTEM

Keying Security is Equally Important to Physical Security in Commercial Security Applications

Keying security includes the security designed into the padlock's cylinder and operating key, and the way in which the product is supplied to the marketplace. Master Lock stands alone among padlock suppliers in both categories of keying security:

- Master Lock provides the largest range of tight-tolerance cylinders and keys that vastly eliminate unwanted key interchange. This helps to ensure one employee's key will not be able to inadvertently open a second lock.
- Master Lock offers key control services, and charted and reserved systems, all of which assure that your company's padlocking system maintains the utmost in key integrity, even as you reorder padlocks. This means that additional padlocks ordered can all be specified to operate by distinct keys, if that is your requirement.

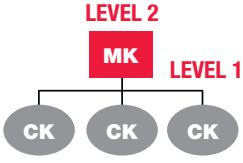
Establishing an Optimal Padlock Security System

Evaluate Your Present & Future Needs:

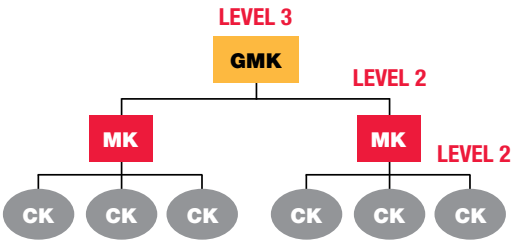
- Do you want each padlock to have a different operating key? Specify keyed different (KD) padlocks.
- Do you want groups of padlocks to be opened by a single key? If so, order keyed alike (KA) padlocks. For example, it is often desirable for each employee to have their own set of keyed-alike locks.
- Do you want a supervisor to be able to open a range of keyed-different padlocks? Order master keyed (MK) locks. See "Master Keying" section for more information.
- How many padlocks will you need? If you require thousands of distinct operating keys, with no repeats, you will want to specify a Master Lock commercial security padlock with a 5-pin or 6-pin cylinder. See "Key System Capacity" for more information.
- Do you want your padlock to be opened by the same key that opens your door lock? You can!

Master Keying

Master keyed (MK) locks have to be ordered as such initially. Locks are not automatically pre-set so that a master key can later operate them. When you initiate a master-keyed lock system, you should also identify how large and complex the system might eventually become.



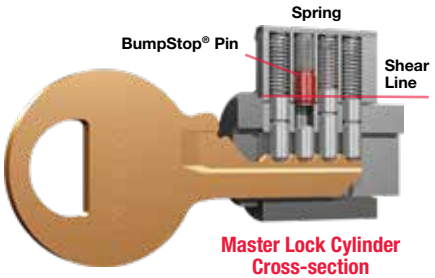
This chart illustrates a simple MK system, wherein a single master key will open any of several keyed-different change keys (CK).



Many MK systems provide additional levels of control, as diagrammed here. The level 3 grand master key (GMK), held by the security director, would open all locks throughout the system.

Lock Bumping Solution

Lock bumping has become a recognized method of violating most in-line pin tumbler cylinders. In response, The Master Lock Company stepped forward to create a revolutionary new lock cylinder that provides excellent protection against lock bumping, as established in the ASTM Standard F883-09. Our BumpStop® solution employs an innovative, patent-pending design which utilizes a unique reverse-rake tapered driver pin, high-performance springs, and precision-tolerance chambers. During a bump attempt, this solution prevents the transfer of force from the bump key to the pins and blocks rotation of the cylinder – so the lock stays locked. This feature is available in a broad range of Master Lock padlocks and door hardware and can be ordered by adding an "N" to the product number. Example: 6121N (vs. 6121), 3N (vs. 3).



Master Lock Cylinder Cross-section

BUMP STOP®

Advanced Cylinder Technology

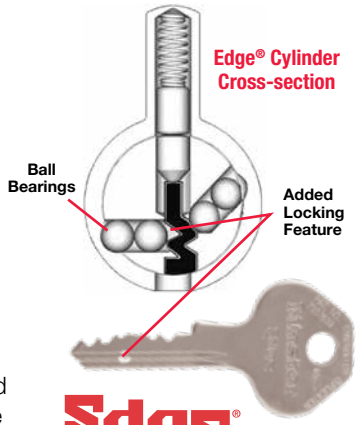
Key Control Options

The patented Edge® Key Control System provides absolute key control, eliminating the risk of unauthorized key duplication. The innovative and exclusive cylinder design has an additional locking feature to increase security. Edge® is available in the full range of Master Lock commercial laminated and ProSeries® padlocks.

Restricted Keyways Key blanks are not sold. Cut keys are only available from the factory for charted systems. Master Lock maintains restricted key systems specifically for safety lockout padlocks, where safeguarding employees is the absolute priority.

Reserved Keyways The factory limits key blank distribution to specific customers. Cut keys are not readily available. Master Lock offers reserved key systems (RSV) for its complete ProSeries® and laminated product lines for commercial applications.

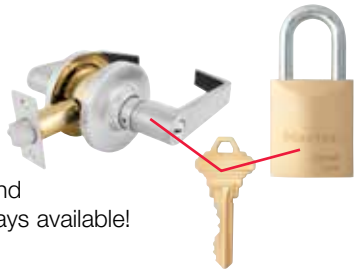
Charting Services Master Lock will keep a complete record of the progressive key codes assigned and manufactured into a customer's padlocks for each order. Request this special service to receive a Commercial User ID number to reference on all subsequent orders. Any order submitted with the Commercial User ID will be manufactured to comply with the facility's key system requirements.



Edge® Key Control

Matching Your Security Door Lock Keys

The versatile ProSeries® line can also be ordered to operate with the same keys used in your current door security system. This can greatly increase convenience (fewer keys to carry) and security (padlocks operate with the same high-security, controlled keys). ProSeries® can integrate with door security systems from Schlage®, Yale®, Kwikset®, Corbin®, Weiser®, Sargent®, Russwin® and Weslock®; even interchangeable core keyways by Best®, Arrow™ and Falcon®...many popular keyways available!



Key System Capacity

All cylinders have limits to the number of change keys that can be provided. Be aware that whenever KD padlocks are supplied from open stock, the possibility exists that two or more locks provided will have the same operating key. This possibility of overlap increases as additional non-charted (see Charting Service) stock orders are received. It is important to know the key change limits of the padlocks you are considering for your security system. If the supplier does not, or can not, provide this information, the integrity of your keying system may be suspect.

Consulting & Support

Master Lock's customer service staff and field sales representatives are qualified and ready to help you establish a safe and convenient padlock security system for your company. Call or visit the Master Lock website to get started on the path to effective keying security.

This chart identifies the change key ranges of standard BumpStop® technology padlock cylinders.

PADLOCK SERIES	MODEL NUMBERS	# OF KEY CHANGES IN KD SYSTEM	# OF KEY CHANGES IN MK SYSTEM
Edge® 6 Pin	WP6 in Master Lock	90,000	6,000
Edge® 4 Pin	WP4 in Master Lock	1,200	140
ProSeries® 6 Pin	6100's, 6300's, 6800's, 7000's	90,000	10,100
ProSeries® 5 Pin	6100's, 6300's, 6800's, 7000's	14,200	1,300
Safety Lockout	410, 406, 411, S30, S6835	40,000	140
5 Pin Laminated Pin Tumbler	21, 31, 81 & others	14,200	1,300
4 Pin Laminated Pin Tumbler	1, 2, 3, 4, 5, 6 & others	1,200	248
Small 4 Pin Laminated Pin Tumbler	7, 8 & others	800	160

Quantities listed in the last two columns are actual quantities of keys available.
Mathematically there are many more keys that can be calculated but may have been eliminated because they are undesirable or create a mechanical limitation. For additional models and key change information, contact Master Lock Company Customer Care.

MASTER LOCK® VAULT ENTERPRISE

ADVANCED SECURITY AND ACCESS MANAGEMENT SYSTEM

The Master Lock Vault Enterprise software and suite of *Bluetooth*® enabled hardware provide business users who manage many locks and many users with a convenient way to control access, manage assets and improve accountability. This proven security innovation eliminates the cost, security risk and complexity of physical keys.

Innovative Features

- Efficiently manage access to ensure the right users have the right access
- Simplify security set-up with bulk user uploads and fast lock scanning for registration
- Automatically map lock and lock box locations via smartphone
- Easily monitor access with robust data and audit trails
- Assured back-up entry method using manual, directional or numeric code on hardware
- Leverage the security of 256-bit, military-grade encryption

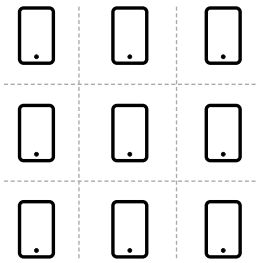
FLEXIBLE ASSET MANAGEMENT

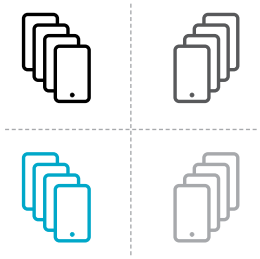
Whether it's one lock or thousands, Master Lock Vault Enterprise provides businesses with unmatched security, simplicity and accountability.

INDIVIDUAL



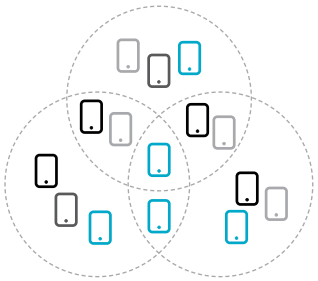
Share permanent or temporary access with our app that turns smartphones into smart keys.

GROUP



Easily assign users and devices to unique access groups, on demand.

CUSTOMIZED



Enjoy system-wide customization, including the ability to overlay groups for efficient access management.

AROUND THE CLOCK ACCESS

Integrated into the suite of Bluetooth enabled products, the easy-to-use Master Lock Vault Enterprise app eliminates the need for physical keys and key management, lowering costs and enhancing security. Users view detailed lock-use history, including unlock, open and relock activity.

COMMERCIAL MAGNUM®

COMMERCIAL MAGNUM® PADLOCKS

MAGNUM®

Commercial Magnum® offers a stainless-steel-encased, laminated steel body, which provides weatherability and security for applications in outdoor, corrosive and caustic environments. The dual-ball bearing locking mechanism has maximum resistance against prying and hammering. A chrome-plated, boron-carbide octagonal shackle impedes cutting and sawing.

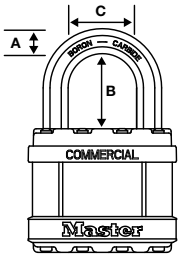
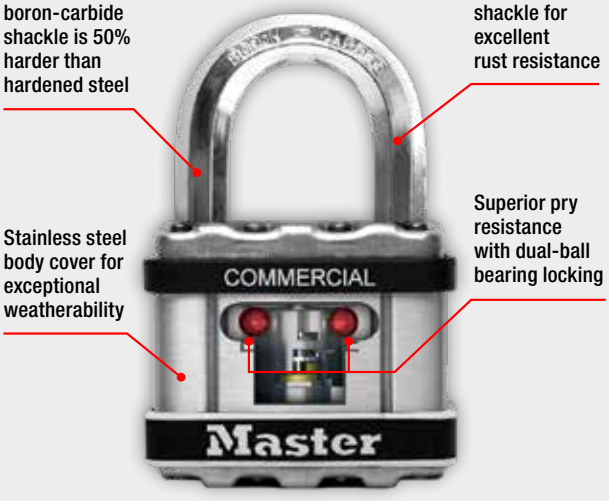
M1KASTS



M5KALJSTS



- Key to match existing 4-pin W1 systems
- Edge® Key Control available

PROSERIES® HIGH-SECURITY PADLOCKS

- Greatest physical security available:
  - Heavy steel bodies
  - Hardened steel and boron-alloy shackles for superior cut resistance
  - Dual deadbolt locking for extreme resistance to prying
- Rekeyable – replaceable cylinder and shackle
- High key security:
  - 5-pin tumbler ProSeries® cylinders provide tens of thousands of key changes
  - Special spool pins are virtually impossible to pick

Solid Iron Shroud

- Greatest security against bolt cutters
- Proprietary rustproofing for longer life
- Defeats attempts to pry and cut

GENERAL SECURITY REKEYABLES

GENERAL SECURITY REKEYABLE PADLOCKS

- A rekeyable padlock allows you to quickly remove an old cylinder and either change the pins or replace it
- 5-pin cylinder standard for all rekeyable padlocks
- Double ball-bearing locking mechanisms provide extra pry resistance
- Save money and replace cylinders instead of locks
- Rekeying kit contains an extensive assortment of the most frequently used components to replace or rekey cylinders, including ProSeries® locks
- Extra reach lock (no. 101) is ideal for wide-span applications, like commercial refrigerators

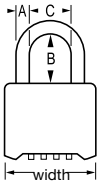
8	1-1/8in (28mm) w. Body. Shackle Dim.: A: 3/16in (5mm) C: 1/2in (13mm)	9/16in (14mm)
4	1-9/16in (40mm) w. Body. Shackle Dim.: A: 9/32in (7mm) C: 5/8in (16mm)	3/4in (19mm)
2	1-3/4in (44mm) w. Body. Shackle Dim.: A: 5/16in (8mm) C: 3/4in (19mm)	15/16in (24mm)
6	2in (51mm) w. Body. Shackle Dim.: A: 3/8in (10mm) C: 15/16in (24mm)	1in (25mm)

KEYING OPTIONS:	KD-Keyed Different (default option), KA-Keyed Alike, MK-Master Keyed, N-BumpStop® Advanced Cylinder Technology, WP4-Edge® Key Control 4-pin cylinder
SHACKLE OPTIONS:	LF = 1-1/2in (38mm) – Lock Models 8, 4, 2, 6 LH = 2in (51mm) – Lock Models 4 LJ = 2-1/2in (63mm) – Lock Models 8, 2, 6 B = Brass Shackle – Lock Models 8, 4, 2, 6

GENERAL SECURITY

Resettable Combination

- Use combination reset feature to restrict/change allowed access
- 4-digit direct-dial operation – reset to any of 10,000 combinations (Nos. 878 & 975 require no reset tool)
- Heavy hardened shackle provides high resistance to cutting and prying
- Solid case for strength and weatherability
- No. 176 with key override feature for supervisory access
- No. 878 & 975 feature dead-locking mechanism to protect against prying, shimming and rap attacks



MASTER LOCK MODEL #	DESCRIPTION	VERTICAL SHACKLE CLEARANCE (B)
175	2in (51mm) w. Solid Brass Case. Shackle Dim.: A: 5/16in (8mm) C: 1in (25mm)	1in (25mm)
175DWD	175 w/4-Digit Letter Combination Padlock	1in (25mm)
176	Key Override, 2in (51mm) w. Solid Brass Case. Shackle Dim.: A: 5/16in (8mm) C: 1in (25mm)	7/8in (22mm)
178BLK	Die-Cast Black, 2in (51mm) w. Solid Brass Case. Shackle Dim.: A: 5/16in (8mm) C: 1in (25mm)	1in (25mm)
878	Powder Coated Black, 2in (51mm) w. Solid Zinc Case. Shackle Dim.: A: 5/16in (8mm) C: 1in (25mm)	1in (25mm)
975	2in (51mm) w. Solid Brass Case. Shackle Dim.: A: 5/16in (8mm) C: 1in (25mm)	1in (25mm)

SHACKLE OPTIONS:	LH = 2in (51mm) – Lock Model 975; 2-1/4in (57mm) – Lock Models 175, 176

Economy Steel

- For applications requiring basic tamper resistance: well covers, dumpsters and low-valued property
- Laminated steel body withstands physical abuse
- Rustproofed for extended wear
- Warded locking mechanism minimizes binding from dirt and grime
- Nos. 510D and 517D feature removable adjustable shackles

MASTER LOCK MODEL #	DESCRIPTION	VERTICAL SHACKLE CLEARANCE (B)
10D	1in (25mm) w. Body. Shackle Dim.: A: 5/32in (4mm) C: 13/32in (10mm)	7/16in (11mm)
105D	1-1/8in (28mm) w. Body. Shackle Dim.: A: 3/16in (5mm) C: 1/2in (13mm)	1/2in (13mm)

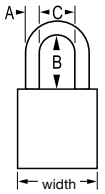
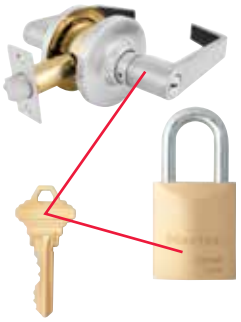
KEYING OPTIONS:	KA-Keyed Alike
SHACKLE OPTIONS:	LF = 1-1/2in (38mm) – Lock Model 4130; LH = 2in (51mm) – Lock Model 4140; LJ = 2-1/2in (63mm) – Lock Model 4130, 4150



KEY-IN-KNOB AND INTERCHANGEABLE CORE PADLOCKS



- With your existing records, Master Lock can re-create and expand your current key system
- Cylinders may be ordered both seperately, keyed up and ready to plug into your system or as part of a complete Master Lock door-key-compatible padlock assembly

Key-In-Knob

- Use the same key that opens your door
- Padlock bodies accept the following OEM cylinders: Medeco® #20W20000 6-pin cylinder, Schlage® (6-pin Key-in-Knob), Assa® (65611), Lori® #1539, Schlage® Primus® and GMS® cylinders

MASTER LOCK MODEL#	DESCRIPTION	VERTICAL SHACKLE CLEARANCE (B)

MULTI-USER AND ELECTRONIC BUILT-IN LOCKER LOCKS

Mechanical Multi-User

- Intuitive, easy-to-use design
- Set-your-own 3-digit combination
- Retains current combination until reset
- Sleek design with satin finish
- Designed for multiple users in a day for high customer turnover facilities
- Eliminates distribution, tracking and management of keys, combinations or locks
- Concealed mounting and rugged zinc case
- Override key allows quick supervisory access

3630

3670

MASTER LOCK MODEL #	DESCRIPTION
3630	Set-Your-Own combination lock – For standard lift handle lockers – manual deadbolt locking, right-hand hinged door – override key sold separately
3631	Set-Your-Own combination lock – For standard lift handle lockers – manual deadbolt locking, left-hand hinged door – override key sold separately
3670	Set-Your-Own combination lock – For lift handle, turn handle and single point latch/box horizontal latch lockers – manual deadbolt locking, right-hand or left-hand hinged door – Override Key sold separately

K3630	Supervisory override key

Electronic

- High-visibility display provides clear locker vacancy status
- Electronic deadbolt locking
- Long battery life with 1 CR123A lithium battery
- Sensors provide visual and audible jam alerts
- Unique backup master code simplifies facility manager access
- Supports single and multi-user modes
- Optional admin key for easy locker checks and settings changes
- ADA-compliant model with *Bluetooth*® enabled fob available

3685

1566

3681

MASTER LOCK MODEL #	DESCRIPTION
3685	Electronic deadbolt locking for single point latch lockers; left- or right-hand hinges
3681	Electronic deadbolt locking for single point latch lockers; left- or right-hand hinges; comes with Bluetooth fob for ADA compliance
1566	Optional administration key

MECHANICAL BUILT-IN LOCKER LOCKS

- Standard key control provides quick supervisory access
- End-user registration assures key system integrity
- Control charts simplify administration (combination locks)
- Colored metal dials available on some models

Wrap-Around-Latch™ Built-In Combination and Key Operated Locks

- Uses the same technology as an automotive door lock system, utilizing slam shut operation combined with a rotating latch that wraps around the latch plate
- Designed for single point latch lockers
- Provides the most robust design and requires the least adjustment for proper operation

MASTER LOCK MODEL #	DESCRIPTION
1690	Automatic deadbolt locking for single point latch lockers. For doors with door hinges on the right.
1790	High Security Cylinder and Manual Deadbolt Locking

CNTLKEYBI	Control Key

1790

Built-In Combination Locks

- For lift handle, turn handle, single point latch and box lockers
- Concealed mounting and rugged steel case deter vandalism
- Longer, useful life with five different combinations which are easily changed for new students or employees to maintain security
- 3-digit combination is easy to dial

MASTER LOCK MODEL #	DESCRIPTION
Automatic Deadbolt Locking Mechanism for Lift Handle Lockers	
1630	For Lockers with Door Hinges on Right
1631	For Lockers with Door Hinges on Left
Automatic Springbolt Locking Mechanism for Single Point Latch Lockers	
1652	For Lockers with Door Hinges on Right
1653	For Lockers with Door Hinges on Left
Automatic Springbolt Locking Mechanism for Box Type Lockers	
1654	For Lockers with Door Hinges on Right
1655	For Lockers with Door Hinges on Left
Manual Deadbolt Locking Mechanism for All Types of Lockers	
1670	For Lockers with Door Hinges on Right
1671	For Lockers with Door Hinges on Left

All-Purpose Key Operated Locks

- Built-in locks for all locker applications
- High-security, 5-pin tumbler cylinder for superior pick resistance
- Concealed mounting and rugged steel case deter vandalism
- Each model fits both left handed and right handed doors
- Appropriate for lockers with multiple users who are assigned access for short time periods
- Two keys provided for each lock

MASTER LOCK MODEL #	DESCRIPTION
1710	High Security Cylinder and Manual Locking Deadbolt
1714	High Security Cylinder and Automatic Locking Springbolt

KEYING OPTIONS:	KA-Keyed Alike, MK-Master Keyed, GK-Group Keyed

PORTABLE LOCKER LOCKS

Combination Security

- World's best-selling combination lock
  - Reinforced stainless-steel outer case
  - Hardened steel shackle for cut and saw resistance
  - BlockGuard® Anti-Shim Technology deters shimming
  - Available in numerical or letter combinations
- High-security combination lock
  - Double armored stainless-steel case
  - Dual-ball locking and boron-alloy shackle for superior pull, pry, rap and cut resistance
- 1525, 1585 and 2010 have key control override for supervisory access (key ordered separately)

BLOCK GUARD® Anti-Shim Technology

SAFETY LOCKOUT PRODUCTS

Zenex™ Thermoplastic Safety Padlocks

- Designed by safety directors specifically for OSHA lockout compliance
- Durable, lightweight, non-conductive thermoplastic lock body is easy to carry
- Customize onsite with permanent, write-on “Danger” and “Property of” labels
- High-security, reserved-for-safety cylinder – up to 100,000 key changes
- Compliance with OSHA “one employee, one lock, one key” directive
- Laser engraving service available for an additional charge
- Key retaining – ensures that padlocks are not left unlocked (except model S33)

MASTER LOCK MODEL#	DESCRIPTION	VERTICAL SHACKLE CLEARANCE (B)
406	1-1/2in (38mm) w., 1-3/4in (44mm) Tall Body. Nylon Shackle Dim.: A: 1/4in (6mm) C: 25/32in (20mm)	1-1/2in (38mm)

Safety Lockout Hasps

- Lockout by up to six workers at each lockout point
- Keep equipment inoperative while repairs or adjustments are made
- Attach device to energy disconnect switch
- Traditional, scissor-action hasps
  - Available in two jaw diameters to fit all applications
  - Durable heavy-gauge steel construction
  - Insulated with bright vinyl coating
- Snap-on hasp
  - Quick, one-handed attachment to energy switches and controls
  - Aluminum and stainless steel construction
  - Write-on, erase-off labels included for worker identification

MASTER LOCK MODEL#	DESCRIPTION
420	1in (25mm) Inside Diameter, Scissor Hasp
421	1-1/2in (38mm) Inside Diameter, Scissor Hasp
427	1-3/8in (35mm) Inside Diameter, Snap-on Hasp

FLEXIBLE SECURITY PRODUCTS

Python™ Adjustable Locking Cable

- Patented cinch-locking mechanism holds the cable tight for infinite locking positions
- Weather-tough aluminum-alloy body, cylinder shutter and vinyl-coated cable resist rust and operate in extreme conditions
- Keyed alike convenience with the removable, rekeyable cylinder — key to other Python™ locking cables, Master Lock padlocks or systems with the W1 cylinder
- Increased pick resistance with the patented, modified wafer cylinder
- Cut-resistant, 3/8in (10mm) 100% steel, braided cable
- Interchangeable cables in 4ft (1.2m) to 30ft (9.1m) for application flexibility
- Order any cable length from 2ft to 30ft in 1-foot increments

MASTER LOCK MODEL #	DESCRIPTION
8418	Python™ Adjustable Locking Cable
8413CBL*N*	Length of Cable (*N* = 2 feet through 30 feet, increments of 1 foot) Ex. CBL2 - CBL30

Recognized as the authentic, enduring name in padlocks and security products, Master Lock® has set the standard for quality and selection for more than 90 years.

Building on this tradition, Master Lock has greatly expanded its commercial product line, especially for safety lockout and high security applications. Today, there are many good reasons to specify Master Lock padlocks for your applications:

The broadest line: Master Lock offers a full line of products for virtually any commercial, institutional, industrial security and safety application.

Superior product quality: All Master Lock products are built with the unmatched strength and durability that you've come to know and trust. Each lock is individually tested to ensure years of trouble-free operation, dependable performance and peace of mind.

Controlled key security: Allows you to establish a safe, secure and convenient locking system. Master Lock stands alone among padlock suppliers in (a) designing security into the padlock's cylinder and operating key, and (b) providing key and installation database security management services as needed to assure the utmost in system integrity.

Unmatched sales support: Service and consultation is available to you both through our broad network of distributors as well as Master Lock's experienced sales organization.

Personal service: Our inside customer service group stands ready to provide assistance to your call.

Prompt delivery to you: Direct from our stocking distributors, or alternatively, through one of Master Lock's ISO-9001 certified facilities; our stock product distribution center or special product 'Make-to-Order' factory.

You can trust Master Lock for the products, security, support and service you need.

Great Technologies

Button-Less Combination Change

No Buttons to Push. No Doors to Open. No Accidental Combination Changes.

The redesigned 1652 Series now features a patent-pending button-less combination change process that allows you to switch to the next combination without having to open the locker door! Sporting an all-new sleek dial design, this lock saves on overall maintenance time and prevents accidental combination change by overstuffed lockers.

BlockGuard® Anti-Shim Padlock Technology

Advances Padlock Security to the Next Level.

BLOCK GUARD® Anti-Shim Technology

Leading the market with innovative security solutions, Master Lock® offers the patented BlockGuard® Anti-Shim Technology – the very best in shim deterrence for combination padlocks.

These enhanced combination locks deter shimming, a method of violating a lock by inserting a specially designed shim tool into its latch mechanism. BlockGuard® has unique flat latch technology that actually blocks typical shimming tools from opening the lock – deterring break-ins.

Master Lock exclusive BlockGuard® Anti-Shim Technology (U.S. Patent No. 8,099,985) is now available on Models 1502, 1525, 1572, 1585 and 2076.

Wrap Around Latch™ Technology

The Best Lock for Single Point Latch Lockers!

The patented model 1690, 1695MKADA, and 1790 built-in locks use the same technology as an automotive door lock system, utilizing slam shut operation combined with a rotating latch that wraps around the latch plate. Designed for Single Point Latch Lockers, these locks provide the most robust design and requires the least adjustment for proper operation (U.S. Patent No. 7,984,630).

Latch Wraps Around The Latch Plate

Less Maintenance, More Security, Easy-To-Use

EXTREMELY PRY RESISTANT

FRONT VIEW BACK VIEW

The lock latch can not be easily separated from the latch plate through horizontal or vertical prying.
Latch hits side stop and bottom before disengaging: Can not come off latch plate!

EXTREMELY SHIM RESISTANT

FRONT VIEW BACK VIEW

Even in the case of ventilated lockers the 1690/1790 hold strong as the Wrap Around Latch™ prevents the use of shims and similar techniques for opening the door.
Dead bolt latch automatically locks in position once the locker door is shut, preventing defeating the lock through attempts to move or shim the lock.

INCREASED HORIZONTAL TOLERANCE

FRONT VIEW BACK VIEW

A wider operating range reduces the need for call backs or future maintenance adjustments. This saves your facility time and money.
The 1690 design offers a much wider operating range.

ADA Lock Solutions

ADA COMPLIANCE DEFINED

Compliant

The Master Lock® 3681 Electronic Built-In Lock, 1600 ADA Series and 1700 ADA Series Built-in Locks meet the United States Department of Justice "2010 ADA Standards for Accessible Design". This Standard requires 5% of lockers meet ADA specifications. In addition, these standards state that operable parts, the locks, meet the following requirements:

- Shall be operable with one hand
- Shall not require tight grasping, pinching, or twisting of the wrist to operate
- Shall have a force required to activate of 5 lbf (22.2N) maximum

Master Lock ADA Compliant Mechanical Locker Locks achieve these requirements through the use of a specially designed keyhead and the simple operation of the lock. The large flat keyhead makes the key easy to grip for those with extreme joint pain. For those with clenched fist dexterity, the flat keyhead fits securely between their fingers. The operation of the lock can be achieved by a simple bumping action to the ADA keyhead to both open and close the lock without the need of tight grasping, pinching, or twisting of the wrist.

As needs and requirements vary, please consult the local authority regarding use of any of these locks for a specific application.

3681 ELECTRONIC BUILT-IN LOCK

Compliant

- Bluetooth fob for fast and easy operation
- Each lock comes paired with one fob
- Can also be used as non-ADA single- or multi-user lock

3681
For single point latch lockers, deadbolt operation

See Page 23 for more information

1600 ADA SERIES BUILT-IN COMBINATION LOCKS WITH STUDENT KEY/ MASTER KEY

Compliant

Three-Ways-To-Open™ technology lock:

- Student Key for ADA users (opens 1 lock)
- Master Key for supervisors (opens all ADA locks in your system)

ADA INSPIRED DEFINED

ADA Inspired

Master Lock ADA Inspired locks address special needs beyond those outlined in the "2010 ADA Standards for Accessible Design". These portable locks are designed to be easy to use and assist those with physical or cognitive challenges operate a lock independently. All ADA Inspired locks fit most standard lockers.

1525EZRC Simple Combos™

- Simple Combos™ – specially selected combinations that use only numbers printed on the dial (no sub-increments) so users can more easily recall and dial their combination
- Supervisory key override matches existing Master Lock portable systems, plus key can also be matched with many built-in combination lock systems
- Colored dials – black, green, purple, red, blue, orange, grey or gold, and customization with your logo or text available

2650 PushKey™

- Easy-to-open and simple-to-use – simply insert the key and pull down on the flared, easy-to-grip body to open (no key turning required)
- Includes four keys, two with large key head covers which makes gripping easy for anyone

ELECTRONIC BUILT-IN LOCKS

Elevate the Locker Room Experience

3685

3681

Fits a Variety of Locker Styles

Architectural Specifications: Locks shall be built-in multi-user lock with models #3630, #3631 featuring vertically operating bolt and model #3670 featuring horizontally operating deadbolt. Locks shall have a disc cylinder for supervisory access. Locks shall have resettable combinations with no presets. Model #3630 for doors hinged on the left, model #3632 for doors hinged on the right and model #3670 for doors hinged on the right or left.

1652 Series NEW BUTTON-LESS DESIGN

BUILT-IN COMBINATION LOCKS

The Lock You Know...
REINVENTED!

Customize colors
(available with metal dials)

For Single Point Horizontal Latch Lockers

Exclusive Features
- New Button-less combination process – no need to open the locker door, everything is done from the outside with your control key
- Stylish, octagonal dial with larger dial numbers and easy grip for one handed operation
- The longest fully retractable bolt
- Full bolt retraction eliminates lockouts
- Springbolt action for convenient, automatic locking

Built-in Combination Lock Advantages
- Concealed mounting and rugged steel case
- Secure, three number combination is easy to dial
- Longer, useful life with five different combinations – easily changed to maintain security for new students or employees
- Standard key control allows quick supervisory access
- End user registration and control charts provided to secure and simplify administration

Product Options
- Customize with color – metal dials available in red, blue, green, purple and black (featuring non-slip grip dials)
- Model 1653 is available for left-hand hinged doors
- Extension set available for doors with a thickness of 11/16in (17mm) to 3/4in (19mm) #1654-0320
- Metal dial available to deter vandalism (metal dials feature non-slip grip dials) #s 1652MD, 1653MD
- ADA Compliant lock models available #s 1656MKADA for right-hand hinged doors, 1651MKADA for left-hand hinged doors (See page 21)

The 1652 Series offers the longest fully retractable bolt with the convenience of an automatic locking spring bolt.

New Combination Change Process Reduces Maintenance Time

- No Buttons to Push!
- No Doors to Open!
- No Accidental Combination Changes!

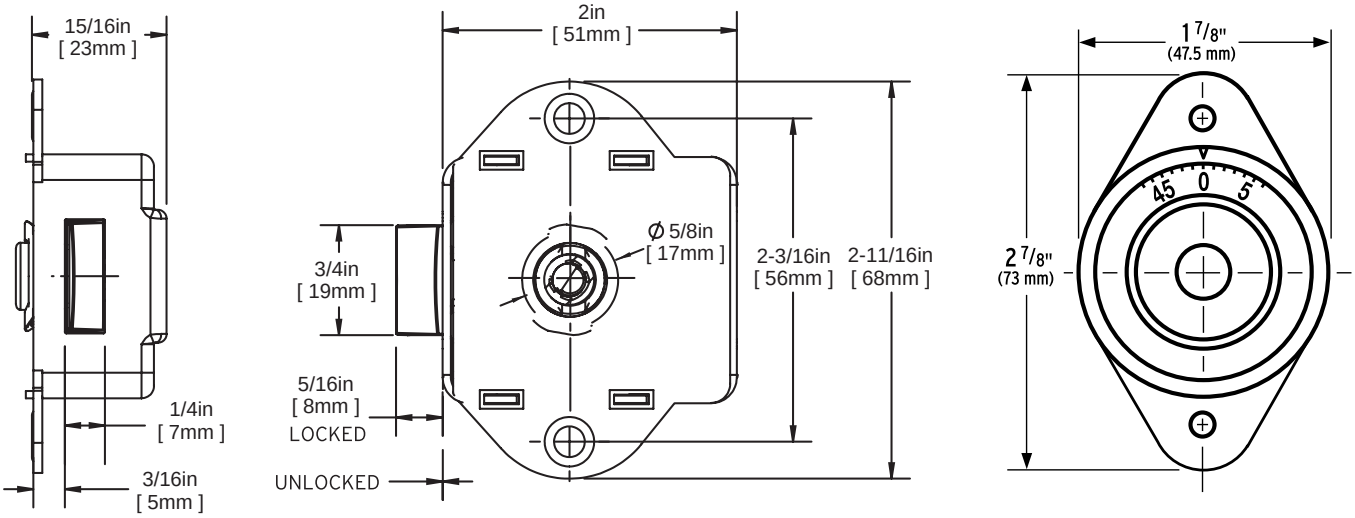
Easy Combination Changing

- Eliminate the hassle of opening every locker door to change combinations

Series Models: 1652, 1653, 1651MKADA, 1656MKADA See Product Options for more information

Dimensions

Fits door thickness 0.03 – 0.125in (0.8 – 3.2mm)



Architectural Specifications: Locks shall be built-in combination lock with horizontally operating spring bolt. Locks shall have textured, lipped dial design for easy-grip-and-pull operation. Locks shall have 5-pin tumbler cylinder for supervisory access. Locks shall have five (5) preset combinations. Locks shall have random combination change pattern; no sequentially adjacent locks shall have the same combination change pattern. Locks shall be supplied with printed Control Chart of serial numbers and combinations and text file on disc. Master Lock #1652 for lockers hinged on right. Master Lock #1653 for lockers hinged on left. For optional metal, easy-grip-and-pull dial with non-slip finish specify Master Lock #1652MD or #1653MD.

1654 Series

BUILT-IN COMBINATION LOCKS

For Horizontal Latch Box Lockers

For Single Point Wrap Around Latch™ Lockers

Enhanced security built-in combination lock – the best lock for single point latch lockers!

Series Models: 1690, 1695MKADA

See Product Options for more information

Exclusive Features

- Designed to tolerate locker misalignment making installation easier and less likely to need adjustment over the life of the lock
- Latch wraps around a latch plate offering the best and most secure single point latch engagement
- Convenient, automatic slam-shut locking combined with automatic and secure dead bolt locking
- Patented Wrap Around Latch™ technology (U.S. Patent No. 7,984,630)

Built-in Combination Lock Advantages

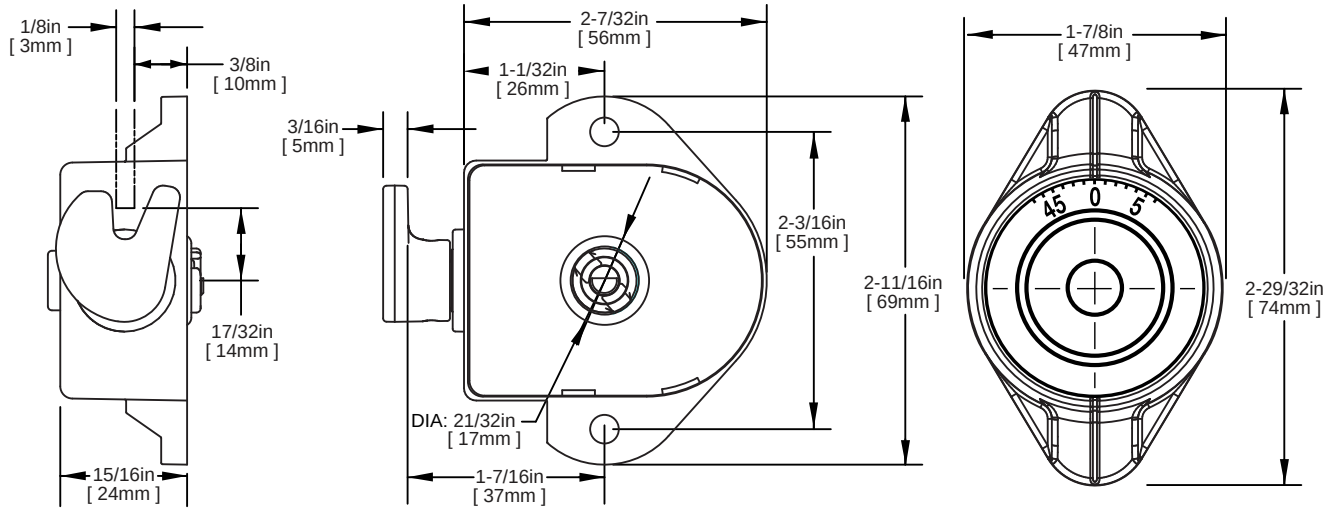
- Concealed mounting and rugged steel case
- Automatic combination reset once door is shut
- Secure, three number combination is easy to dial
- Longer, useful life with five different combinations – easily changed to maintain security for new students or employees
- Standard key control allows quick supervisory access
- End user registration and control charts provided to secure and simplify administration

Product Options

- Customize with color – metal dials available in red, blue, green, purple and black (featuring non-slip grip dials)
- Metal dial available to deter vandalism #1690MD
- Extension set available for doors with a thickness of 11/16in (17mm) to 3/4in (19mm) #1654-0320
- ADA Compliant lock model available #1695MKADA (See page 21)

Dimensions

Fits door thickness 0.03 – 0.125in (0.8 – 3.2mm)



Architectural Specifications: Locks shall be a built-in combination lock with a rotational operating deadbolt latch that locks by wrapping around a stationary latch plate or post. Once open, re-locking shall operate by simply shutting the door, with no further operator action to lock the lock. Once locked, the latch shall not be moveable until the lock is properly opened. Locks shall have textured lipped dial design for easy-grip-and –pull operation. Locks shall have a 5 pin tumbler cylinder for supervisory key access. Locks shall have five (5) preset combinations. Locks shall have a random combination change pattern; no sequentially adjacent locks shall have the same combination change pattern. Locks shall be supplied with both a printed Control Chart and disc, containing the serial numbers and combinations. Master Lock #1690 for lockers hinged on right. For optional one-piece metal dial with non-slip finish specify Master Lock #1690MD.

PORTABLE COMBINATION LOCKS

General Security Combination Padlocks

The world's most popular combination padlocks due to their durability, reliability, convenience and affordability.

Series Models: 1502, 1525

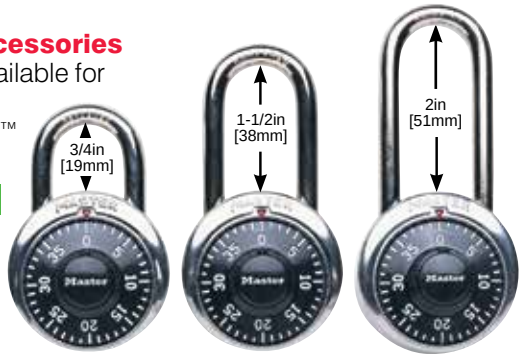
Model 1525 has additional feature of key control for supervisory access
See Product Options for more information

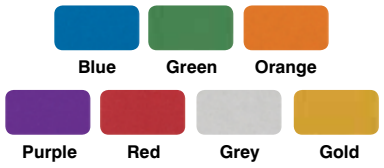
Exclusive Features

- BlockGuard® Anti-Shim Technology - blocks typical shimming tools from opening the lock – deterring break-ins (U.S. Patent No. 8,099,985)
- Hardened steel shackle resists cutting and prying
- Double-reinforced stainless steel case with cold-rolled steel construction shields locking mechanism from physical attack
- 40 number, three-digit dialing provides thousands of possible combinations
- Dial automatically locks under shackle tension to prevent "feeling out" the combination
- Combination automatically scrambles when lock is closed to prevent accidental opening
- Fits lockers with a padlock eye of at least 5/16in (8mm) diameter

Product Options and Accessories

- Longer shackle lengths available for special applications
- 1525EZRC Simple Combos™ Only the numbers printed on the dial for your lock combination. ADA Inspired Easy-to-Dial, Easy-to-Remember (See page 5)
- Custom logo or text
- Colored dials
- Bumpers – Reduce locker wear/less noise: black (1500-0620), red (1504-0620) or blue (1506-0620)
- Combinations in pairs or alike
  - Order 2 or more locks with the same combination. Allows student using multiple locks to use same combination for each lock
- Special back case printing
  - Your custom text engraved on lock backs
- Blank dialing instruction tags (1500-0590)
  - For administrative redistribution of locks

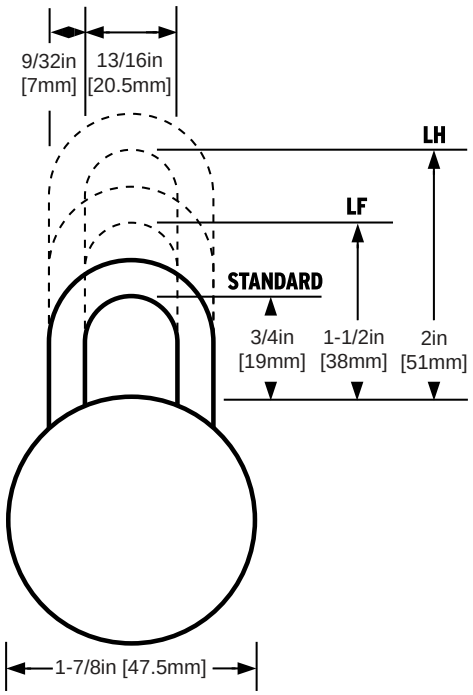




Additional Features

- Padlocks come with a charted system to keep track of combinations

Dimensions



Letter Lock™ 1572 & 1585 Series

The Master Lock® Advantage

UNMATCHED SERVICE

Master Lock® has a nationwide network of regional sales managers and inside account specialists as well as locker and school supply distributors. Our factory-trained sales representatives provide expert planning, product selection, lock management and support services. Master Lock sells through locker distributors that specialize in locker installation, service and repair. The school supply distributors service educational customers by consolidating multiple, related products.

COMPLETE SUPPORT

Master Lock provides a printed chart and electronic (Excel) file of every lock serial number and combination in an installation. Facility administration can use the printed chart to record locker assignments and the corresponding combination.

CONTROLLED SECURITY

Security management is crucial to any installation. Therefore, Master Lock registers authorized end users and maintains installation records in an extensive database. These records make it easy to expand your system, eliminate duplicate lock serial numbers within a system and disperse control keys by zip code to avoid key crossover between schools. Master Lock provides control keys with the original installation of a key controlled lock system. The keys provide quick, supervisory access to any lock in the system. Replacement keys are only available to registered end users, directly from Master Lock.

Effective November 15, 2019

Locker and Storage Security Price List

Master Lock®

Master Lock offers the widest range of innovative locker and storage security products available. From schools to businesses to health & recreation facilities, there's a built-in or portable solution for every need.

Education

Known for strong, reliable locker security, Master Lock specializes in providing schools with convenient and efficient administration of locker locks.

Everyone faces tight budgets, limited personnel, and time constraints. Our products are engineered to be responsive to the ever-changing landscape of educational institutions.

We make the installation and combination changing process simple and fast. Helping you save money and make the kick off to the new school year stress free.

Health & Recreation

Master Lock helps to elevate the locker room experience.

Building loyalty with a frequent flow of guests requires good service and a clean, safe and efficient environment.

Our range of portable, built-in and multi-user locker locks provides clubs and facilities with choices that optimize locker room management. The Multi-User set-your-own combination option allows staff members to focus on front desk tasks and the training required to provide great service.

Business & Employee

From manufacturing facilities to hospital buildings, Master Lock offers peace of mind like no other security company can.

Our products are strong and easy to use in the workplace and help employees and visitors feel confident that their valuables are being well protected.

We provide employers with lock options that grant supervisory access when needed.

THE MASTER LOCK ADVANTAGE

As the industry leader in locker security solutions, only Master Lock offers such a wide variety of options and customization services. We are the innovator in cost effective ADA compliant locker locks and the originator of ADA inspired locking options. Depending on your specific industry need, you can choose alternate shackle lengths for best fit, color dials that enhance user environment and custom/laser engraving for morale and identification.

Order product by case quantity. Each case contains 1 control key and 1 combination chart.
Standard freight terms apply.

ADA Lock Solutions

ADA COMPLIANCE DEFINED

Compliant

The Master Lock® 1600 ADA Series and 1700 ADA Series Built-in Locks meet the United States Department of Justice "2010 ADA Standards for Accessible Design". This Standard requires 5% of lockers meet ADA specifications. In addition, these standards state that operable parts, the locks, meet the following requirements:

- Shall be operable with one hand
- Shall not require tight grasping, pinching, or twisting of the wrist to operate
- Shall have a force required to activate of 5 lbf (22.2N) maximum

Master Lock ADA Compliant Locker Locks achieve these requirements through the use of a specially designed keyhead and the simple operation of the lock. The large flat keyhead makes the key easy to grip for those with extreme joint pain. For those with clenched fist dexterity, the flat keyhead fits securely between their fingers. The operation of the lock can be achieved by a simple bumping action to the ADA keyhead to both open and close the lock without the need of tight grasping, pinching, or twisting of the wrist.

Many of these locks are already in use in the field for ADA applications.

As needs and requirements vary, please consult the local authority regarding use of any of these locks for a specific application.

1600 ADA SERIES BUILT-IN COMBINATION LOCKS WITH STUDENT KEY/ MASTER KEY

Compliant

Three-Ways-To-Open™ technology lock:

- Student Key for ADA users (opens 1 lock)
- Master Key for supervisors (opens all ADA locks in your system)
- Combination for use like other combo locks in your system (5 combinations built in for reuse year after year)

Two keys with ADA keyheads included; order Master Keys separately

Great Technologies

Button-Less Combination Change

No Buttons to Push. No Doors to Open. No Accidental Combination Changes.

The redesigned 1652 Series now features a patent-pending button-less combination change process that allows you to switch to the next combination without having to open the locker door! Sporting an all-new sleek dial design, this lock saves on overall maintenance time and prevents accidental combination change by overstuffed lockers.

BlockGuard® Anti-Shim Padlock Technology

Advances Padlock Security to the Next Level.

BLOCK GUARD® Anti-Shim Technology

Leading the market with innovative security solutions, Master Lock® offers the patented BlockGuard® Anti-Shim Technology – the very best in shim deterrence for combination padlocks.

These enhanced combination locks deter shimming, a method of violating a lock by inserting a specially designed shim tool into its latch mechanism. BlockGuard® has unique flat latch technology that actually blocks typical shimming tools from opening the lock – deterring break-ins.

Master Lock exclusive BlockGuard® Anti-Shim Technology (U.S. Patent No. 8,099,985) is now available on Models 1502, 1525, 1572, 1585 and 2076.

Wrap Around Latch™ Technology

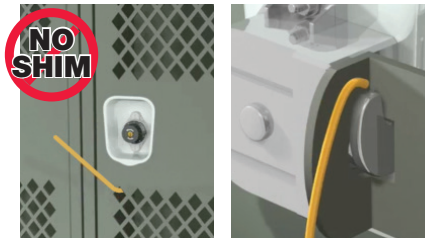
The Best Lock for Single Point Latch Lockers!

Latch Wraps Around The Latch Plate

The patented model 1690, 1695MKADA, and 1790 built-in locks use the same technology as an automotive door lock system, utilizing slam shut operation combined with a rotating latch that wraps around the latch plate. Designed for Single Point Latch Lockers, these locks provide the most robust design and requires the least adjustment for proper operation (U.S. Patent No. 7,984,630).

Less Maintenance, More Security, Easy-To-Use

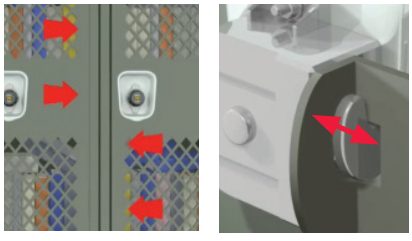
EXTREMELY SHIM RESISTANT



FRONT VIEW BACK VIEW

Even in the case of ventilated lockers the 1690/1790 hold strong as the Wrap Around Latch™ prevents the use of shims and similar techniques for opening the door.
Dead bolt latch automatically locks in position once the locker door is shut, preventing defeating the lock through attempts to move or shim the lock.

INCREASED HORIZONTAL TOLERANCE



FRONT VIEW BACK VIEW

A wider operating range reduces the need for call backs or future maintenance adjustments. This saves your facility time and money.
The 1690 design offers a much wider operating range.

HISTORY OF INNOVATION

Throughout our history, Master Lock® has worked hard to earn and maintain the trust of our customers by delivering on our promise of strength and quality, and by continually seeking new standards for product design, application and performance.

From the groundbreaking laminated padlock design that launched the Master Lock Company in 1921 to the thousands of products that followed, spanning a wide range of security hardware categories, one thing has remained constant. Every Master Lock product is the end result of hard work by a dedicated team, driven by a passion for innovation and a steadfast commitment to quality. As a result, our customers know what they can expect when they purchase any product that bears the Master Lock name.

Master Lock brings this same innovation and expertise to our extensive line of Residential and Commercial Door Hardware.

AGED BRONZE (12P)

4 CUSTOMIZATION

KEYED DIFFERENT (KD)

Each lock is opened by its own unique key. Keyed Different is the standard keying default option.

KEYED ALIKE (KA)

All locks in the set are opened by the same key. Keyed Alike locks eliminate the need for multiple keys where numerous locks are used.

MASTER KEYED (MK)

In a Master Keyed system, a master key opens all the locks in the system, although each lock has its own unique key. Master Keyed systems allow supervisory or emergency access.

COMMERCIAL DOOR HARDWARE

COMMERCIAL GRADE 2 DOOR HARDWARE

A DEPENDABLE REPLACEMENT FOR ANY BRAND

Master Lock® Grade 2 Commercial Door Hardware provides a cost-effective, dependable replacement for 24 brands of commercial door hardware.

All knobs, deadbolts, and levers feature BumpStop® to resist bump attacks and exceed the ASTM F883-09 test standards for bump resistance. All are available in 24 keyways to support existing keying systems.

24 IN 1
RETROFITABLE CYLINDER

Styles

- Standard Duty Ball Knob
- Standard Duty Lever
- Heavy-Duty Lever
- Single Cylinder Deadbolt
- Double Cylinder Deadbolt
- Heavy-Duty Single Cylinder Deadbolt
- Heavy-Duty Double Cylinder Deadbolt

Finishes

- Brushed Chrome
- Oil Rubbed Bronze

Features

- 6-pin Schlage® C compatible cylinder is standard
- Choice of 24 keyways
- Levers meet ADA Standards
- Meets ANSI/BHMA A156.2, Series 4000 standards for entry sets
- Meets ANSI/BHMA A156.5 standards for deadbolts
- UL listed: Meets 3-hour fire rating
- Cylindrical lock housing
- Latch bolt – stainless steel
- Deadbolt – brass with hardened steel roll pin
- Featuring BumpStop® Advanced Cylinder Technology to resist against bumping attacks

Advanced Cylinder Technology

BUMP STOP®

Heavy-Duty Series with These Added Features

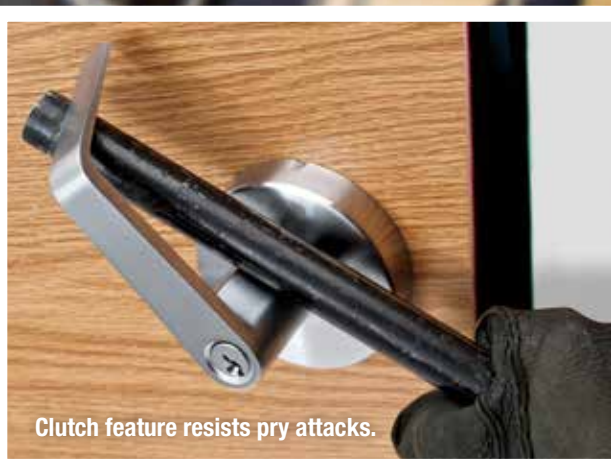
Lever

- Clutch feature to resist pry attacks
- Removable thru-bolts
- Large diameter trim ring

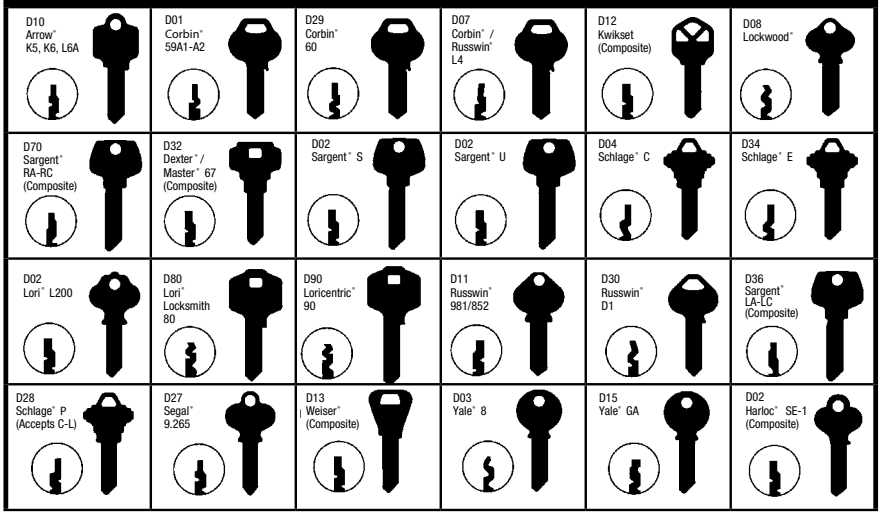
Deadbolt

- Heavy die-cast anti-pry collar
- Heavy-duty tie screws
- Adjustable deadbolt latch 2-3/8" – 2-3/4"

COMMERCIAL GRADE 2 DOOR HARDWARE



Available in 24 Different Keyways



16 Small Format Interchangeable Core (SFIC) keyways including Best®, Arrow® & Falcon®

Lockout/Tagout & OSHA Compliance

What is Lockout/Tagout?

In 1989, OSHA introduced Standard 29 CFR 1910.147 *The Control of Hazardous Energy* in order to establish lockout tagout compliance requirements for general industry. Lockout/Tagout is the process of controlling hazardous energy during the service and maintenance of machinery and equipment. These safety specific work procedures safeguard employees from accidental injuries or even death.

Why Lockout/Tagout?

The Control of Hazardous Energy (lockout/tagout) has been listed within OSHA's top 10 most frequently cited standards for several years. Non-compliance with this standard has resulted in thousands of worker related injuries and even deaths. Lockout/Tagout procedures are utilized to protect employees from the dangers of hazardous energy and ensure they go home safely every day.

Master Lock offers the safety products and services you need to help you stay compliant

How to Implement a Lockout/Tagout System

The 1910.147 standard stated above establishes requirements for facilities to implement and employees to follow. In order to keep employees safe and to comply with the OSHA standard, facilities must:

+ **Develop** – create a lockout/tagout program specific to the machinery in your facility, including equipment that is not capable of being locked out
+ **Implement** – use lockout devices for equipment that can be locked out and tagout devices to identify who is performing maintenance
+ **Train** – teach employees the lockout/tagout procedures and be sure authorized employees can perform the procedure accurately
+ **Enforce** – monitor and maintain that the implemented procedures are being performed
+ **Inspect** – lockout/tagout procedures as well as employees should be audited at least annually

OSHA Requirements for Padlocks and Devices

The OSHA Lockout/Tagout standard outlines 5 requirements that all safety padlocks and devices must meet. Master Lock safety padlocks and devices were designed to meet all of these requirements.

Requirement	Description	Master Lock LOTO Products
Durable	Manufactured with materials that withstand usage environment	✓
Substantial	Cannot be removed unless considerable force is applied	✓
Standardized	Clearly differentiated from other devices by color, shape or size	✓
Identifiable	Indicates the authorized employee that applied the device	✓
Exclusive for Safety	Not to be used for purposes other than controlling energy	✓

"One Employee, One Lock, One Key"

It is important that each employee at a facility has a padlock key that is unique to them. Key charting is critical to prevent duplicate keys from entering the workplace and jeopardizing your lockout/tagout program.

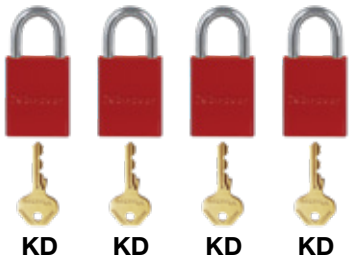
Master Lock offers keying services and options to meet any safety system's requirements

LifeGuard™

A no-charge Safety Lockout Padlock Key Charting System – critical for Safety Lockout

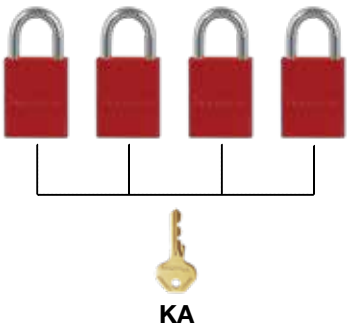
- Key charting is a record of all the safety padlock key codes assigned to a facility
- It is important that each authorized employee at a site has a unique padlock key that only opens that employee's safety padlock. This complies with the "one lock, one employee, one key" directive
- To help prevent duplicate keys from jeopardizing your lockout program, register your workplace with Master Lock. Once registered, Master Lock will send you an End User Identification Number for your site's Key Chart
- When you use that I.D. number on each additional padlock order, Master Lock will use a new key code for each padlock we manufacture for you. When used properly, this free service helps ensure that each employee carries a key unique to them, eliminating unwanted key duplication in a safety lockout program

Keying Options to fit your facility's needs



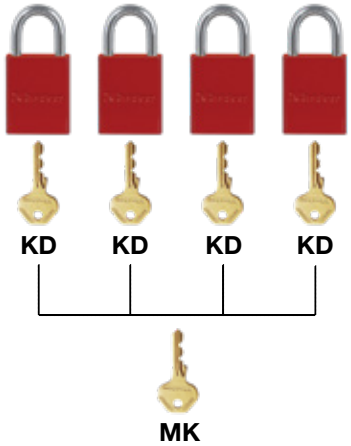
Keyed Different

Each lock is opened by its own unique key which does not open any other lock in the set – complying with the "One lock, one employee, one key" mantra



Keyed Alike

All padlocks in the set are opened by the same key so only one key is necessary to open numerous padlocks – for employees who need many locks, they still only have one key



Master Keyed

A master key opens all locks within the system while each lock also has its own unique key – allows for responsible removal of improperly placed or forgotten lockouts according to your emergency notification policy

410

Zenex™ Thermoplastic Safety Padlocks

Optimal safety padlock designed exclusively for Lockout/Tagout by Safety Directors. Distinctive Zenex™ Thermoplastic safety padlock is durable, standardized, substantial and identifiable for OSHA 1910.147 compliance. Stands up to chemicals, temperature extremes, and is UV stable.

ZENEX™ THERMOPLASTIC SAFETY PADLOCK FEATURES

- Durable padlocks weigh only ounces (400 series 4 oz., S30 Series 3 oz.), making it easy to carry many
- Withstands extreme temperatures
- Excellent corrosion resistance
- UV stable
- No silicone used in padlock
- Over 40,000 unique safety key codes available.
- Keyed Different, Keyed Alike and Master Keyed options
- Key retaining – ensures padlock is not accidentally left unlocked. S33 non key-retaining for group lockout
- Available in up to 8 colors
- Includes one key to ensure compliance with "One Lock, One Employee, One Key" directive
- Includes write-on "Danger" and "Property Of" labels
- Body sides and face can be laser engraved for permanent identification
- Non-rekeyable ensures your safety lockout system stays pure by preventing haphazard rekeying and the accidental introduction of duplicate key codes
- Your facility's padlocks can be key charted to ensure no duplicate key numbers are supplied and accidentally handed out to multiple employees
- Virtually all components are made in the U.S.A.

Safety Padlock Keyed-Alike Sets

Popular quantities of safety padlocks are conveniently packed in sets, simplifying the order process.

Safety Padlock Keyed-Alike Sets

Safety Padlocks Built and Packed in Popular Keyed Alike Quantities

Workers often need to lock out more than one energy source on a single piece of equipment. Keyed alike safety padlocks can help serve this purpose.

To simplify and expedite ordering, Master Lock now offers our Zenex™ Thermoplastic, Aluminum and Steel safety padlocks in popular keyed alike quantities – sets of 3, 6, or 12 locks. These locks are ordered as "1" unit and are packed together making them easy to distribute.

***"n"* Denotes quantity of padlocks per keyed alike set. Choose quantity and color of set(s) at time of purchase.**

Aluminum Safety Padlocks

Lightweight and durable aluminum body with anodized finish for Lockout/Tagout. Stands up to chemicals, temperature extremes, and is UV stable.

ALUMINUM SAFETY PADLOCK FEATURES

- Durable padlock weighs 5 ounces, making it easy to carry
- Solid body construction stands up to physical abuse
- UV stable
- 1/4in diameter boron steel shackle with plated finish for corrosion resistance
- Available Keyed Different, Keyed Alike and Master Keyed
- Available with 1in, 1-1/2in or 3in tall shackle
- Write on labels and Photo ID labels available
- Body sides and face can be laser engraved for permanent identification – 6 available spaces
- Uses FDA approved lubricants safe for use in food processing. No silicone used in padlock

S-series Aluminum Safety Padlocks

Designed specifically for Safety lockout

- Featuring the W401/W417 Safety Exclusive keyway
- Key retaining
- Over 40,000 key changes to meet your system needs
- Complies with the "One Lock, One Key per Employee" mantra
- Durable aluminum construction for supreme corrosion resistance
- LifeGuard™ key charting free of charge

3LFRED

Steel Safety Padlocks

Strong and economical. Reinforced laminated steel construction stands up to extreme physical abuse.

STEEL SAFETY PADLOCK FEATURES

- Weighs approximately 7 ounces
- Can withstand extreme temperatures
- 9/32in diameter shackle
- Available with 3/4in, 1-1/2in or 2in tall shackle
- 6 bumper colors available
- Keyed Different, Keyed Alike and Master Keyed options
- Over 1400 unique key codes available
- Optional stamping of key code in key and on bottom plate of padlock available
- Wrap around, write on labels available for identification
- Your facility's padlocks can be key charted to ensure no duplicate key numbers are supplied and accidentally handed out to multiple employees
- Virtually all components made in the U.S.A.
- Uses FDA approved lubricants safe for use in food processing

S101

Padlock Accessories

Safety lockout accessories for OSHA compliance.

Extreme Environment Safety Padlock Covers

- Seals shackle and keyway to help keep out dust and grime from extreme environments
- Dual strap increases durability and minimizes the obstruction of labels
- Removable attached keyway cap allows for easier access to keyway (not included on S30COVERS)
- Available for American Lock S1100 Series and Master Lock S30 Series safety padlock families

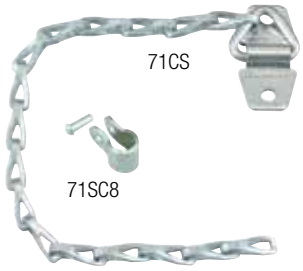
Master Lock Model #	Description
S101	For American Lock S1100 and A1100 series padlocks; bag of 12 covers
S30COVERS	For Master Lock S31, S32 & S33 series padlocks; bag of 72 covers

Padlock Chains, Collars & Tags

- Chains keep padlocks close to equipment requiring safety lockout
- Engravable brass tag provides for individual worker identification
- Tags attach to safety lockout padlocks with 71SC8 and 71SC9 collars

71TAG

Master Lock Model #	Description
71CS	9in long lightweight zinc plated steel chain with chain holder attached; fits all master shackle collars (ordered separately) (12 pk.)
71CH	9in long heavy-duty zinc plated steel chain with chain holder attached; fits all master shackle collars
71SC8	Shackle collar. Fits 1/4in diameter shackles and smaller; for 410, 411, S1100/A1100 padlocks
71SC9	Shackle collar. Fits 9/32in diameter shackles; for 3 laminated steel padlocks
71TAG	1/2in x 1-3/4in brass tag with ring for attaching to shackle collars listed above



71CS

71SC8

Safety Padlock Caddy

- Keep safety padlocks near appropriate machinery
- Hold up to 12 padlocks based on number of lockout points
- When locking out, conveniently carry caddy to all lockout points
- When all padlocks are gone, all lockout points have been met

Master Lock Model #	Description
S125	Safety Padlock Caddy – Carry up to 12 padlocks from lockout job to job

S125 Safety Padlock Caddy

Hasps

Lockout hasps are integral parts of a successful safety lockout program, providing effective multi-person lockout.

Safety Lockout Hasps

Lockout by Multiple Workers at Each Lockout Point

- Attach hasp to energy disconnect switch
- Control cannot be turned on until last worker's padlock is removed from hasp
- Multiple styles available to fit most needs; **Spark resistant aluminum, Pry-resistant steel, Dielectric plastic, Dual jaw aluminum**

Electrical Lockouts

Master Lock offers innovative, patented and patent pending devices for the effective lockout of electrical shut-off points, including circuit breakers, and electrical plugs.

Grip Tight™ Plus Circuit Breaker Lockouts

Reliable Lockout in More Circuit Breaker Applications

- Dependability - Consistently attach to breakers and remain secure
- Efficiency - Compatible with wide variety of circuit breaker handle shapes and sizes
- Ease of Use - Lightweight, one-piece designs that require no tools for installation
- Exclusive design features:
  - Model S3821 is compact, which allows for locking out adjacent breakers
  - Model S3821 is suitable for locking out multi-pole breakers and works with most tie-bar toggles
  - Model S3822 has a permanently fixed cleat, which adds physical blocking capability
  - Model S3823 has a fold-down cleat that provides enhanced switch throw blocking when needed

Master Lock Model #	Description
S3821	Lockout Device for Miniature Circuit Breakers (120/240 V)
S3822	Lockout Device for Molded Case Circuit Breakers (480/600 V)
S3823	Lockout Device for Oversized Handle Circuit Breakers (480/600 V)

Fold-Down Cleat
Provides enhanced switch throw blocking when needed

Curved Blade
Ensures two-point contact with the switch handle for greater hold

Large Thumbscrew
Knurled texture enables gripping with gloves, offering easy tightening for a secure lockout. Slotted to allow optional screwdriver adjustment

Toothed Jaw
Delivers a tight hold on the circuit breaker handle

Fixed Cleat
Provides added physical blocking to prevent switch from turning to "on" position

Grip Tight™ Circuit Breaker Lockout

Simplicity Combined with Durability for Effective Lockout

- Secure and simple mounting for a solid lockout. Holds tight with simple thumb turn and clamping handle
- Different profiles intended to accommodate unique breaker sizes
  - Model 491B fits tall and wide breaker toggles
  - Model 493B fits standard height and some common tie-bar toggles
- Compact devices are easy to carry and easy to store
- Both devices accept all American Lock and Master Lock safety padlock shackle and lockout hasp diameters
- Durable construction with powder coated steel and reinforced polymer allows operation in harsh environments
- Patented

Master Lock Model #	Description
491B	Circuit Breaker Lockout – tall and wide toggles
493B	Circuit Breaker Lockout – standard single and double toggles
506	Set of each device – one 491B and one 493B

Miniature Circuit Breaker Lockouts

Locks Out Most Miniature ISO/DIN Circuit Breakers Found Throughout the World

- S2390 fits standard width toggle openings. Pin out. Black Handle
- S2391 fits wide toggle openings. Pin out. Red Handle
- S2394 features thumb-turn dial screw for easy attachment – no tools needed!
- Works with all Master Lock and American Lock safety padlocks and most lockout hasps
- S2390, S2391, S2392 Patented devices
- S2394 Patent pending

Master Lock Model #	Description
S2390	Fits pin-out breakers 11mm or less
S2391	Fits pin-out breakers 11mm to 13mm
S2392	Fits breakers with pin-in toggles
S2393	Fits universal breaker toggles

Circuit Breaker Switch Padlock

Provides the Flexibility to Effectively Lock Out Breaker Switches

- 3/16in diameter cable shackle allows padlock to properly lock all types of circuit breaker lockout devices
- Flexible cable allows the compact lock body to be positioned so that the control panel door closes properly
- Fits the tight space constraints within circuit breaker shut-off boxes
- Numerous key changes are available to minimize the possibility of unwanted key duplication

Master Lock Model #	Description
7C5RED	1-1/8in wide steel body; 4-pin cylinder; 5in flexible steel cable. Keyed Different

Rotating Electrical Plug Lockouts

Outward/Inward Rotation Allows for Easier Application & Storage

- Surrounds the electrical plug; protects against accidental reconnection
- Unique, patented rotating design allows for easier installation in confined space applications
- Complete with high-visibility permanent safety labels (English, French & Spanish). Labels can be written-on to identify the responsible person, then erased for the next job
- Tough, lightweight, dielectric Zenex™ Thermoplastic bodies withstand chemicals; perform effectively in extreme conditions

Master Lock Model #	For Electrical Plug Sizes Up To:
487	2-1/4in dia. x 3-1/4in with cord dia. up to 3/4in (110-120 and 220-240 volt plugs)
488	3in dia. x 6in with cord dia. up to 3/4in (Most 240 and 550 volt plugs)

Compact Plug Prong Lockout

Compact Design Locks Out Smaller Plugs Easily & Effectively

- Locks on the prongs of 110-120 volt plugs
- Fits two prong plugs with and without ground
- Use with your existing lockout padlocks or lockout hasps
- Includes labels in English, Spanish, and French
- Patented

S2005

Master Lock Model #	Description
S2005	Fits 110-120-volt plugs (with or without ground)

Valve Lockouts

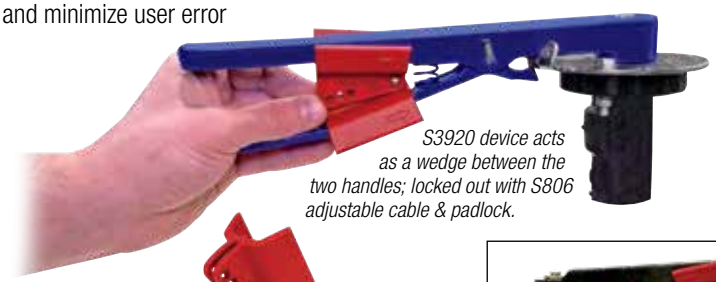
The exclusive, patented Master Lock gate and ball valve lockout devices work in difficult applications like tight spaces and insulated pipes.

Butterfly Valve Lockout Devices

Locks out virtually all butterfly valves

- Easy-to-use, adjustable design fits virtually all butterfly valves
- Locks out valve in seconds by feeding S806 cable lockout device through desired eyelet and around valve neck
- Stainless steel rivet allows device to smoothly pivot open and closed to ensure proper fit
- Durable, lightweight Zenex™ Thermoplastic material is chemical resistant and performs effectively in extreme environments
- Directional application arrows allow for ease of installation and minimize user error

Master Lock Model #	Description
S3920	Butterfly Valve Lockout Device only
S3921	Butterfly Valve Lockout Device + S806CBL3 Adjustable cable lockout



S3920 device acts as a wedge between the two handles; locked out with S806 adjustable cable & padlock.

Rotating Gate Valve Lockouts

Outward/Inward Rotation Allows for Easier Installation & Storage

- Surrounds the valve operating handle to protect against accidental valve opening
- Multiple workers can apply their lockout hasps or personal safety locks
- Tough, lightweight, dielectric Zenex™ Thermoplastic bodies withstand chemicals; perform effectively in extreme conditions
- Unique, patented rotating design allows for easier installation in confined space applications
- Complete with high-visibility permanent safety labels (English, French & Spanish) that can be written-on to identify the responsible person, then erased for the next job
- Center knockout can be removed for rising stem gate valves
- Each size rotates into itself and nests within the next larger size to save space in storage

Master Lock Model #	Description	Depth	Stem Opening
480	1in to 3in dia. valve handles	1-1/16in	3/4in
481	2in to 5in dia. valve handles	1-1/2in	1-1/2in
482	4in to 6.5in dia. valve handles	1-7/8in	2-1/2in
483	6in to 10in dia. valve handles	2-3/4in	3-1/2in
484	8in to 13in dia. valve handles	3-3/8in	4in
485	1 set of 480-484		

485

Pressurized Gas Valve Lockout

Fits Pressurized Gas Valves

- Patented design works with valve guard in place
- Fits virtually all pressurized gas valve handles up to 3in diameter
- Compact size easily stored when not being used
- Accepts any Master Lock or American Lock Safety Padlock
- Works with lockout hasps for multiple worker lockout

Master Lock Model #	Description	Depth	Stem Opening
S3910	Pressurized Gas Valve Lockout	1in	1-5/8in

Ball Valve Lockout Devices

Effective Lockout for Virtually Any Ball Valve

- Easy to use – simple, intuitive designs
- Broad application
  - Devices could lock up ball valves up to 4in
  - Fit virtually all types of pipe including insulated, PVC and metal
- Lightweight and compact – devices are easy to carry, store and apply even in tight, awkward spaces

S3068 Seal Tight™ Handle-On Lockout

Metal device clamps tight on handle stop. Defies corrosive environments and extreme temperatures.

468L Seal Tight™ Handle-Off Lockout

Device encloses the valve stem, with the handle removed, to make accidental reactivation virtually impossible. Operates in extreme temperatures.

S3081 Adjustable Lockout

Works with S806 cable lockout device for the most secure fit.

Master Lock Model #	Description	For Valve Diameters of:
S3068	Seal Tight™ Handle-On Ball Valve Lockout 5-3/4in L x 2-1/8in W x 2-1/2in H	1/4in to 4in
468L	Seal Tight™ Handle-Off Lockout, 11-1/2in H x 12-3/4in W x 2-1/2in D	3/8in to 4in
S3081	Adjustable Ball Valve Lockout	1/2in to 2in

S3476/S3477 1/4 Turn Ball Valve Lockout

Fits manual, quarter turn ball valve handles to protect against accidental opening. Easy to use one piece design locks valve in OFF position. Two rows of lock out points allow for a secure fit.

Master Lock Model #	Description
S3476	Fits valves between 1/4in (6.35mm) to 1in (25mm) diameter
S3477	Fits valves between 1-1/4in (31mm) to 3in (76mm)

Cable Lockouts

Innovative patented cable lockout devices offer efficient multipoint safety lockout compliance for a variety of safety applications.

Retractable Cable Lockouts

Adjustable cable lockout devices with Cable Management System for a variety of applications

- Cable take-up reel encloses the cable to provide protected storage and easy application by managing excess cable length during lockout
- Internal ratcheting mechanism ensures a secure lockout by only allowing the cable tension to increase, even after locks have been applied
- Patented 1/8in (3.3mm) diameter x 9ft (2.74m) cable features a colored plastic coating for added durability and visibility
- Tough, lightweight thermoplastic body withstands chemicals
- Ergonomic design eases operation when wearing gloves
- Contoured shape enables easy stacking, storage, and transportation of multiple devices
- Suitable for group or challenging, multi-point lockout
- Includes high-visibility, write-on safety labels in English, Spanish and French for easy identification (additional languages available)
- Replacement cable kits available separately with Steel or Nylon Core Cable; can use either cable type in same device

S143

S143ES

Master Lock Model #	Description
S856	Retractable cable lockout device with 9ft (2.74m) x 1/8in (3.3mm) dia. red steel core cable
S866	Retractable cable lockout device with 9ft (2.74m) x 1/8in (3.3mm) dia. yellow nylon core cable
Replacement Parts	
PKGP52709	Replacement cable kit - Steel core cable (Red)
PKGP52711	Replacement cable kit - Nylon core cable (Yellow)
Danger Labels for S856/S866	
S143	Trilingual danger labels (English, French, Spanish) and warning/write-on labels. Pack of 100 labels, 50 of each design
S143FR	Danger labels. French. Pack of 50 labels
S143ZH	Danger labels. Mandarin Chinese. Pack of 50 labels
S143ES	Danger labels. European Spanish. Pack of 50 labels

S143DE	Danger labels. German. Pack of 50 labels
S143NL	Danger labels. Flemish. Pack of 50 labels

Adjustable Cable Lockouts

Infinitely Adjustable for a Secure Fit Every Time

- Integrated safety hasp and cable are ideal for multi-point lockout
- Feed the cable end through the points to be locked out, then back through the lockout body. Cinch it tight to remove any slack with the patented locking feature
- Tough, flexible multi-stranded steel cable is insulated with a clear plastic coating
- Tough, lightweight Zenex™ Thermoplastic body withstands chemicals; performs effectively in extreme conditions (temperature range of -40° F to 200° F)
- Master Lock S806 includes a 6' cable. Cable available in 1ft increments from 7ft to 50ft
- Complete with high-visibility write-on safety labels (English, French & Spanish)

Master Lock Model #	Description
3/16in (4mm) Diameter Cable	
S806	6' Adjustable cable lockout
S806CBL3	3' Adjustable cable lockout
S806CBL15	15' Adjustable cable lockout
S806CBL*n*	Adjustable cable lockout with user-specified cable length of 7' to 50'

Group Lock Boxes

Made to withstand the toughest environments. Rugged construction offers enhanced design features, making these lock boxes stronger and easier to use.

Group Lock Box with Wall Mounting Bracket

Manage The Placement And Movement of Group Lock Boxes To Protect Your People

- Use it where it's needed – Mount with the bracket for routine, daily use; take it portable for remote lockouts; or move to a bracket in another area for large turnarounds
- Prevent unwanted box removal from the wall with optional locking of box to bracket
- Monitor the status of group lockouts at a glance with product features that improve lockout verification
- Store more padlocks and conduct more lockouts within a limited space with this small footprint, large capacity box
- S3650 comes with 1 lock box and 1 mounting bracket

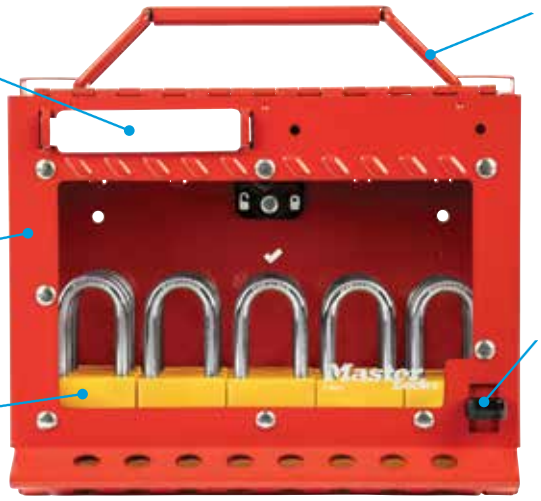
Master Lock Model #	Description	Dimensions H x L x W
S3650	Group Lock Box with Wall Mounting Bracket	6-7/8in x 3-15/16in x 8-3/8in
PKGP57337	Mounting bracket	3.2in x 0.43in x 7.5in

- Control Room

- Machine Side

- Outdoors

- Portable



Rewritable Tag provides area to write temporary permit-to-work information

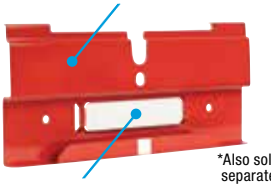
Carrying Handle for portable convenience and easy transportation of locks to energy isolation points

430-Grade Stainless Steel with heavy-duty powder coat for durability and corrosion resistance

Front Latch secures door during transit

15-Lock Internal Storage Capacity for small to medium lockouts

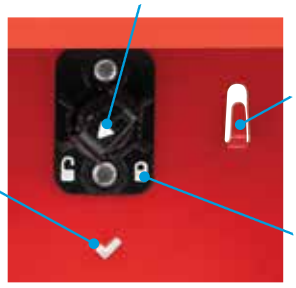
Wall Bracket* enables easy mounting and redeployment of the lock box



*Also sold separately

Rewritable Tag* can be labeled to match box for identification purposes

Internal Locking Mechanism allows for optional locking of box to bracket



Stamped Checkmark inside provides visual confirmation of positive attachment when using wall mounting bracket

4 Key Hooks inside display equipment keys individually and keep key numbers visible

Icons give immediate indication of locked/unlocked status

Group Lock Boxes with Key Window

Heavy-Duty Group Lock Boxes with Key Window that Offer Visual Verification of Secured Keys During Group Lockout

- Constructed out of 430-grade stainless steel to withstand the toughest environments
- Each lock box includes a removable cup that creates a clear, impact-resistant window on the front, allowing participants to see keys are secured inside the box during a group lockout
- All models include 19 total lockout holes, including one on the front latch for the operations lock
- Models S600 and S601 feature a side window, offering visibility to unused locks
- The stackable design facilitates storage and simplifies transporting multiple boxes
- Replacement removable key cups are available

S600

S601

S602

Master Lock Model #	Description	Dimensions H x L x W
S600	Small group lock box	5-13/32in x 9-11/16in x 4-7/8in
S601	Small group lock box with side window for viewing unused locks	
S602	Large group lock box with rewritable label	7-49/64in x 9-11/16in x 4-7/8in

Group Lockout Customization Services Available

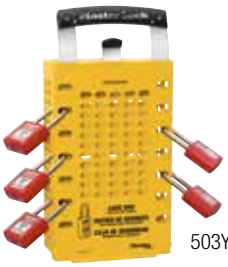
- Master Lock builds group lockout kits containing lock boxes and padlocks configured to customer specifications
- Group lockout kits increase the efficiency of deploying products on site
- Contact your Master Lock safety sales representative for more information about our customization and kitting capabilities

Latch Tight™ Group Lock Boxes

Storage Devices Capture Keys for Effective Lockout of Large Equipment

- Secure each lockout point on a piece of equipment with a single padlock. Place the keys in the group lock box and then each authorized employee places their personal padlock on the lock box
- When work is complete, employees take their personal padlocks off the lock box, freeing the keys inside. Keys inside cannot be accessed until the last employee removes their padlock
- Feature an exclusive, patented Latch Tight™ locking mechanism that prevents keys from being accessed until the last padlock or lockout hasp is removed from the box. Provides the highest level of security available in a group lock box
- Lockout message on box is in three languages – English, Spanish and French
- Cold-rolled steel with durable powder-coated finish and stainless steel handle

498A



503YLW

503RED

498A

- Portable solution
- Available in Red
- Accepts 12 padlocks or lockout hasps
- Secures multiple keys

503RED/503YLW

- Can be mounted to wall or carried from job to job
- Accepts 14 padlocks or lockout hasps
- Secures multiple keys
- Includes organized storage for 12 keys in back of box

Master Lock Model #	Description	Dimensions H x L x W
498A	Portable group lock box	6in x 9-1/4in x 3-3/4in

503YLW	Dual application group lock box - Yellow	12-3/4in x 3-1/2in x 6-3/8in

S3500

Permit Control Station

Place group lockout where you need it to effectively communicate the status and details of permit-to-work jobs.

Modular Permit Control Station

A single location to display and protect paperwork and padlocks for group lockout

- 430-grade stainless steel with heavy-duty powder coating withstands outdoor elements and provides corrosion resistance
- Wall mounted for accessibility or use on-the-go for convenience
- Clear, impact-resistant windows for viewing permit and key(s) during lockout
- Rubber seal on permit display case protects documents from water damage in outdoor applications or during cleaning
- Group lock box has 12 numbered lock holes for personal safety locks, plus a latch hole designated for the control lock
- Includes removable lock caddy for easy transportation of equipment locks to isolation points during lockout

Blind Flange & Pneumatic Lockouts

Best-in-class lockout solution for pipeline maintenance and innovative ways to lock out virtually any pneumatic fitting.

Blind Flange Lockout

Device provides a physical barrier preventing unwanted blind removal during pipeline maintenance

- Ideal solution for protecting workers from hazards during pipeline maintenance
- Device fully conceals flange bolts preventing access to the blind until all work has been completed
- Easy-to-use, adjustable device provides a tight fit, adapting to multiple flanged pipe applications
- Three models designed to cover and lock out flange nuts ranging from 3/4in (19mm) to 2-3/4in (69.9mm) diameter and flange widths ranging from 1-1/2in (38.1mm) to 17-7/8in (447.8mm)
- Durable powder coated aluminum and hardened steel slide bar withstand conditions indoors and out
- Trilingual, write-on “Danger” labels provided for additional safety ID

Size Chart

Master Lock Model #	Pipe Diameter Range	Nut Diameter	Flange Width Range
S3922	1/2in – 3in (12.7mm – 76.2mm)	3/4in – 1-1/8in (19mm – 28.7mm)	1-1/2in – 5-5/8in (38.1mm – 143.3mm)
S3923	3-1/2in – 12in (88.9mm – 304.8mm)	1in – 1-7/8in (33.3mm – 47.8mm)	3-3/4in – 10-3/4in (95.3mm – 274.6mm)
S3924	14in – 24in (355.6mm – 609.6mm)	2in – 2-3/4in (52.3mm – 69.9mm)	7-3/4in – 17-7/8in (196.9mm – 447.8mm)

Pneumatic Lockout

Prevents Pneumatic Fitting From Being Connected to Pressurized Air Source

- Fits virtually all male pneumatic fittings
- Stainless steel construction for corrosion resistance
- Measures 1-3/8in wide x 7-3/4in tall x 1/8in thick
- Accepts any Master Lock or American Lock Safety Padlock with shackle diameter up to 9/32in
- Works with lockout hasps for multiple worker lockout
- Accommodates 1/4in, 5/16in, 3/8in, 7/16in, 1/2in, 9/16in, 5/8in, 13/16in connections

Electrical Covers

Versatile, durable designs address need for temporarily prohibiting access to a switch or control or to avoid nuisance changing of rotary switch settings.

Removable and Permanent Push Button and Rotary Switch Covers

Temporarily prohibit access or avoid the nuisance of changing rotary switch settings with these durable, versatile, push button & switch covers. Available in both removable and installed versions, covers feature a clear base and cover to allow visibility of nameplates, labels or rotary switch knobs.

- Fits both 30.5mm and 22.5mm diameter switches

S2151 Removable Push Button and Rotary Switch Cover

- Accommodates buttons up to 2in (50mm) diameter and 1-3/4in (45mm) tall
- Includes one cover, one install base and one retrofit base with double-faced adhesive tape
- S2152AST pack of 12 install bases allows one S2151 to service multiple switches on same panel

S2153 Permanent/Installed Push Button and Rotary Switch Cover

- Captured by the rotary or pushbutton switch bezel
- Accommodates buttons up to 1-9/16in (40mm) diameter and 1-3/4in (45mm) tall

S2152AST Install Bases

- Use with S2151
- Pack of 12 install bases
- Allows one S2151 removable cover to service multiple switches on same panel

S2154AST Retrofit Install Bases

- Use with S2151
- Pack of 12 horse-shoe shaped retrofit bases with double-faced adhesive tape
- Allows for use with raised nameplates and off-center installation to accommodate rotary switch knobs

Lockout Kits

The Master Lock Lockout Kits combine and organize commonly used electrical and valve lockout devices for individuals or groups of workers.

THE RIGHT PADLOCKS FOR YOUR NEEDS.

Master Lock

Zenex™ Thermoplastic Padlocks

Non-conductive, lightweight bodies with permanent write-on labels for worker identification. Key retaining feature ensures that padlocks are not left unlocked. Reserved-for-Safety, high security, 6-pin cylinder offers over 100,000 possible key changes.

Compact Lockout Pouches

Electrical Padlocks and Devices Stored for Convenience

- Compact, convenient design
- Hook and loop straps on back allow pouch to be easily applied to or removed from a belt
- Straps also serve as breakaway feature in the event the pouch is caught in machinery, protecting the employee

Master Lock Model #		Description
410RED Zenex™ Thermoplastic Padlock(s)	Unfilled

Guardian Extreme™ Safety Tags

Our process permanently fuses the safety message into rugged, industrial grade polypropylene, creating the longest lasting tags available. These graphics remain vibrant and clear for years – even when exposed to high humidity, UV radiation, harsh chemicals, frequent wash downs, extreme high and low temperatures and more.

Metal detectable versions available for use in food processing and pharmaceutical facilities.

Guardian Extreme™ Safety Tags

Make sure your safety message is clearly visible for years and years with Guardian Extreme™ tags.

Environmentally Friendly is Business Friendly

Guardian Extreme™ lifetime tags and signs withstand tough environments and abuse eliminating the cost of replacement.

Rewrite-Reuse

Modify the message as often as needed

Guardian Extreme™ signs and tags provide the ultimate flexibility. You add the exact safety message for the job with permanent marker, erase it when the work is complete and repurpose it for the next job.

Wipe off current message with Isopropyl Alcohol

Cleaned tag ready for next message - write new message with permanent marker

A brand new message is ready for the next project

Guardian Extreme™ Safety Tags *3in x 5-3/4in (Bag of 6)*

Planograms include two of each item, a Master Lock header and a set of re-order tags.

All of the carded safety padlocks, devices and tags listed are available for purchase separately to replenish or expand your planogram and enhance your showroom. Carded commercial security products and commercial security planograms are also available.

Professional Lockout Services

Expert guidance and industry-leading experience to help facilities meet safety goals.

Professional Lockout Services

Master Lock Professional Lockout Services can take a holistic approach to build a customized, best-in-class lockout management system or focus on the select elements that will make significant improvements in a facility's safety program

Assessment

Our safety experts conduct in-depth, on-site assessments to evaluate the current state of a lockout tagout program and identify methods of improvement. The recommendations from the assessment can be used to design a best-in-class lockout/tagout program that achieves heightened safety, practicality and efficiency for personnel.

Written Program

A team of safety consultants will develop a company-wide written lockout program that takes an efficient approach to meet and exceed compliance requirements.

Written Procedures

Our technicians complete an in-depth analysis of equipment and energy sources to create detailed lockout isolation procedures.

Tiered Training

We empower organizations to create a safer work environment. Achieving a compliant lockout management system requires ongoing training. Our safety certified staff will come on-site and lead all or any of the hands-on courses requested. We offer the following training courses:

- Authorized Personnel
- Affected Personnel
- Lockout Procedure Creation
- Lockout Practitioner Workshop
- Lockout Leadership

Proper Equipment

Our safety experts can provide recommendations on the necessary safety padlocks, lockout devices, and identification tags for a best-in-class lockout management system.

Access

Experience has shown it should take less than 15 seconds to access lockout equipment. Keeping the necessary equipment close and easily accessible by authorized personnel saves time, eliminates excuses, and helps prevent damages and injuries.

Audits

Our safety experts offer on-site review of lockout procedures and programs to help ensure compliance requirements are met. We deliver a summary report which includes best-practice recommendations and corrective actions.

Estimates for services will be provided once the scope of work has been identified.

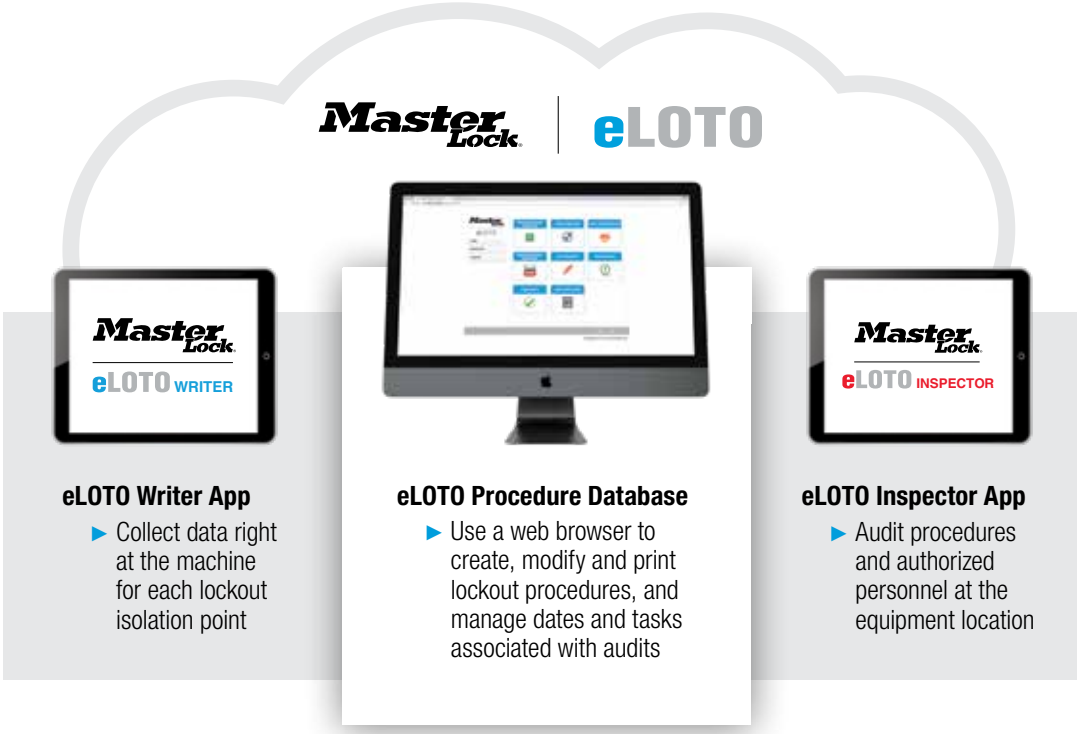
Lockout Procedure Writing Software

Machine-specific procedures are a requirement of a compliant lockout management system. Master Lock eLOTO provides a best-practice solution to create visual lockout procedures and conduct audits.

Master Lock eLOTO Lockout Procedure Writing Software

Empower employees with the tools needed to make work environments safer

Master Lock eLOTO is an easy-to-use, cloud-based software solution for writing and managing visual lockout procedures. Master Lock eLOTO is comprised of a web interface and two mobile applications:



eLOTO Writer App

- Collect data right at the machine for each lockout isolation point

eLOTO Procedure Database

- Use a web browser to create, modify and print lockout procedures, and manage dates and tasks associated with audits

eLOTO Inspector App

- Audit procedures and authorized personnel at the equipment location

The eLOTO procedure database and the Writer and Inspector mobile applications work together to help ensure lockout procedures are accurate and up-to-date. Printed procedures meet the best-practice format demonstrated in ANSI Z244.1-2016.

ACCESS MANAGEMENT SOLUTIONS: MASTER LOCK® VAULT ENTERPRISE

Smart. Simple. Secure.

The Master Lock Vault Enterprise software and suite of Bluetooth® enabled hardware provide business users who manage many locks and many users with a convenient way to control access, oversee assets and improve accountability. This proven security innovation eliminates the cost, security risk and complexity of physical keys.

INNOVATIVE FEATURES:

- Efficiently manage access to ensure the right users have the right access
- Simplify security set-up with bulk user uploads and fast lock scanning for registration
- Automatically map lock and lock box locations via smartphone
- Easily monitor access with robust data and audit trails
- Assured back-up entry method using manual, directional or numeric code on locks and lockboxes
- Leverage the security of 256-bit, military-grade encryption

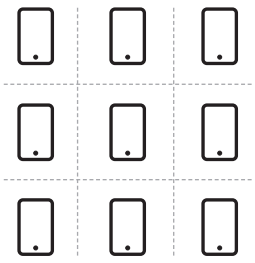
Flexible Asset Management

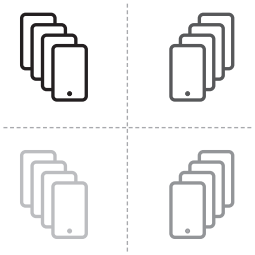
Whether it's one lock or thousands, Master Lock Vault Enterprise provides businesses with unmatched security, simplicity and accountability.

INDIVIDUAL



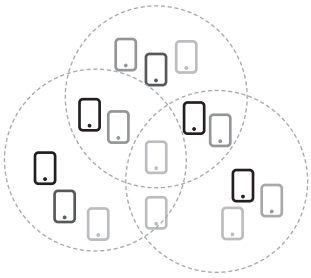
Share permanent or temporary access with our app that turns smartphones into smart keys.

GROUP



Easily assign users and devices to unique access groups, on demand.

CUSTOMIZED



Enjoy system-wide customization, including the ability to overlay groups for efficient access management.

Around-the-Clock Access with Master Lock Vault Enterprise

Integrated into the suite of Bluetooth enabled products, the easy-to-use Master Lock Vault Enterprise app eliminates the need for physical keys and key management, lowering costs and enhancing security. Users view detailed lock-use history, including unlock/open/relock activity.

Bluetooth Enabled Products

The Master Lock Vault Enterprise suite of Bluetooth enabled products can be mixed and matched to fit your application needs.

■ No keys to lose ■ No combinations to forget ■ No unauthorized key duplication
■ No long-term contracts ■ No monthly fees ■ No shared access fees

- Durable, reliable padlocks that feature anti-shim technology for maximum security
- Strong, weather-resistant lock boxes have a large storage capacity for keys and key cards
- Door controller easily wires into electric strikes or magnetic locks and fits inside standard door frames.

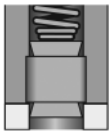
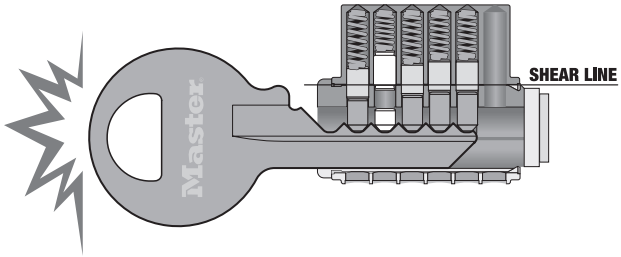
Advanced Cylinder Technology

Reverse Rake Tapered Driver Pin

High Performance Spring



Precision Cylinder Chamber



Lock Bumping –

Lock Bumping has become a legitimate security threat as information on the topic has become widely exposed in the news media and on the internet.

In response to this threat, The Master Lock Company developed exclusive patent-pending BumpStop® Advanced Technology that prevents the transfer of force from the bump key to the pins and blocks rotation of the cylinder. With a reverse rake tapered driver pin, high performance spring and precision tolerance chamber, our 4, 5 and 6-pin BumpStop® products resist bump attacks.

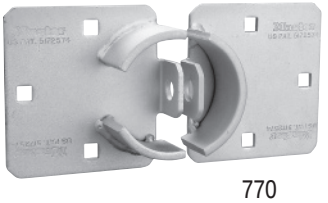
Pro Series® Rekeyable Padlocks

- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- High security cylinder
  - 5-pin & 6-pin cylinders provide tens of thousands of key changes
  - Spool pins are virtually impossible to pick
- Rekeyable – replaceable cylinder and shackle

Hidden Shackle Padlocks

- Ideal for vans, trucks, gates and vending
- Greatest physical security - defy bolt cutters and prying
- Die cast body reinforced with anti-saw pins (No. 6271)

6271



770

High Security Hasp available for Hidden Shackle Lock (Model 6271)

High Security – Solid Iron Shroud

- Heavy steel bodies withstand physical attacks
- Iron shroud protects shackle from cutting and prying

6325

6327

High Security – Solid Steel

- Heavy case hardened steel body
- Chrome rustproofing provides longer life
- Shrouded models protect against bolt cutters and prying

7030

7050

7045

Weather Tough®

- Ideal for harsh outdoor conditions
  - Exclusive cover protects lock from water, ice, dirt and grime
  - Heavy duty steel bodies withstand physical attacks
  - Keyway cover keeps out dust and dirt
- Optional brass shackles available for increased corrosion resistance

6121

6127

Solid Brass

- Body provides extra corrosion resistance in caustic, corrosive salty environments
- Optional brass shackles available for increased corrosion resistance

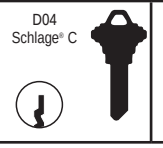
Door Key Compatible Cylinders & Padlocks

Same Key Opens Both

- Use the same key that opens your security doors – Improve key control • Security • Convenience • Safety
- Cylinders may be ordered both as part of a complete American Lock® Door Key Compatible padlock assembly, or separately, keyed up and ready to plug into your system
- Padlock bodies will also accept the following OEM cylinders: Medeco® #20W20000 6-pin cylinder, Schlage® (6-pin Key-in-Knob), Assa® (65611), Schlage® Primus® & GMS® cylinders

Cylinder Options

D12 Kwikset® (composite)	D04 Schlage® C	D03 Yale® 8
		



Pro Series® Door Key Compatible Padlocks

- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- Rekeyable – replaceable cylinder and shackle

High Security – Solid Iron Shroud

- Heavy steel bodies withstand physical attacks
- Iron shroud protects shackle from cutting and prying

6727 6721

Weather Tough®

- Ideal for harsh outdoor conditions
  - Exclusive cover protects lock from water, ice, dirt and grime
  - Heavy duty steel bodies withstand physical attacks
  - Keyway cover keeps out dust and dirt
- Optional brass shackles available for increased corrosion resistance

6621 6627 6627LH

High Security – Solid Steel

- Heavy case hardened steel body
- Chrome rustproofing provides longer life
- Shrouded models protect against bolt cutters and prying

7052 7042 7047

Solid Brass

- Body provides extra resistance in caustic, corrosive and salty environments
- Optional brass shackle available for increased corrosion resistance

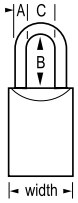
Pro Series® Key-in-Knob Cylinders & Padlocks — Solid Brass



Example	6852 CN D04 6 KAMK LZ1 1KEY
	D03 5 KZ
	6842 LJ WO

Base Model	Description
6852	2in (51mm) wide body, A = 3/8in (9mm) dia., B = 1-1/2in (37mm), C = 29/32in (23mm)
6842	1-3/4in (44mm) wide body, A = 5/16in (8mm) dia., B = 1-3/16in (30mm), C = 25/32in (20mm)

Shackle	**Standard:** Boron
LF	Boron, B = 1-1/2in (38mm) *(6842 option only)*
LJ	Boron, B = 2-1/2in (64mm)

Chain	
CN	#40 Sash Chain, 9in (23cm) Long, Zinc Plated

Cylinder	
WO	Lock without cylinder
WCS	Lock Body only
D12	Kwikset® (composite)*
D04	Schlage® C
D03	Yale® 8

**Exclusively available as 5-pin cylinder*

Note: 1) When ordering cylinders only, put an "A" prefix in front of the cylinder number to assure correct cylinder drivers are provided.
2) Cylinder Only Packaging: Shelf Pack = 6, Master Carton = 24

No. of Pins	
5	5 Pins
6	6 Pins

Keying	**Standard:** Keyed Different
KZ	Zero-Bitted
KA	Keyed Alike
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed

Custom Marking	
LZ1	Laser engraved in 1 area
LZ2	Laser engraved in 2 areas
LZ3	Laser engraved in 3 areas
LZ4	Laser engraved in 4 areas

Small Format Interchangeable Cores & Pro Series® Padlocks

- Padlock bodies will also accept the following standard size OEM cores: Best®, Best® PKS®, Arrow®, Falcon®, Kaba® Peaks®, KSP® & Lori®
- Standard SFIC with the CY keyway may be ordered both as part of a complete Master Lock IC padlock assembly, or separately, keyed up and ready to plug into your system

Pro Series® Small Format Interchangeable Core Padlocks

- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- Rekeyable — replaceable cylinder and shackle

High Security –

Solid Iron Shroud

- Greatest physical security available
  - Heavy steel bodies withstand physical attacks
  - Iron shroud protects shackle from cutting and prying

6527

6521

High Security – Solid Steel

- Heavy case hardened steel body
- Chrome rustproofing provides longer life
- Shrouded models protect against bolt cutters and prying

7051

7046

Weather Tough®

- Ideal for harsh outdoor conditions
  - Exclusive cover protects lock from water, ice, dirt and grime
  - Heavy duty steel bodies withstand physical attacks
  - Keyway cover keeps out dust and dirt
- Optional brass shackles available for increased corrosion resistance

6427

6427LH

6421LJWO

Solid Brass

- Body provides extra resistance in caustic, corrosive and salty environments
- Optional brass shackle available for increased corrosion resistance

6851

6841

Rekeyable Padlocks

- Quickly remove the current cylinder and either change the pins or replace the cylinder
- 5-pin tumbler cylinders provide more than 9,000 key changes for added pick resistance
- Rekeying kit (No. 291) contains an extensive assortment of the most frequently used components to replace or rekey cylinders

Die Cast Zinc Padlocks

- Chrome-plated lock body resists corrosion
- Hardened boron alloy shackle for superior cut resistance

230

220

Rekeyable Laminated Steel Padlocks

- Double locking mechanisms provide extra pry resistance
- Hardened boron alloy shackles — No. 25 and 101
- Hardened steel shackles — No. 21
- Hardened steel bottom plates for extra drill resistance — No. 25 and 21
- Top & bottom bumpers for greater scratch resistance

101

Master Lock

Non-Rekeyable Padlocks

Commercial Magnum® Padlocks

- Stainless steel body cover for exceptional weatherability
- Chrome-plated shackle for excellent rust resistance
- Octagonal boron-carbide shackle is 50% harder than hardened steel
- Superiory pry resistance with dual-ball bearing locking
- 4-pin tumbler cylinders provide pick resistance
- Key to match existing 4-pin W1 systems
- Edge® Key Control available

High Security Laminated Steel Padlocks

- Hardened boron alloy shackle for superior cut resistance
- Dual locking mechanism provides extra pry resistance
- Hardened steel bottom plates for extra drill resistance
- Top and bottom bumpers for greater scratch resistance
- Proprietary rustproofing for longer life
- 5-pin tumbler cylinders provide more than 9,000 key changes for added pick resistance – No. 15 & 17
- 4-pin tumbler cylinders provide pick resistance – No. 5

Laminated Steel Padlocks

- Hardened Steel shackles for extra cut resistance
- 5-pin tumbler cylinders provide more than 9,000 key changes for added pick resistance – No. 81 & 31
- 4-pin tumbler cylinders provide pick resistance – No. 1 & 3

Laminated Brass Padlocks

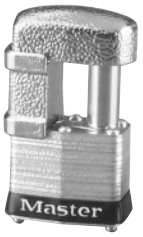
- Brass bodies and cylinders provide excellent corrosion resistance – No. 82, 6, 2, 4
- Hardened steel shackles for extra cut resistance
  - Optional brass shackles available for increased corrosion resistance

Covered Laminated Padlocks for Outdoor Protection

- High-tech thermoplastic shell designed to withstand the elements
- Hardened steel shackle with molded cover
- Dual locking mechanism provides extra pry resistance
- 1-9/16in (40mm) wide laminated steel body for superior strength
- 4-pin tumbler cylinder helps prevent picking

Shrouded Shackle Padlocks

- Armored shackle guard and hardened steel shackle defies cutting
- 1-9/16in (40mm) wide laminated steel body for superior strength
- 4-pin tumbler cylinder helps prevent picking



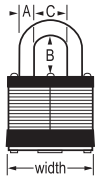
Vending and Meter Padlocks

- Prevents access to vending and utility valve equipment
- Removable hardened steel shackle for extra cut resistance
- Hardened steel bottom plate for extra drill resistance
- Dual locking mechanism provides extra pry resistance
- 1-9/16in (40mm) wide laminated steel body for superior strength
- 4-pin tumbler cylinder helps prevent picking
- Top and bottom bumpers for greater scratch resistance

General Security Laminated Steel and Brass Padlocks

- 1-1/8in (29mm) wide body
- Standard steel shackle
  - Optional brass shackles available for increased corrosion resistance – No. 8
- 4-pin cylinder helps prevent picking
- Proprietary rustproofing for longer life – No. 7
- Brass bodies and cylinders provide excellent corrosion resistance – No. 8

Non-Rekeyable Padlocks — Commercial Magnum®



Example	M5 KA LF STS

Base Model	Description
M5 STS	2in (51mm) wide Commercial Magnum® Stainless Cover with Octagonal Boron-Carbide Shackle. A = 3/8in (10mm), C = 15/16in (24mm)
M1 STS	1-3/4in (44mm) wide Commercial Magnum® Stainless Cover with Octagonal Boron-Carbide Shackle. A = 5/16in (8mm), C = 13/16in (21mm)

CN	#40 Sash Chain, 9in (23cm) Long, Zinc Plated

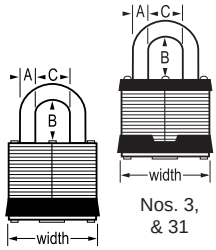
Cylinder	**Standard:** 1 & 2 Only: 4-pin W1 cylinder; 81 & 82 Only: 5-pin W81 Cylinder
W2K	4-pin W2 cylinder *(Available with MK or KAMK option only)*
W15	5-pin W15 cylinder *(81 & 82 Option Only)*
W17	5-pin W17 cylinder *(81 & 82 Option Only)*
W27	5-pin W27 cylinder *(81 & 82 Option Only)*
W600A	5-pin American Lock® W600A cylinder *(81 and 82 Option Only) (Available as KA & KZ only)*
WP4	Edge® Key Control 4-pin cylinder. Standard: Nickel Silver Keys

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 54-55 for respective key blanks or cut key information.

Unless otherwise specified, Shelf Pack = 6, Master Carton = 24

Non-Rekeyable Padlocks — 1-9/16in (40mm) Laminated Steel & Brass Pin Tumbler



Nos. 3, & 31

No. 4

Example	3 KA LF

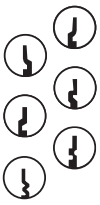
Base Model	Description
3	1-9/16in (40mm) Wide, Laminated Steel body with Hardened Steel Shackle; A = 9/32in (7mm), B = 3/4in (19mm), C = 5/8in (16mm)
31	1-9/16in (40mm) Wide, Laminated Steel body with Hardened Steel Shackle; A = 9/32in (7mm), B = 3/4in (19mm), C = 5/8in (16mm)
4	1-9/16in (40mm) Wide, Laminated Brass body with Hardened Steel Chrome Shackle; A = 9/32in (7mm), B = 3/4in (19mm), C = 5/8in (16mm)

BumpStop® Cylinder Technology	
N	Anti-Bump Cylinder Technology

Keying	**Standard:** Keyed Different
KA	Keyed Alike
KARAN	Keyed-Alike within Shelf Pack
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed

Shackle	
LF	Hardened Steel, B = 1-1/2in (38mm) *(3 Option Only)*
LH	Hardened Steel, B = 2in (51mm)
B	Brass, B = 3/4in (19mm) *(4 Option Only)*

Chain	
CN	#40 Sash Chain, 9in (23cm) Long, Zinc Plated



Cylinder	**Standard:** *3 & 4 Only 4-pin W1 cylinder; 31 Only 5-pin W-27 cylinder*
W2K	4-pin W2 Cylinder *(Available with MK or KAMK option only)*
W15	5-pin W15 cylinder *(31 Option Only)*
W17	5-pin W17 cylinder *(31 Option Only)*
W81	5-pin W81 cylinder *(31 Option Only)*
W600A	5-pin American Lock® W600A cylinder *(31 Option Only) (Available as KA & KZ only)*
WP4	Edge™ Key Control 4-pin cylinder. Standard: Nickel Silver Keys

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 54-55 for respective key blanks or cut key information.

Unless otherwise specified, Shelf Pack = 6, Master Carton = 24

Non-Rekeyable Padlocks — 1-9/16in (40mm) Covered Laminated Steel Pin Tumbler

Example	312 MK LH

Base Model	Description
311	Black Cover, 1-9/16in (40mm) Wide, Laminated Steel body, with Hardened Steel Shackle; A = 3/8in (10mm), C = 1/2in (13mm)
312	Blue Cover, 1-9/16in (40mm) Wide, Laminated Steel body, with Hardened Steel Shackle; A = 3/8in (10mm), C = 1/2in (13mm)
315	Yellow Cover, 1-9/16in (40mm) Wide, Laminated Steel body, with Hardened Steel Shackle; A = 3/8in (10mm), C = 1/2in (13mm)

BumpStop® Cylinder Technology	
N	Anti-Bump Cylinder Technology

Keying	**Standard:** Keyed Different
KA	Keyed Alike
KARAN	Keyed-Alike within Shelf Pack
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed

Shackle	**Standard:** Hardened Steel with molded cover, B = 3/4in (19mm)
LF	Hardened Steel Shackle without cover, B = 1-1/2in (38mm)
LH	Hardened Steel with molded cover, B = 2in (51mm)

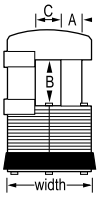
Cylinder	**Standard:** 4-pin W1 cylinder
W2K	4-pin W2 Cylinder *(Available with MK or KAMK option only)*
WP4	Edge® Key Control 4-pin cylinder. Standard: Nickel Silver Keys

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 54-55 for respective key blanks or cut key information.

Unless otherwise specified, Shelf Pack = 6, Master Carton = 24

Non-Rekeyable Padlocks — 1-9/16in (40mm) Shrouded Laminated Steel Pin Tumbler



Example	37 KA

Base Model	Description
37	1-9/16in (40mm) Wide, Laminated Steel body with Hardened Steel Shackle; A = 9/32in - 1/2in (7mm - 13mm), B = 15/16in (24mm), C = 7/16in (11mm)

BumpStop® Cylinder Technology	
N	Anti-Bump Cylinder Technology

Keying	**Standard:** Keyed Different
KA	Keyed Alike
KARAN	Keyed-Alike within Shelf Pack
MK	Keyed Different; Master Keyed

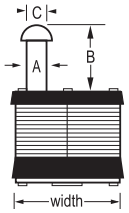
Cylinder	**Standard:** 4-pin W1 cylinder
W2K	4-pin W2 Cylinder *(Available with MK or KAMK option only)*
WP4	Edge® Key Control 4-pin cylinder. Standard: Nickel Silver Keys

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 54-55 for respective key blanks or cut key information.

Unless otherwise specified, Shelf Pack = 6, Master Carton = 24

Non-Rekeyable Padlocks — Special Application Vending & Meter Padlocks



Example	443 MK LE

Base Model	Description
443LE	1-9/16in (40mm) Wide, Laminated Steel body with Hardened Steel Shackle; A = 3/8in (10mm), B = 7/8in (22mm), C = 5/8in (16mm)

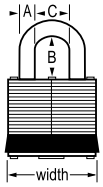
BumpStop® Cylinder Technology	
N	Anti-Bump Cylinder Technology

Keying	**Standard:** Keyed Different
KA	Keyed Alike
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed

Cylinder	**Standard:** 4-pin W1 cylinder
W2K	4-pin W2 Cylinder *(Available with MK or KAMK option only)*
WP4	Edge® Key Control 4-pin cylinder. Standard: Nickel Silver Keys

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

Non-Rekeyable Padlocks — 1-1/8in Laminated Steel & Brass Pin Tumbler



Example	8 B

Base Model	Description
7	1-1/8in (29mm) wide, Laminated Steel body with Steel Shackle; A = 3/16in (5mm), C = 1/2in (13mm) - 4-pin W7 cylinder
8	1-1/8in (29mm) wide, Laminated Brass body with Chrome Steel Shackle; A = 3/16in (5mm), C = 1/2in (13mm) - 4-pin W7 cylinder

Keying	**Standard:** Keyed Different
KA	Keyed Alike
KARAN	Keyed-Alike within Shelf Pack
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed

Shackle	**Standard:** Steel, B = 9/16in (14mm)
LF	Steel, B = 1-1/2in (38mm)
LJ	Steel, B = 2-1/2in (64mm)
B	Brass, B = 9/16in (14mm) *(8 Option Only)*

Chain	
CN	#40 Sash Chain, 9in (23cm) Long, Zinc Plated

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

Universal Pin Padlocks and Accessories

- Universal Pin padlocks for keying convenience
- Locks pinned to customer's key in minutes. Operates with same key as Master Lock Padlocks (Nos. 1-6)
- Laminated steel bodies for superior strength
- Hardened steel (Nos. 1 and 3) and hardened boron alloy (No. 5) shackles
- 4-pin tumbler cylinders helps prevent picking
- Great choice for keyed alike applications
- No. 376 produces custom-pinned locks in minutes
- No. 376 on-site use with Universal Pin padlocks

Electronic Security

Master Lock Bluetooth®

Combine the cost benefits and convenience of keyless security with the control, flexibility and accountability of Bluetooth enabled hardware and included Master Lock Vault Enterprise software. This integrated solution provides efficient and effective administration of security management and user access. The Master Lock Vault Enterprise suite of Bluetooth enabled products can be mixed and matched to fit your application needs.

- Durable, reliable padlocks that feature anti-shim technology for maximum security
- Strong, weather-resistant lock boxes have a large storage capacity for keys and key cards
- Door controller easily wires into electric strikes or magnetic locks and fits inside standard door frames.

Python® Adjustable Locking Cable

- Patented locking mechanism holds the cable tight for infinite locking positions
- Weather tough aluminum alloy body, cylinder shutter and vinyl coated cable resist rust and operate in extreme conditions
- Keyed-alike convenience with the removeable, rekeyable cylinder -- key to other Python locking cables or other Master Lock systems with the M1 keyway
- Increased pick resistance with patented disk tumbler cylinder
- Cut resistant, 3/8in (10mm) 100% steel braided cable
- 6ft (1.8m) to 30ft (9.1m) Interchangeable cables for application flexibility

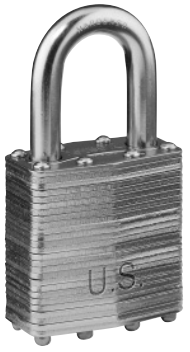
Government Locks

As the world's largest manufacturer of padlocks and portable security products, Master Lock has set the standard for quality and selection for more than 90 years. Building on this tradition, Master Lock continues to expand its commercial products and services to better meet our customers changing security requirements. Trust Master Lock for the innovative products, security, support and service you need.

Over the past 50 years Master Lock, as a prime contractor and subcontractor, has supplied every segment of Defense, Federal, State and Local Governments. Master Lock has over 85 National Stock Numbers (NSN) assigned to its product line. Through distribution Master Lock has in aggregate over 550 line items in GSA Advantage and 31 NSN line items referenced in DOD Emall. Master Lock also supplies retail product to AAFES, Navy, Marines and the U.S.Coast Guard.

- Where required Master Lock products are designed to stringent government standards, CID-A-A-59486, CID-A-A-56487 and ASTM F883
- BumpStop® Advanced Cylinder Technology option provides excellent resistance to surreptitious attack
- Make-to-order capability – security products built and keyed to your requirements: shackle options, keying flexibility, laser engraving, key control and custom sets available
- 5-pin tumbler cylinder for added security
- More than 10,000 key changes available for maximum pick resistance
- Dual locking for superior pry resistance
- Most models are stamped "US"; sets are stamped "US SET"
- Non-removable keys available for added security

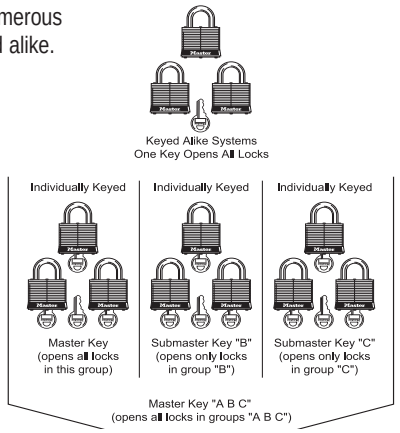


6001

6002

6004

Keying Options



- Keyed Alike (KA) - This provides insame keyin convenience and eliminates the need for multiple keys where numerous padlocks are used. All padlocks in the set are keyed the same. Most Master Lock padlocks can be ordered keyed alike. Keyed alike padlocks are listed in this price book with a "KA" suffix in the product number.
- Master Keyed (MK) - In a master keyed system, the master key opens all locks in the system although each lock has its own unique key. Master keyed items are ideal for permitting supervisory or emergency access. Master keyed padlocks are listed in this price book with an "MK" suffix in the product number.
- Rekeyable Padlocks - Padlock cylinders can be removed and replaced to restore security quickly without requiring a new padlock. This is ideal for situations where keys are lost or stolen due to theft or employee turnover. Rekeyable padlocks are found on pages 27-29.
- Reserved Key Systems (RSV) - Reserved key padlocks are not available to the general public and are not listed in this price book. Key blanks and cut keys are supplied directly by Master Lock through distributors and dealers when requested by registered end users. This adds security through the restricted distribution of duplicate keys. This option requires a custom quotation (see page 1).
- Edge® Key Control - Keys for this patent pending key control product offer the ultimate protection against unauthorized duplicate keys. Blank keys are available to locksmiths only and controlled by contract. These keys are recommended for all master keys applications. Contact your local locksmith for full details.
- Non-Removable Key (NR) - The key cannot be removed from the padlock when the padlock is open. This helps prevent users from accidentally leaving the padlock in the open position. Only selected padlocks offer this option.

KEY CHARTING

- Customers can benefit fully from the large Master Lock change key ranges by having us chart your keying system for you. We will keep a complete record of the progressive key codes assigned and manufactured into your padlocks for each order. You will be assured that there is no unwanted key duplication with the padlocks you purchase over time. Be sure to request this special service with your next order so that all locks purchased from that point forward will be manufactured to comply with your key system requirements. Any orders placed by an end user or distributor should note that they are on a key charting system or reference their End User I.D. Number.

Key Number Range By Products

- Each Master Lock padlock has its own specific numbered key number. The products and appropriate key numbers are listed in the cut key listing, pages 56-57.
- To order a specific key number, specify product number followed by a key number. If no key number is indicated, Master Lock will select a random key number from the appropriate range.

Example: 12 No. 5KA = 12 No. 5 padlocks keyed alike to a randomly-selected key number in range A101-A2084
12 No. 5KA A101 = 12 No. 5 padlocks keyed alike to key number A101

Padlock Options

- Laser Engraving (LZ) Laser Engraving allows for easy identification of padlocks that is a permanent mark on the padlock that cannot be removed. Some applications are: Safety Lock-out, Employee locker identification, Company logos for brand identification. Four areas on an Master Lock solid body aluminum and brass can be engraved for easy padlock identification. Numbers, letters, company logos, or alphanumeric characters can be added to a padlock. Logo engraving available in Area 1 & 3 only. There are a variety of type styles and sizes for text to choose from, or a customer can send a copy of their company logo and Master Lock can permanently engrave it on a padlock. Not recommended for clear locks. Contact Master Lock for order forms.

- Other Stamping Options

Key Stamping: Alpha numeric characters (HSK)*
I.D. Tag Tag Stamping: Alpha numeric characters (HST)
Interchangeable Core Stamping Concealed Side of Cylinder (CKC)
Ink Stamp Key Number on Bottom Plate (INK)
Hard Stamp Key Number on Bottom Plate (HSTP)

*Note: Key Stamping: (HSK) Alpha numeric characters (Priced PER KEY)

- Color Coding - Some padlocks are available with colored bumpers or lock bodies for easy department identification.
- Chain and Tag Attachments - Small chains may be attached to padlock shackles in order to affix padlocks to truck doors, gates, equipment, or other applications. Brass tags may be affixed to padlocks for identification purposes. These items are available separately. or can be attached at the factory.
- Reserved Key System (RSV)

Safety Solutions

Master Lock | AMERICAN LOCK®

Master Lock offers the most comprehensive line of safety products available. We have a product that's built for every type of environment, and a lockout solution for every isolation point.

Safety padlocks answer unique facility and identification needs as well as compliance regulations

#410
#411

ZENEX™ THERMOPLASTIC PADLOCKS
Durable, lightweight padlocks withstand extreme temperature, UV and corrosive chemicals

#S31
#S33

EXTREME ENVIRONMENT
3/16" (4.8mm) stainless steel shackles are optimal for corrosive environments

#406
#S32

DIELECTRIC SAFETY PADLOCKS
Non-conductive, non-sparking, and non-magnetic materials ideal for electrical lockout applications

#S1100
#A1100

ANODIZED ALUMINUM PADLOCKS
Durable padlocks withstand any harsh environments. Ideal for food processing facilities, oil & gas and mining applications

#3

LAMINATED STEEL PADLOCKS
Proven, economical padlocks stand up to physical abuse

Lockout devices help to easily solve challenging applications

VALIDATED

- MASTER LOCK 1100 SERIES: A1105, A1106, A1107, A1165, A1166, A1167, S1105, S1106, S1107 CONTAIN A MINIMUM OF 60% RECYCLED CONTENT

UL.COM/ECV

REDUCE. REUSE. RECYCLE.

Master Lock is proud to do all three

PROTECTING PEOPLE AND THE PLANET:

Our Master Lock Safety padlocks use FDA compliant lubricants, which are safe for use in food processing facilities.

Additionally, Master Lock manufactures the majority of Safety padlock components in our ISO 9001 North American facilities.

Master Lock is committed to stewardship of the environment, to the people who make and use our safety products, and to the communities where they are made and used.

A NUMBER OF MASTER LOCK PRODUCTS HAVE BEEN UL ENVIRONMENT VERIFIED FOR RECYCLED CONTENT.

UL Environment works to advance global sustainability by supporting the growth and development of environmentally preferable products, services and organizations.

REDUCE

Our Master Lock Safety Zenex™ padlock bodies are molded using a hot runner injection molding process that results in virtually no scrap material.

REUSE

Precision engineering, durable materials and recommended padlock maintenance ensure all Master Lock Safety padlocks are long lasting.

RECYCLE

Master Lock Safety padlocks use a significant percentage of recycled metal. Steel shackles, brass keys and cylinders, as well as our aluminum lock bodies are all manufactured using recycled material.

Our customer services and key management systems build better safety programs.

EMPLOYEE OR FACILITY IDENTIFICATION

LASER ENGRAVING
Provides a permanent method for customizing lockout padlocks with a name, logo or key number. Available with Thermoplastic and Aluminum padlocks

PHOTO ID LABELS
Achieve immediate user recognition. Available for all Thermoplastic and Aluminum locks

MAKE-TO-ORDER CAPABILITY

Built and keyed to your requirements

LOCK BODIES & SHACKLES
Choose extra length shackles and specific body types

WRITE-ON LABELS
Provide both lockout warning message and space for employee name. These are standard with Thermoplastic padlocks (wrap-around style is available for Steel padlocks)

KEYING FLEXIBILITY
Only Master Lock offers you the convenience of Keyed Different, Keyed Alike or Master Keyed in EVERY Safety Padlock. Over 100,000 possible key changes ensures no duplicates within your facility.

EXCLUSIVE SAFETY MASTER KEY SYSTEMS

Select the Master Key system that best meets your current and future safety lockout needs. Available in the W417 Safety Master Key keyway which is standard in the 410MK, 406MK and 411MK padlocks. Optional in A1160MK series padlocks.

Master Lock

Master Lock offers the widest range of strong, easy-to-use, and reliable security products people trust to protect their most valued assets.

Around the Home

Give consumers the confidence to protect the things they've earned. From padlocks to cable locks, door hardware, Master Lock Vault® and more, there's a product for every home security need.

School, Gym & Health Club

The broadest selection of innovative and easy-to-use portable locks with the features and functionalities people know and trust to keep their belongings are safe.

Bike

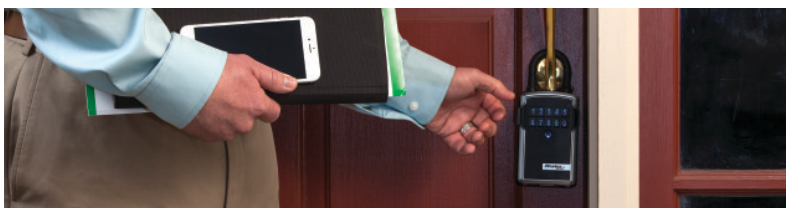
Whether it's to school, to work, for sport or pleasure, we offer cyclists a wide variety of strong and easy-to-use options to lock up their ride with confidence.

Travel

TSA accepted locks and personal portable safes available in a variety colors, styles with resettable combinations provide convenience and peace of mind for travelers.

Vehicle

Help people protect their tools, property, and vehicles with our extensive lineup of rugged and reliable automotive, towing and powersports security products.



Storage Security & Lock Boxes

Give your customers the freedom to control access to their property and the peace of mind of always knowing their keys, fobs or access cards are secure.

ORDERING INFORMATION

Key Number Range By Products

- Each Master Lock padlock has its own specific numbered key number. The products and appropriate key numbers are listed below.
- To order a specific key number, specify product number followed by a key number. If no key number is indicated, Master Lock will select a random key number from the appropriate range.

Example: 12 No. 5KA = 12 No. 5 padlocks keyed alike to a randomly-selected key number in range A101-A2084.
12 No. 5KA A101 = 12 No. 5 padlocks keyed alike to key number A101 and receive forecast and Point of Sale (POS) data via EDI.

INDIVIDUAL KEY NUMBERS

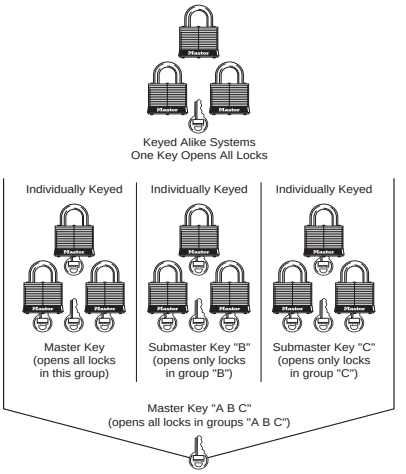
Padlock Body	Key Number	Padlock Body	Key Number
1 & 2	2001 - 2997 X2000 - X2998	15, 220 & 230	10N001 - 19N950
3, 4, 37, 40, 311, 312 & 317	3030 - 3999 0301 - 0950	21, 25, 31 & 101	10L001 - 19L616
5 & 6	A101 - A2084	81, 82, 532, 570 & 575,	10R01 - 109R10
7, 8, 90, 185, 716, 719 & 1807D	P104 - P851 K1973 - K2924	911, 930 & 931	10Z001 - 19Z950

INDIVIDUAL MASTER KEY NUMBERS

Padlock Body		Key Number	Padlock Body	Key Number
1 & 2	MK MK2K	7100 - 7939 X2000 - X2998	15MK	20N001 - 25N616
3, 4, 37 & 312	MK MK2K	E100 - E699 E1000 - E6990	21MK, 25MK, 31MK, 220MK & 230MK	20L001 - 25L616
5 & 6	MK MK2K	J301 - J996 J3010 - J5990	81MK & 82MK	10M01 - 97M56
7MK & 8MK		N200 - N367 X368 - X785		

Keying Options

- Keyed Alike (KA) - This provides “same key” convenience and eliminates the need for multiple keys where numerous padlocks are used. All padlocks in the set are keyed the same. Most Master Lock padlocks can be ordered keyed alike. Keyed alike padlocks are listed in this price book with a “KA” suffix in the product number.
- Master Keyed (MK) - In a master keyed system, the master key opens all locks in the system although each lock has its own unique key. Master keyed items are ideal for permitting supervisory or emergency access. Master keyed padlocks are listed in this price book with an “MK” suffix in the product number.
- Rekeyable Padlocks - Padlock cylinders can be removed and replaced to restore security quickly without requiring a new padlock. This is ideal for situations where keys are lost or stolen due to theft or employee turnover. Rekeyable padlocks are found in the commercial price book.
- Reserved Key Systems (RSV) - Reserved key padlocks are not available to the general public and are not listed in this price book. Key blanks and cut keys are supplied directly by Master Lock through distributors and dealers when requested by registered end users. This adds security through the restricted distribution of duplicate keys. This option requires a custom quotation (see page 1).



- ML Line Patent Key Control - Keys for this patent pending key control product offer the ultimate protection against unauthorized duplicate keys. Blank keys are available to locksmiths only and controlled by contract. These keys are recommended for all master key applications. Contact your local locksmith for full details.
- Non-Removable Key (NR) - The key cannot be removed from the padlock when the padlock is open. This helps prevent users from accidently leaving the padlock in the open position. Only selected padlocks offer this option.

Key Number Range By Products

- Special Marking - Key numbers or other customer specific information may be stamped or laser engraved on the padlock or key for identification. This is useful for recording company owned padlocks as well as identifying employees using specific padlocks. Please call your Master Lock sales representative for details on laser engraving. Other customer specific information requires a custom quotation (see page 1).
- Color Coding - Some padlocks are available with colored bumpers or lock bodies for easy department identification.
- Key Number Maintenance (Charting) - Master Lock will maintain records of your key system for future reference. This is useful when reordering padlocks to current keyed different, keyed alike, master keyed, or safety lockout systems. This option requires a custom quotation (see page 1).
- Chain and Tag Attachments - Small chains may be attached to padlock shackles in order to affix padlocks to truck doors, gates, equipment, or other applications. Brass tags may be affixed to padlocks for identification purposes. These items are available separately (see Commercial Price Book) or can be attached at the factory. The factory-attached option requires a custom quotation (see page 1).

RETAIL PRODUCTS

Retail Carded Packaging - Hardware

Master Lock offers a variety of products packaged for self-service display in the retail marketplace. The card graphics have been carefully designed to help consumers with their security applications. Clamshell structure helps package stay attractive and secure from carton to check-out counter.

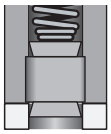
THE BUMP STOPS HERE!

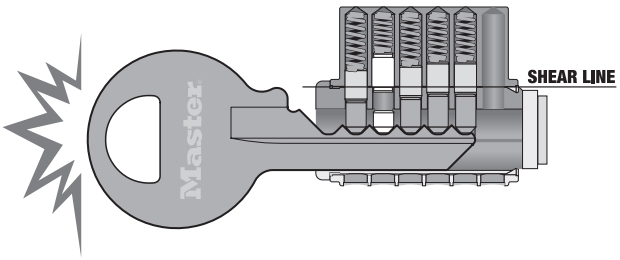
Advanced Cylinder Technology

Reverse Rake Tapered Driver Pin

High Performance Spring



Precision Cylinder Chamber



Lock Bumping –

Lock Bumping has become a legitimate security threat as information on the topic has become widely exposed in the news media and on the internet.

In response to this threat, The Master Lock Company developed exclusive patented BumpStop® Advanced Technology that hinders the transfer of force from the bump key to the pins and blocks rotation of the cylinder. With a reverse rake tapered driver pin, high performance spring and precision tolerance chamber, our 4, 5 and 6-pin BumpStop® products resist bump attacks.

BumpStop® is included in all American Lock and Master Lock Government security products - Made-to-order and NSNs, to meet CID requirements.

In addition, BumpStop is an upgrade available with most American Lock and Master Lock pin tumbler padlocks and security products.
Model Number Option: N

AMERICAN LOCK®

Government Products

Master Lock®

For over 60 years, American Lock and Master Lock, as prime contractors and subcontractors, have supplied every segment of D.D., Federal, State and Local Governments.

With unmatched lines of padlocks and portable security products, both American Lock and Master Lock padlocks are manufactured to exact Government CIDs and PIDs. Also, the exclusive BumpStop Advanced Cylinder Technology resists bump attacks.

American Lock has over 60 National Stock Numbers assigned to its product line to meet the most applications. Master Lock has more than 85 NSNs assigned to its product line. And through distribution Master Lock has in aggregate over 550 line items in GSA Advantage and 31 NSN line items referenced in D.D. Emall. Master Lock also supplies product to AAFES, Navy, Marines and the U.S.Coast Guard.

If an NSN set doesn't *exactly* match a requirement, turn to the Make-to-Order capabilities of American Lock and Master Lock. Choose the precise quantity of padlocks with the specific shackle lengths, chain attachments and keying options needed. American Lock and Master Lock will manufacture the locks to match your requirements.

- Where required, American Lock and Master Lock products are designed to stringent government standards, CID-A-A-59486, CID-A-A-59487 and ASTM F883
- BumpStop® Advanced Cylinder Technology resists surreptitious attacks
- Make-to-Order capability – security products built and keyed to your requirements: shackle options, keying flexibility, laser engraving, key control and custom sets available
- 5-pin tumbler cylinder for added security
- More than 10,000 key changes available for maximum pick resistance
- Dual locking for superior pry resistance
- Most models are stamped "US"; sets are stamped "US SET"
- Non-removable keys for added security

Rekeyable Solid Steel Government Padlocks

Example	A5200GLN KA
	A5200GLSHN KA
	A5200GLN MK W27

A5200GLN

A5200GLSHN

Base Model	Description
1-3/4in (44mm) Wide x 3/4in (19mm) Thick, Solid Steel Padlock with Hardened Boron Shackle, A = 5/16in (8mm), C = 3/4in (19mm), 5-pin Rekeyable W17 BumpStop® cylinder, Non-Removable Key, Lock Body Stamped "US".	
A5200GLN	B = 1-1/8in (28mm)
A5201GLN	B = 2in (50mm)
A5202GLN	B = 3in (75mm)
1-3/4in (44mm) Wide x 3/4in (19mm) Thick, Solid Steel Padlock with Shrouded Hardened Boron Shackle, A = 5/16in (8mm), C = 3/4in (19mm), 5-pin Rekeyable W17 BumpStop® cylinder, Non-Removable Key, Lock Body Stamped "US".	
A5200GLSHN	B = 1-1/8in (28mm)

Keying	**Standard:** Keyed Different
KA	Keyed Alike
MK	Keyed Different; Master Keyed (W27 BumpStop® cylinder)
KAMK	Keyed Alike; Master Keyed (W27 BumpStop® cylinder)

Cylinder	**Standard:** 5-pin W17 BumpStop® cylinder (Keyed Different and Keyed Alike only)
W27	Master Keyed. 5-pin BumpStop® cylinder Master Keyed and Master Keyed Alike Option

Custom Marking	
USS	Stamped "US Set"

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

Boxed Sets

Model Number	SKU	Description
1-3/4in (44mm) Wide x 3/4in (19mm) Thick Solid Steel Padlock with Hardened Boron Shackle, A = 5/16in (8mm), C = 3/4in (19mm), Rekeyable 5-pin BumpStop® cylinder, Lock Body Stamped "US SET".		
A5200GLNKAS6	111998	Set of 6 locks keyed alike
A5200GLNKAS10	P11246	Set of 10 locks keyed alike
A5200GLNKAS12	111999	Set of 12 locks keyed alike

Locks within a set are keyed alike. For orders with more than one set, each set has its own unique key, different from the next set. Include both the SKU number and model number when placing order.

Non-Rekeyable Solid Brass Government Padlocks

Example	ASL42N KA

Base Model	Description
1-1/2in (38mm) Wide x 3/4in (19mm) Thick, Solid Brass Padlock with Hardened Boron Shackle, A = 1/4in (6mm), C = 3/4in (19mm), 5-pin W17 BumpStop® cylinder, Non-Removable Key, Lock Body Height 1.695in, Lock Body Stamped "US".	
ASL40N	B = 1in (25mm)
ASL42N	B = 3in (75mm)

Keying	**Standard:** Keyed Different
KA	Keyed Alike
MK	Keyed Different; Master Keyed (W27 BumpStop® cylinder)
KAMK	Keyed Alike; Master Keyed (W27 BumpStop® cylinder)

Cylinder	**Standard:** 5-pin W17 BumpStop® cylinder (Keyed Different and Keyed Alike only)
W27	Master Keyed. 5-pin BumpStop® cylinder Master Keyed and Master Keyed Alike Option

Custom Marking	
USS	Stamped "US Set"
LZ1	Laser engraved in 1 area
LZ2	Laser engraved in 2 areas
LZ3	Laser engraved in 3 areas
LZ4	Laser engraved in 4 areas

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

National Stock Number Listing for Solid Body Padlocks

Previously, many National Stock Numbers (NSNs) were able to be satisfied by either a laminated or a solid body padlock based on their Commercial Item Description (CID). This often led to confusion due to a number of agencies or organizations that stipulated a particular "body type" as mandatory or preferred. In order to relieve this issue, the Defense Logistics Agency (DLA) has created and assigned new NSNs to only satisfy solid body padlocks. These NSNs became active in the Master Lock Government Products Price List and are listed below. Each of the new NSNs fully comply with the performance standards identified in CIDs AA59486 and AA59487. The only difference is the "body type."

For example, there are two (2) different NSNs for what was the 5340-00-158-3805. The 5340-00-158-3805 ONLY satisfies laminated body padlocks and the 5340-01-588-1036 ONLY satisfies solid body padlocks.

The Master Lock Company has partnered with LC Industries to have these American Lock® NSNs, page 8 only, listed on the federal procurement list. As a result, all orders for these items need to be sent to LC Industries directly.

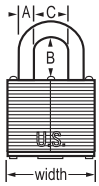
Non-Rekeyable Laminated Steel & Brass Government Padlocks

Example	6001N LF US



Base Model	Description
6001N	1-3/4in (44mm) wide laminated steel, hardened steel shackle, double ball locking, non-removable key, 5-pin W17 BumpStop® cylinder. Shackle dimensions: A=5/16in (8mm), C= 3/4in (19mm); must specify shackle height (B) LF or LT option.
6002N	1-3/4in (44mm) wide laminated brass, brass shackle, double ball locking, non-removable key, 5-pin W17 BumpStop® cylinder. Standard shackle dimensions: A=5/16in (8mm), B=3/4in (19mm), C= 3/4in (19mm)
6004N	1-9/16in (40mm) wide laminated brass, brass shackle, dual lever locking, non-removable key, 5-pin W17 BumpStop® cylinder. Standard shackle dimensions: A=9/32in (7mm), B=3/4in (19mm), C= 5/8in (16mm)

Keying	**Standard:** Keyed Different
KA	Keyed Alike
MK	Keyed Different; Master Keyed (W27 BumpStop® cylinder)
KAMK	Keyed Alike; Master Keyed (W27 BumpStop® cylinder)

Shackle	**Standard:** Brass, B = 3/4in (19mm) *(only on 6002 & 6004)*
LF	Hardened Steel, B=1-3/16in (30mm) *(6001 option only)*
LT	Hardened Steel, B=3in (76mm) *(6001 option only)*
BLJ	Brass, B = 2-5/8in (67mm), 5/16in (8mm) dia *(6002 option only)*, B = 2-5/8in (67mm), 9/32in (7mm) dia *(6004 option only)*

Chain	**Standard:** 6001: Steel Chain; 6002 & 6004: Brass Chain
W	9in (229) Long, Zinc Plated Double Loop Chain and Shackle Collar, no holder *(6001 option Only)*

Cylinder	**Standard:** 5-pin W17 BumpStop® cylinder (Keyed Different and Keyed Alike only)
W27	Master Keyed. 5-pin BumpStop® cylinder Master Keyed and Master Keyed Alike Option

Custom Marking	
US	Stamped "US"
USS	Stamped "US SET"

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock

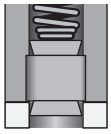
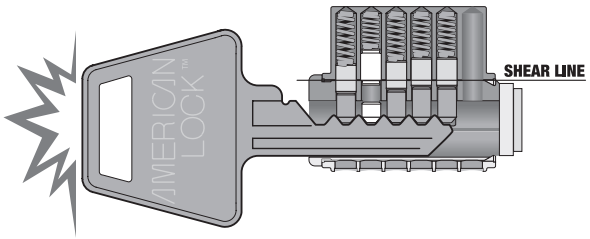
Advanced Cylinder Technology

Reverse Rake Tapered Driver Pin

High Performance Spring



Precision Cylinder Chamber



Lock Bumping –

Lock Bumping has become a legitimate security threat as information on the topic has become widely exposed in the news media and on the internet.

In response to this threat, The Master Lock Company developed exclusive patent-pending BumpStop® Advanced Technology that prevents the transfer of force from the bump key to the pins and blocks rotation of the cylinder. With a reverse rake tapered driver pin, high performance spring and precision tolerance chamber, our 4, 5 and 6-pin BumpStop® products resist bump attacks.

BumpStop® is available in a full range of American Lock padlocks and security products today!
Model Number Option: N

Solid Steel Padlocks – Maximum Outdoor Security

Rekeyable Hidden Shackle Padlocks

- Greatest physical security – defy bolt cutters and prying
- Rekeyable – replaceable cylinder and shackle
- 6-pin tumbler cylinders provide superior pick resistance with tens of thousands of key changes
- Hardened solid steel lockbody withstands forcible attacks
- Fasten hidden shackle padlock (A2010) to high security hasps (A801 & A802) for maximum security and convenience – A801LHC & A802LHC
- No. A802LHC can be used for overlapping doors

A2010

No. A800LHC

No. A801LHC

No. A802LHC

Solid Steel Padlocks

- Case hardened, chrome plated, solid steel bodies resist cutting, sawing and corrosion
- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- 5 & 6-pin cylinders are pick resistant with tens of thousands of key changes
  - Serrated pins are virtually impossible to pick
- Rekeyable – replaceable cylinder and shackle
- Shrouded shackles defy cutting and sawing – A5360 & A5300 Series
- Pick resistant, rekeyable 7 pin tubular cylinder provides over 50,000 key changes and meets NAMA standards – A7300, A7260 & A7200 Series
- Debris resistant, rekeyable cylinder performs extremely well in external applications – AH10 Series
- Non-rekeyable solid steel padlocks where padlock service is not necessary – A50 Series
- Fits Knaack® and Watchman® IV job boxes, stainless steel cylinder pins for increased drill resistance – A50HS

Nos. A5360 & A5300

No. A700

No. A7300

No. AH10

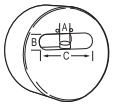
Rekeyable Padlocks — Hidden Shackle Products

Example	A2010KA

A2010



Base Model	Description
A2010	2-7/8in (72mm) wide, Case Hardened, Chrome Plated, Solid Steel body, Boron Shackle, A = 3/8in (10mm), B = 19/32in (15mm), C = 1-23/32in (43mm), 6-pin APT2001 cylinder - Shelf Pack = NA, Master Carton = 12
A802LHC	High Security Hasp for overlapping doors (A802) fastened to Solid Steel lock body (A2010), Boron Shackle, A = 3/8in (10mm), B = 19/32in (15mm), C = 1-23/32in (43mm) - Shelf Pack = NA, Master Carton = 6
A801LHC	High Security Hasp (A801) fastened to Solid Steel lock body (A2010), Boron Shackle, A = 3/8in (10mm), B = 19/32in (15mm), C = 1-23/32in (43mm) - Shelf Pack = NA, Master Carton = 6
A800LHC	High Security Hasp (A800) and Solid Steel lock body (A2010), Boron Shackle, A = 3/8in (10mm), B = 19/32in (15mm), C = 1-23/32in (43mm) - Shelf Pack = NA, Master Carton = 6

BumpStop® Cylinder Technology	
N	Anti-Bump Cylinder Technology *(Not available with WO Option or UN & KZ Option)*

Keying	**Standard:** Keyed Different
UN	Uncombinated (Zero bitted cylinder & no keys) - *Available with WP6 & WP4 options only*
KZ	Zero-Bitted *(Not Available with WP option)*
KA	Keyed Alike
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed

Cylinder	**Standard:** 6-pin APTC2001 cylinder
5PN	5-pin APTC12 cylinder
W6000	5-pin Master Lock W6000 cylinder
W7000	6-pin Master Lock W7000 cylinder
WP4	Edge® Key Control 4-pin cylinder. Standard: Nickel Silver Keys
WP6	Edge® Key Control 6-pin cylinder. Standard: Nickel Silver Keys

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.
★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Rekeyable Padlocks — Solid Steel

Example	A700 KA NR

Base Model	Description
2-1/2in (64mm) wide x 1-1/8in (28mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 7/16in (11mm), C = 15/16in (24mm), 5-pin APTC12 cylinder	
A700	B = 1-1/16in (27mm)
A701	B = 2in (51mm)
2-1/2in (64mm) wide x 1-1/8in (28mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 7/16in (11mm), C = 15/16in (24mm), 6-pin APTC14 cylinder	
A706	B = 1-1/16in (27mm)
A707	B = 2in (51mm)
2-1/2in (64mm) wide x 1-1/8in (28mm) Thick, Case Hardened, Zinc Plated, Solid Steel Padlock with Boron Shackle, A = 7/16in (11mm), C = 15/16in (24mm), 5-pin APTC12 cylinder	
A702	B = 1-1/16in (27mm)
A703	B = 2in (51mm)

BumpStop® Cylinder Technology	
N	Anti-Bump Cylinder Technology *(Not available with WO Option or UN & KZ Option)*

Keying	**Standard:** Keyed Different
UN	Uncombinated (Zero bitted cylinder & no keys) - *Available with WP6 & WP4 Options* Only
KZ	Zero-Bitted
KA	Keyed Alike
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed

Function	**Standard:** Non-Key Retaining
NR	Non-Removable Key

Cylinder	
WO	Lock without cylinder *(A700, A701, A702 & A703 Option Only)*
6PN	6-pin APTC14 cylinder *(A702 & A703 Option Only)*
WP4	Edge® Key Control 4-pin cylinder. Standard: Nickel Silver Keys *(A700, A701, A702 & A703 Option Only)*
WP6	Edge® Key Control 6-pin cylinder. Standard: Nickel Silver Keys *(A700, A701, A702 & A703 Option Only)*

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.
★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Rekeyable Padlocks — Shrouded Solid Steel

Example	A6360 KA WP6

Base Model	Description
A5360	2in (51mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 3/8in (10mm), B = 1-1/8in (28mm), C = 3/4in (19mm), 5-pin APTC12 cylinder
A6360	2in (51mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 3/8in (10mm), B = 1-1/8in (28mm), C = 3/4in (19mm), 6-pin APTC14 cylinder
A5300	1-3/4in (44mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 5/16in (8mm), B = 1-1/8in (28mm), C = 3/4in (19mm), 5-pin APTC12 cylinder
A6300	1-3/4in (44mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 5/16in (8mm), B = 1-1/8in (28mm), C = 3/4in (19mm), 6-pin APTC14 cylinder

BumpStop® Cylinder Technology	
N	Anti-Bump Cylinder Technology *(Not available with WO Option or UN & KZ Option)*

Keying	**Standard:** Keyed Different
UN	Uncombinated (Zero bitted cylinder & no keys) - *Available with WP6 & WP4 options only*
KZ	Zero-Bitted *(Not Available with WP option)*
KA	Keyed Alike
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed

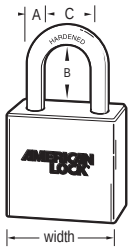
Function	**Standard:** Non-Key Retaining
NR	Non-Removable Key

Cylinder	
WO	Lock without cylinder *(A5000 series Option Only)*
WP4	Edge® Key Control 4-pin cylinder. Standard: Nickel Silver Keys *(A5360 or A5300 Option Only)*
WP6	Edge® Key Control 6-pin cylinder. Standard: Nickel Silver Keys *(A5360 or A5300 Option Only)*

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.
★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Rekeyable Padlocks — Solid Steel

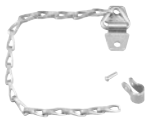


Example	A5202 KA 1KEY

Base Model	Description
2in (51mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 3/8in (10mm), C = 3/4in (19mm), 5-pin APTC12 cylinder	
A5260	B = 1-1/8in (28mm)
A5261	B = 2in (51mm)
A5262	B = 3in (75mm)
2in (51mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 3/8in (10mm), C = 3/4in (19mm), 6-pin APTC14 cylinder	
A6260	B = 1-1/8in (28mm)
A6261	B = 2in (51mm)
1-3/4in (44mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 5/16in (8mm), C = 3/4in (19mm), 5-pin APTC12 cylinder	
A5200	B = 1-1/8in (28mm)
A5201	B = 2in (51mm)
A5202	B = 3in (75mm)
1-3/4in (44mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 5/16in (8mm), C = 3/4in (19mm), 6-pin APTC14 cylinder	
A6200	B = 1-1/8in (28mm)
A6201	B = 2in (51mm)
A6202	B = 3in (75mm)
1-1/2in (38mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 1/4in (6mm), C = 3/4in (19mm), 5-pin APTC12 cylinder	
A5100	B = 1in (25mm)
A5101	B = 1-1/2in (38mm)
A5102	B = 3in (75mm)
1-1/2in (38mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, 6-pin APTC14 cylinder	
A6100	B = 1in (25mm)
A6101	B = 1-1/2in (38mm)
A6102	B = 3in (75mm)

BumpStop® Cylinder Technology	
N	Anti-Bump Cylinder Technology *(Not available with WO Option or UN & KZ Option)*

Keying	**Standard:** Keyed Different
UN	Uncombinated (Zero bitted cylinder & no keys) - *Available with WP6 & WP4 Options* Only
KZ	Zero-Bitted
KA	Keyed Alike
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed



Chain	
CN	#40 Sash Chain, 9in (229mm) Long, Zinc Plated

Function	**Standard: Non-Key Retaining**
NR	Non-Removable Key

Cylinder	
WO	Lock without cylinder *(A5000 Series Option Only)*
WP4	Edge® Key Control 4-pin cylinder. Standard: Nickel Silver Keys *(A5000 series Option Only)*
WP6	Edge® Key Control 6-pin cylinder. Standard: Nickel Silver Keys *(A5000 series Option Only)*

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock

NOKEY	0 keys per lock

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.
★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Non-Rekeyable Padlocks — Solid Steel

Example	A50 KA CN NR 1KEY

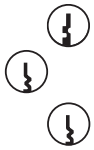
Base Model	Description
2in (51mm) Wide x 7/8in (22mm) Thick, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 3/8in (10mm), C = 3/4in (19mm), 5-pin APTC12 cylinder, Zinc Plated Boron Shackle	
A50HS	Stainless Steel pins, B = 1-1/8in (28mm) - Fits Knaack & Watchman IV job boxes
A50	B = 1-1/8in (28mm)

BumpStop® Cylinder Technology	
N	Anti-Bump Cylinder Technology *(Not available with WO Option or UN & KZ Option)*

Keying	**Standard:** Keyed Different
KA	Keyed Alike
MK	Keyed Different; Master Keyed
KAMK	Keyed Alike; Master Keyed

Chain	**Standard:** Keyed Different
CN	#40 Sash Chain, 9in (229mm) Long, Zinc Plated

Function	**Standard:** Non-Key Retaining
NR	Non-Removable Key



Cylinder	**Standard:** 5-pin APTC12 cylinder
6PN	6-pin APTC14 cylinder
WP4	Edge® Key Control 4-pin cylinder. Standard: Nickel Silver Keys *(A50SS & A50 Option Only)*
WP6	Edge® Key Control 6-pin cylinder. Standard: Nickel Silver Keys *(A50SS & A50 Option Only)*

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.
★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Rekeyable Padlocks — Solid Steel — Tubular Cylinder

Example	A7300 KA

Base Model	Description
2-1/4in (57mm) Wide x 7/8in (22mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 7/16in (11mm), C = 15/16in (24mm), 7-pin AHTC2 cylinder	
A7300	B = 1-1/8in (28mm)
2in (51mm) Wide x 7/8in (22mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 3/8in (10mm), C = 3/4in (19mm), 7-pin AHTC2 cylinder	
A7260	B = 1-1/8in (28mm)
A7261	B = 2in (51mm)
A7262	B = 3in (75mm)
1-3/4in (44mm) Wide x 7/8in (22mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 5/16in (8mm), C = 3/4in (19mm), 7-pin AHTC2 cylinder	
A7200	B = 1-1/8in (28mm)
A7201	B = 2in (51mm)
A7202	B = 3in (75mm)

Keying	**Standard:** Keyed Different
KA	Keyed Alike

Chain	
CN	#40 Sash Chain, 9in (229mm) Long, Zinc Plated *(A7260 or A7200 Series Option Only)*

Function	**Standard:** Non-Key Retaining
NR	Non-Removable Key

Cylinder	
WO	Lock without cylinder

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.
★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Non-Rekeyable Padlocks — Solid Steel

Example	AH10 KA

Base Model	Description
2in (51mm) Wide x 1in (25mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Nickel Plated Boron Shackle, A = 7/16in (11mm), C = 3/4in (19mm)	
AH10	Plated body, B = 1-1/16in (27mm)
AH11	Plated body, B = 2in (51mm)

Keying	**Standard:** Keyed Different
KA	Keyed Alike

Function	**Standard:** Non-Key Retaining
NR	Non-Removable Key

Cylinder	**Standard:** 10 Blade ABTC1 cylinder
WO	Lock without cylinder

Number of Keys	**Standard:** 2 keys per lock
1KEY	1 key per lock
3KEY	3 keys per lock
4KEY	4 keys per lock
NOKEY	0 keys per lock

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.
★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Solid Stainless Steel Padlocks – Highest Corrosion Resistance with Strong Security

Solid Stainless Steel Padlocks

- Offers strong security and the highest resistance to harsh weather and caustic or salty conditions
- Exceeds ASTM Grade 6 requirements for padlock corrosion resistance, with stainless steel body, shackle, ball bearings, springs and trap door, and brass cylinder and actuator
- Offering the custom make-to-order options you've come to expect from American Lock, stainless steel padlocks come in 1-3/4in and 2in widths, with a choice of 1-1/8in or 2in shackle heights
- Stainless steel shackles with dual ball locking offer strong resistance to cutting, sawing and prying; serrated cylinder pins resist picking
- Designed to secure equipment and buildings in outdoor or corrosive environments, such as heavy-duty industrial or marine equipment and factories, and outdoor structures such as sheds, gates or other buildings
- Rekeyable, making them easy to service, with replaceable 5- and 6-pin cylinders that provide tens of thousands of key changes
- Optional upgrades include BumpStop® Advanced Cylinder Technology and Edge® Key Control
- Laser engrave company logo, employee name or key number

Solid Brass Padlocks – Maximum Outdoor Security

Solid Brass Padlocks

- Solid brass bodies resist corrosion – ideal for harsh environments
- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- 5 & 6-pin cylinders are pick resistant with tens of thousands of key changes
  - Serrated pins are virtually impossible to pick
- Rekeyable – replaceable cylinder and shackle
- Debris resistant cylinder performs extremely well in external applications – AL50 Series
- Non-rekeyable solid brass padlocks where padlock service is not necessary – No. A20 & A40 Series

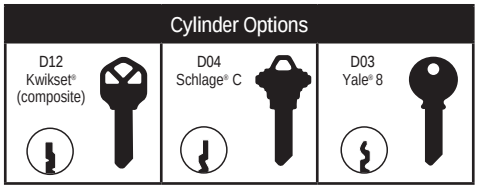
Door Key Compatible Cylinders and Padlocks

Same Key Can Open All Locks

- Use the same key that opens your security doors – Improve key control • Security • Convenience • Safety
- Cylinders may be ordered both as part of a complete American Lock® Door Key Compatible padlock assembly, or separately, keyed up and ready to plug into your system
- Padlock bodies will also accept the following OEM cylinders: Medeco® #20W20000 6-pin cylinder, Schlage® (6-pin Key-in-Knob), Assa® (65611), Schlage® Primus® & GMS® cylinders



Door Key Compatible Padlocks

- Hardened boron alloy shackles for superior cut resistance defy bolt cutters and prying
- Dual ball bearing locking mechanism resists pulling and prying
- Rekeyable – replaceable cylinder and shackle

Solid Steel Padlocks

- Case hardened, chrome plated, solid steel bodies resist cutting, sawing and corrosion

No. A3800

Solid Brass Padlocks

- Solid brass bodies resist corrosion – ideal for harsh environments

No. A3650

No. A3701

Medeco®, Schlage®, Assa®, Schlage® Primus®, GMS®, Kwikset®, Yale® are registered trademarks of their respective owners.

Multi-Cylinder/Door Key Compatible Padlocks — Brass

NEW

Example	A3650 WO
	A3650 WO NDR
	A3650 D04 5 KA
	A3652 5PN

Base Model	Description
	1-3/4in (44mm) Wide x 3/4in (19mm) Thick, Solid Brass Padlock with Boron Shackle, A = 5/16in (8mm), C = 15/16in (24mm)
A3650	Boron, B = 1-1/8in (28mm)
A3651	Boron, B = 2in (51mm)
A3652	Boron, B = 3in (75mm)
A3655	Boron, B = 5in (127mm)

Chain	
CN	#40 Sash Chain, 9in (229mm) Long, Zinc Plated
SBC	#4 Double Loop Chain, 9in (229mm) Long, Solid Brass

Function	**Standard:** Non-Key Retaining
NR	Non-Removable Key

Cylinder	REQUIRED CHOICE				
WO	Lock without cylinder	**6PN**	American Lock 6-pin APTC14	**W2K**	Master Lock 4-pin W2K
D12	Kwikset® (composite)*	**W6000**	Master Lock 5-pin W6000	**W27**	Master Lock 5-pin W27

Interchangeable Cores & Padlocks

- Padlock bodies will also accept the following standard size OEM cores: Best®, Best® PKS®, Arrow®, Falcon®, Kaba® Peaks®, KSP® & Lori®
- Cores may be ordered both as part of a complete American Lock IC padlock assembly, or separately, keyed up and ready to plug into your system

Interchangeable core keyways including Best® and Standard.

Interchangeable Core Padlocks

- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- Rekeyable – replaceable cylinder and shackle

SMALL FORMAT INTERCHANGEABLE CORE PADLOCKS

Solid Steel Padlocks

- Case hardened, chrome plated, solid steel bodies resist cutting, sawing and corrosion

No. A3200

Solid Brass Padlocks

- Solid brass bodies resist corrosion – ideal for harsh environments

No. A3560

Solid Aluminum Padlocks

- Corrosion resistant solid aluminum – ideal for harsh environments
  - Lightweight and spark resistant
- Variety of anodized finishes for easy identification

No. A3105RED

LARGE FORMAT INTERCHANGEABLE CORE PADLOCKS (Cores not available)

Solid Steel Padlocks

- Case hardened, chrome plated, solid steel bodies resist cutting, sawing and corrosion
- Accepts Schlage®, Everest® and Primus® Cores – A3900S Series

No. A3900S

Solid Aluminum Padlocks

- Corrosion resistant solid aluminum – ideal for harsh environments
  - Lightweight and spark resistant
- Variety of anodized finishes for easy identification
- Accepts Yale® 1220 core – No. A1405 Series

No. A1405RED

Best®, Arrow®, PKS®, Falcon® Kaba®, Peaks®, KSP®, Lori®, Schlage®, Everest®, Primus® and Yale® are registered trademarks of their respective owners.

Small Format Interchangeable Cores & Padlocks — Solid Steel

Example	A3261 CY 7 04 KA
	CY 7 26D
	A3200 WO

Base Model	Description
2in (51mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 3/8in (8mm), C = 3/4in (19mm)	
A3260	Boron, B = 1-1/8in (28mm)
A3261	Boron, B = 2in (51mm)
A3262	Boron, B = 3in (75mm)
1-3/4in (44mm) Wide x 3/4in (19mm) Thick, Case Hardened, Chrome Plated, Solid Steel Padlock with Boron Shackle, A = 5/16in (8mm), C = 3/4in (19mm)	
A3200	Boron, B = 1-1/8in (28mm)
A3201	Boron, B = 2in (51mm)
A3202	Boron, B = 3in (75mm)

Note: Control Keys Sold Separately

Chain	
CN	#40 Sash Chain, 9in (23cm) Long, Zinc Plated

Function	**Standard:** Non-Key Retaining
NR	Non-Removable Key

Government Locks

American Lock® has been known as The Locksmith's Lock with a padlock line offering unsurpassed quality and superior product performance. With over 90 years of precision machining and quality manufacturing, American Lock products exceed commercial industry standards in securing high-value property, withstanding extensive use and harsh environments, and defeating attempts to breach security at any level.

Protecting assets at facilities throughout the world, American Lock has delivered pride and workmanship through products such as our EDGE® key control product, and of course padlocks made to exact Government CIDs and PIDs. American Lock products are warrantied for life and continue to offer quality, value and technical innovation.

For over 60 years, American Lock has provided security solutions to every segment of the U.S Government and military defense agencies. With our unmatched line of security products, American Lock has over 60 NSNs assigned to our product line to meet the most urgent of applications.

- Where required, American Lock products are designed to stringent government standards, CID-A-A-59486, CID-A-A-56487 and ASTM F883
- BumpStop® Advanced Cylinder Technology option provides excellent protection against bump attacks
- Make-to-order capability – security products built and keyed to your requirements: shackle options, keying flexibility, laser engraving, key control and custom sets available
- 5-pin tumbler cylinder for added security
- More than 10,000 key changes available for maximum pick resistance
- Dual locking for superior pry resistance
- Most models are stamped "US"; sets are stamped "US SET"
- Non-removable keys available for added security

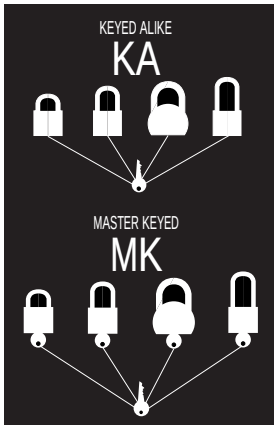
Services

The services below are all available at an additional charge.
Please contact your American Lock representative for a quote.



PADLOCK KEYING OPTIONS

- Keyed Different (KD) - Each padlock has its own unique key. All products are made keyed different unless requested otherwise.
- Keyed Alike (KA) - Keyed alike is a term used to describe a set of padlocks which can be opened with the same key. Keyed alike offers convenience to customers who use numerous padlocks by eliminating multiple keys. Many domestically produced products are available keyed alike. (Padlocks and cylinders can also be keyed-alike in sets or groups.)
- Master Key (MK) - In a master key system, one key operates all the master keyed padlocks or cylinders in one or more groups.
- Rekeyable - Rekeying is the process of removing a padlock's cylinder and either rearranging the cylinder pins to different locations in the cylinder chamber or completely replacing the pins. Finished replacement cylinders are available from American Lock for a quick and easy rekeying process. The advantage of a padlock with a rekeyable cylinder is that when there is employee turnover or when a key is lost or stolen, the padlocks can be easily serviced rather than replaced. Many American Lock padlocks are available with this feature.
- Restricted (R) - American Lock offers restricted key systems with factory controlled keyways. This feature offers added security by restricting unauthorized key duplication.
- Edge® Key Control (WP) - American Lock offers patent-pending Edge® Key Control. The manufacturer is the only producer of key blanks. Key blanks and cut keys are strictly controlled by the manufacturer. (Patented cylinder and keys are protected by law from unauthorized duplication.)
- Master W1, W15, W17, W27, W81 - Cylinders which are keyable to Master Lock® padlocks.
- Non-Removable Key (NR) - The key cannot be removed from the padlock when the padlock is open. This helps prevent users from accidentally leaving the padlock in the open position. Only selected padlocks offer this option.

KEY CHARTING

- Customers can benefit fully from the large American Lock change key ranges by having us chart your keying system for you. We will keep a complete record of the progressive key codes assigned and manufactured into your padlocks for each order. You will be assured that there is no unwanted key duplication with the padlocks you purchase over time. Be sure to request this special service with your next order so that all locks purchased from that point forward will be manufactured to comply with your key system requirements. Any orders placed by an end user or distributor should note that they are on a key charting system, or reference their End User I.D. Number.

STAINLESS STEEL PINS (SP)

- Stainless Steel pins can be recommended if a customer has an application that requires more drill resistant security such as a remote job site or high theft areas.
- Minimum order requirements: 500 pieces
- Lead time: 4-6 weeks

CHAIN AND TAG ATTACHMENTS

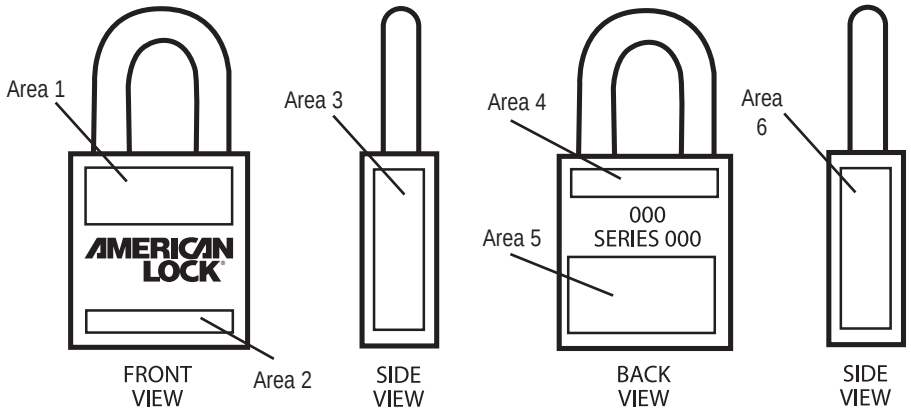
- Small chains may be attached to padlock shackles in order to affix padlocks to truck doors, gates, equipment, or other applications.
- Brass tags may be affixed to padlocks for identification purposes. These items are available separately. or can be attached at the factory.
- See page 55

SPECIAL POWDER COAT FINISHES

- American Lock Company can provide custom powder coated finishes in a variety of colors. The powder coat is a tough e-coat finish that is chip resistant.
- Minimum order requirements are 2500 pieces.
- Lead time ranges and costs will vary with the type of finish required, approximately 12-16 weeks for the first order.

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.
★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Custom Marking



LASER ENGRAVING

- Laser Engraving (LZ*N*, N=1-6) allows for easy identification of padlocks that is a permanent mark on the padlock that cannot be removed. Some applications are:
  - Safety Lock-out
  - Employee locker identification
  - Company logos for brand identification
- Six areas on an American Lock solid body aluminum and brass can be engraved for easy padlock identification.
- Numbers, letters, company logos, or alphanumeric characters can be added to a padlock.
- Logo engraving available in Area 1 & 5 only.
- There are a variety of type styles and sizes for text to choose from, or a customer can send a copy of their company logo and American Lock can permanently engrave it on a padlock.
- Not recommended for clear locks.
- Contact American Lock for order forms.

PAD PRINTING

- Custom pad printing is a great way for customers to personalize padlocks with an inexpensive, four color process. Candidates for this service are
  - Schools
  - Large institutions and manufacturing plants
  - Companies that want to increase brand awareness
- Companies can print logos, numbers, letters, or alphanumeric characters using a plastic resin paint that is fade and scratch resistant for five years.
- A logo can be made in up to four colors for easy identification with detail that can create magazine quality images.
- This process can be applied to any solid body padlock. Minimum order quantities are 1,000 pieces.
- Delivery of first order can take up to eight weeks.
- Contact American Lock for order forms and pricing.

OTHER

- **Custom Logo Stamping**
  - Companies can request custom logo stamping from American Lock.
  - For orders over 500 pieces, American Lock offers customer logo stamping on the padlock.
  - Costs vary for this type of service depending on the detail of the logo and padlock body.
  - Lead time: 10 - 12 weeks.
- **Other Stamping Options**

Key Stamping: Alpha numeric characters (HSK)*
I.D. Tag Tag Stamping: Alpha numeric characters (HST)
Interchangeable Core Stamping Concealed Side of Cylinder (CKC)

***Note:** Key Stamping: (HSK) Alpha numeric characters (Priced PER KEY)

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.

Rekeying Parts *(continued)*

Product Number	Description	Units/Package
Ball Bearings		
APKG1806010	Stainless Steel, 1/4in (6mm) Diameter, For Nos. A1105, A1205, A1305, A3600, A3700, A3260, A3200, A3560, A3570, A5100, A5200, A5260, A5300, A5360, A5530, A5560, A5570, A7200, A7260 & A7260 series locks	12/Pkg
APKG1807020	Stainless Steel, 5/16in (11mm) Diameter, For A780, A784 & A7300 series locks	12/Pkg
APKG0220-1007	Stainless Steel, 5/16in (8mm) Diameter, For A3650 Series locks	12/Pkg
APKG1809010	Stainless Steel, 3/8in (10mm) Diameter, For 790 series locks	12/Pkg
Actuators & Actuator Parts		
Actuators		
APKG1188270	Actuator, For Nos. A1000, A3100, A3200, A3500, A5000, A7200 & A7260 series locks	6/Pkg
APKG1188280	Actuator, For No. A3600 & A3700 series locks	6/Pkg
APKG1188290	Actuator, For No. A3800 series locks	6/Pkg
APKG1188010	Actuator, For No. AH10 series locks	6/Pkg
APKG1188030	Actuator, For No. AL50 series locks	6/Pkg
APKG2029010	Actuator, For No. A700 series locks	6/Pkg
APKG2084100	Actuator, For No. A7300 series locks	6/Pkg
APKG2083070	Actuator, Deadlock, For No. AL50 series locks	6/Pkg
APKG2081160	Actuator, Deadlock, For No. A1405 series locks	6/Pkg
APKGP32950	Actuator, For A3650 Series locks	12/Pkg
A36DLRET	Actuator, Deadlock, For Nos. A3600, A3700 & A3900 series locks	6/Pkg
A38DLRET	Actuator, Deadlock, For No. A3800 series locks	6/Pkg
APKG2084090	Actuator, Deadlock, For No. A700 series locks	6/Pkg
APKG2081250	Actuator, For Nos. A2000, A2001 & A2010 locks	6/Pkg
APKG2083060	Actuator, Deadlock For No. AH10 series locks	6/Pkg
Actuators for Edge® Key Control Cylinders		
APKG0001669	Actuator, For Nos. A1000, A5000 & A6000 series locks with Edge® key control cylinders	6/Pkg
APKG0001670	Actuator, Deadlocking, For Nos. A1000, A5000 & A6000 series locks with Edge® key control cylinders	6/Pkg
APKG0001666	Actuator, For No. A700 series locks with Edge® key control cylinders	6/Pkg
Actuator Parts		
APKG2205010	Washer, Retainer, For A700 series locks	10/Pkg
APKG2280010	Washer, Retainer, For AH10 series locks	10/Pkg
APKG2036010	Collar Only, For A3600, A3700 & A3800 series locks	10/Pkg
APKGP32947	Key-Retaining Converter, For A3650 Series locks	24/Pkg
APKGP32949	Actuator Coil Spring, For A3650 Series locks	24/Pkg
APKGP32946	Actuator Stop Plate, For A3650 Series locks	24/Pkg
Cover Plates		
APKG4680200	Cover Plate, For No. A700 series with standard, 748, R1 & R2 keyways	10/Pkg
APKG4680230	Cover Plate, Special, For No. A700 series with 1K, R7, R8 & Edge® keyways	10/Pkg
APKG4680210	Cover Plate, For Nos. A1000, A5000 & A6000 series with standard, R1 & R2 keyways	10/Pkg
APKG4680220	Cover Plate, Special, For A1000, A5000 & A6000 series with R7, R8 & Edge® keyways	10/Pkg
APKG0110026	Cover Plate, Stainless Steel, For A1000, A5000 & A6000 series with standard, R1 & R2 keyways	10/Pkg
APKG0P10774	Cover Plate, Stainless Steel, For A1000, A5000, & A6000 series with R7, R8 & Edge keyways	10/Pkg

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.

Rekeying Parts *(continued)*

Product Number	Description	Units/Package
Screws and Nuts		
APKG4762010	Screw, Cylinder Adapter Housing, For A3600 & A3700 series locks	10/Pkg
APKG4764010	Screw, Cylinder Adapter Housing, For A3800 series locks	10/Pkg
APKG4752010	Screw Retainer, For AH10 series locks	25/Pkg
APKG4765010	Screw, Shackle Retention, For A700, A748, A780 &A790 series locks	10/Pkg
APKG0000220	Screw, Cylinder Retention, For New Style A2000 & A2010 series locks	10/Pkg
APKG4746010	Nut, Security	25/Pkg
APKG4761010	Screw, Security	25/Pkg
APKG0110027	Nut, Stainless Steel, Security	25/Pkg
APKG0110028	Nut, Stainless Steel, Screw	25/Pkg
APKGP32935	Screw, Cylinder Housing, For A3650 Series locks	24/Pkg

Shackles, Retention Pins & Shackle Springs

Product Number	Description	Units/Package
Shackles		
1/4in (6mm) Diameter		
APKG1582980	Boron, Chrome Plated, 1/4in (6mm) Diameter, 1in (25mm) vertical clearance	6/Pkg
APKG1583180	Boron, Chrome Plated, 1/4in (6mm) Diameter, 1-1/2in (38mm) vertical clearance	6/Pkg
APKG1583210	Boron, Chrome Plated, 1/4in (6mm) Diameter, 3in (75mm) vertical clearance	6/Pkg
5/16in (8mm) Diameter		
APKG1582240	Boron, Chrome Plated, 5/16in (8mm) Diameter, 1-1/8in (28mm) vertical clearance	6/Pkg
APKG1582290	Boron, Chrome Plated, 5/16in (8mm) Diameter, 2in (51mm) vertical clearance	6/Pkg
APKG1582310	Boron, Chrome Plated, 5/16in (8mm) Diameter, 3in (75mm) vertical clearance	6/Pkg
APKGP32859	Boron, Chrome Plated, 5/16in (8mm) Diameter, 1-1/8in (28mm) vertical clearance, For A3650 Series	6/Pkg
APKGP32913	Boron, Chrome Plated, 5/16in (8mm) Diameter, 2in (51mm) vertical clearance, For A3650 Series	6/Pkg
APKGP32914	Boron, Chrome Plated, 5/16in (8mm) Diameter, 3in (75mm) vertical clearance, For A3650 Series	6/Pkg
APKGP32917	Boron, Chrome Plated, 5/16in (8mm) Diameter, 5in (127mm) vertical clearance, For A3650 Series	6/Pkg
For 3/8in (10mm) Diameter		
APKG1581550	Boron, Chrome Plated, 3/8in (10mm) Diameter, 1-1/8in (28mm) vertical clearance	6/Pkg
APKG1581570	Boron, Chrome Plated, 3/8in (10mm) Diameter, 2in (51mm) vertical clearance	6/Pkg
APKG1581590	Boron, Chrome Plated, 3/8in (10mm) Diameter, 3in (75mm) vertical clearance	6/Pkg
7/16in (11mm) Diameter for No. A700 Series		
APKG1582940	Boron, Chrome Plated, 7/16in (11mm) Diameter, For No. A700 locks, 1-1/16in (27mm) vertical clearance	3/Pkg
APKG1582960	Boron, Chrome Plated, 7/16in (11mm) Diameter, For No. A701 locks, 2in (51mm) vertical clearance	3/Pkg
Shackle Springs		
APKG1601010	Spring, Shackle, 7/16in (11mm) Diameter, For AH10	25/Pkg
APKG1606010	Spring, Shackle, 5/16in (8mm) Diameter, For A1205, A1405, A3200, A3560, A3600, A3650, A5200, A5300, A5560, A7200 & AL50 series locks	25/Pkg
APKG1611010	Spring, Shackle, 3/8in (10mm) Diameter, For A1305, A3260, A3700, A3900, A5260, A5570, & A7260 series locks	25/Pkg
APKG1612010	Spring, Shackle, 7/16in (11mm) Diameter, For A700, A748, A3800 & A7300 series locks	25/Pkg
APKG1613010	Spring, Shackle, 1/4in (6mm) Diameter, For A1105, A3105, A5100 & A5530 series locks	25/Pkg
APKG1601010	Spring, Shackle, 7/16in (11mm) Diameter, For AH10, A3650 Series locks	25/Pkg

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.
★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Tubular Padlock, Cam & Cylinder Lock Parts

Product Number	Description	Units/Package
Tubular Bottom Pins For Nos. A7000 & A8000 Series Tubular Cylinders		
APKG3666010	Tubular Pin, Bottom #1	100/Pkg
APKG3666020	Tubular Pin, Bottom #2	100/Pkg
APKG3666030	Tubular Pin, Bottom #3	100/Pkg
APKG3666040	Tubular Pin, Bottom #4	100/Pkg
APKG3666050	Tubular Pin, Bottom #5	100/Pkg
Tubular Top Pins For Nos. A7000 & A8000 Series Tubular Cylinders		
APKG3667010	Tubular Pin, Top #1	100/Pkg
APKG3667020	Tubular Pin, Top #2	100/Pkg
APKG3667030	Tubular Pin, Top #3	100/Pkg
APKG3667040	Tubular Pin, Top #4	100/Pkg
APKG3667050	Tubular Pin, Top #5	100/Pkg
APKG3667060	Tubular Pin, Top #6	100/Pkg
APKG3667070	Tubular Pin, Top #7	100/Pkg
Spindle Assembly		
APKG1256210	Assembly, Spindle, Cylinder, For Nos. A7200, A7260 & A7300 series locks	3/Pkg
APKG1288330	Assembly, Spindle, For No. A8068 series cams	10/Pkg
APKG1288340	Assembly, Spindle, For No. A8078 series cams	10/Pkg
APKG1288190	Assembly, Spindle, For No. A8118 series cams	10/Pkg
APKG1288350	Assembly, Spindle, For No. A8148 series cams	10/Pkg
APKG1256200	Assembly, Spindle, For No. A8300 series cams	10/Pkg
Retention Pin		
APKG1256170	Pin, Retention, For No. A8300 series cams	100/Pkg
APKG3082200	Pin, Retention, For No. A7000 series tubular cylinders	100/Pkg
APKG1255010	Pin, Retention, For No. A8000 series cams	100/Pkg
APKG1288180	Pin, Retention, For No. A8000 series cams	100/Pkg
APKG3680140	Pin, Retention, For No. A8000 series cams	100/Pkg
Cylinder Shell		
APKG1288160	Cylinder Shell, For No. A8078 series cams	10/Pkg
APKG1288130	Cylinder Shell, For No. A8118 series cams	10/Pkg
APKG1288150	Cylinder Shell, For No. A8148 series cams	10/Pkg
APKG1256110	Cylinder Shell, For No. A8300 series cams	10/Pkg
Stop Spacer		
APKG1227010	Spacer, Stop, For No. A8300 series cams	25/Pkg
APKG1249010	Spacer, Stop, For No. A8068 series cams	25/Pkg
APKG1250010	Spacer, Stop, For No. A8078 series cams	25/Pkg
APKG1229010	Spacer, Stop, For No. A8118 series cams	25/Pkg
APKG1231010	Spacer, Stop, For No. A8148 series cams	25/Pkg
APKG1228010	Spacer, Stop, For No. A7000 series locks	25/Pkg
APKG1229010	Spacer, Stop, For No. A8100 series locks	25/Pkg
Washers For A800 Series Cams		
APKG1288080	Washer, Filler	25/Pkg
APKG1288070	Washer, Spacer	25/Pkg
APKG1288090	Washer, Spur	25/Pkg
APKG1232010	Lock Washer	25/Pkg
Miscellaneous Parts		
APKGPC1	Cover, Cam Lock, For No. A8000 series cams	10/Pkg
APKG1223010	Cam, Tubular Cylinder, For A7200, A7260 & A7300 series	3/Pkg
APKG1256010	Spring, Cylinder, For No. A7000 & A8000 series locks	100/Pkg
APKG1288110	Stop Plate, 180 Deg., For No. A8000 series cylinders	100/Pkg
APKG1288120	Stop Plate, 90 Deg., For No. A8000 series cylinders	100/Pkg
APKG1233010	Nut, Hex. 3/4-24, For No. A8000 series cylinders	100/Pkg
APKG1234010	Nut, Hex. 9/32-28, For No. A8000 series cylinders	100/Pkg
APKG4949200	Driver, For Nos. A7200 & A7300 tubular locks	6/Pkg
APKG4949100	Driver, For No. A8300 series cams	50/Pkg
APKG4949160	Locking Bolt, For No. A8300 series cams	50/Pkg

KEY BLANKS: See pages 43-44 for respective key blanks or cut key information.

★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

Door Key Compatible Parts

Product Number	Description	Units/Package
Key-In-Knob Drivers		
ADRLOR39	Driver, Lori® 1539 Required to accept Lori® 1539 cylinders in American Lock® door key compatible padlocks	6/Pkg
ADRMED6	Driver, Medeco® Required to accept original Medeco® cylinders in American Lock® door key compatible padlocks	6/Pkg
ADRSCH6	Driver, Schlage® Required to accept original Schlage® cylinders in American Lock® door key compatible padlocks	6/Pkg
APKGP32941	Schlage® / Lori® 1599 KIK Cylinder Driver for A3650 series	6/Pkg
APKGP32940	Lori® 1539 KIK Cylinder Driver for A3650 series	6/Pkg
APKGP32945	Medeco® KIK Cylinder Driver for A3650 series	3/Pkg
APKGP56576	A3650WO hardware pack, (1) Key-Retaining Converter, (1) Schlage® / Lori® 1599 KIK Driver, (1) KIK Cylinder Housing, (1) Cylinder Housing Screw	4/Pkg
Padlock Drivers		
APKGP32938	Driver, Abus® 83 Series 2 padlock cylinder, For A3650 Series	3/Pkg
APKGP32939	Driver, American Lock APTC12/14 padlock cylinder, For A3650 Series	3/Pkg
APKGP32942	Driver, Master Lock 294 4-pin padlock cylinder, For A3650 Series	3/Pkg
APKGP32943	Driver, Master Lock 295 5-pin padlock cylinder, For A3650 Series	3/Pkg
APKGP32944	Driver, Master Lock 296 6-pin padlock cylinder, For A3650 Series	3/Pkg
Multi-Cylinders		
APKG0885000	Cylinder, Pin Tumbler, 0-Bit Schlage® Multi-Cylinder	6/Pkg
APKG0885010	Cylinder, Pin Tumbler, 0-Bit Yale® Multi-Cylinder	6/Pkg
APKG0885020	Cylinder, Pin Tumbler, 0-Bit Arrow® Multi-Cylinder	6/Pkg
APKG0885030	Cylinder, Pin Tumbler, 0-Bit Kwikset® Multi-Cylinder	6/Pkg
Small Format Interchangeable Core Components		
APKG0000048	Driver For Nos. SFIC A3100, A3200 & A3500 series locks	6/Pkg

Padlock Chains & Identification Tags

Product Number	Description	Units/Package
Padlock Chains & Identification Tags		
APKGZPC9	#40 Sash Chain, 9in (23cm) Long, Zinc Plated Chain with Mounting Plate	10/Pkg
APKGIDB	Identification Tags	10/Pkg
Clevis and Rivets		
APKG4881010	Clevis and Rivet, Zinc Plated, Fits 1/4in (6mm) diameter shackles and smaller	10/Pkg
APKG4881050	Clevis and Rivet, Zinc Plated, Fits 5/16in (8mm) diameter shackles and smaller	10/Pkg

Combination Tags

Product Number	Description	Units/Package
A7717000	Combination Lock Tags, Blank tags for A400 & A400K locks	10/Pkg

All marks are registered trademarks of their respective owners.

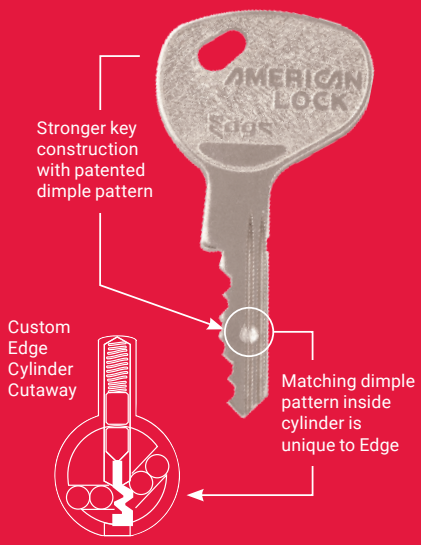
Edge®

How Edge Works



Control and Eliminate Unauthorized Key Duplication

Padlocks are an important, effective and often overlooked cornerstone of security. Edge® Key Control gives you confidence and control over the integrity of your security network.

- Control and eliminate unauthorized key duplication
- Keys available only from Master Lock Company and authorized Edge® partners – copies cannot be made at stores
- Implement a single keying system across all padlock security applications

AMERICAN LOCK®

THE AMERICAN LOCK® ADVANTAGE

THE TRUSTED NAME IN SECURITY

Since 1912, American Lock® has been the brand of choice in security products. Here are the reasons why.

Ingenuity. With more than 100 years of precision machining and quality manufacturing, American Lock products are, quite simply, not only strong but smart. They exceed commercial industry standards and defeat attempts to breach security at any level. In anticipation of any new threats that develop, our lock technology evolves, offering cutting-edge innovations that best serve our customers' needs.

AMERICAN LOCK® 100™ ANNIVERSARY 1912-2012

Industry. The toughest padlocks available, American Lock products serve industry, government and commercial users worldwide. Our locks not only stand up to attack, but can also withstand years of abuse from the harshest environments—ideal for industrial use. The strength and endurance of our premium, hard-working locks is what has earned them the distinction of "The Locksmith's Lock."

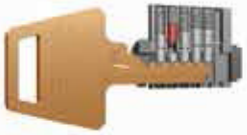
Integrity. American Lock is proud of our record of serving our customers with the greatest integrity and of earning their trust for nearly a century. Throughout the years, we've been entrusted with protecting the most valuable assets of businesses, utilities and municipalities with our high security products. That speaks volumes about the confidence our customers place in us. As our locks endure, so does our customers' trust in American Lock.

The American Lock advantage doesn't stop at just building the toughest and most durable locks in the marketplace. We take security to a new level with the following innovations and services.

BUMPSTOP® ADVANCED CYLINDER TECHNOLOGY

Counter the ever-growing security threat of lock "bumping" with this patented technology. The BumpStop® feature prevents the transfer of force from the bump key to the pins and blocks rotation of the cylinder so that the lock remains locked. A reverse rake tapered driver pin, high performance spring and precision tolerance chamber make these locks four times more resistant to bumping than the toughest proposed anti-bump industry standard.

BUMP STOP® Advanced Cylinder Technology



EDGE® KEY CONTROL SYSTEM

Prevent unauthorized key duplication with this cost effective, patented system. An innovative cylinder design with an additional locking mechanism creates numerous one-of-a-kind "virtual keyways." This means that all operating keys are unique to a facility and new key blanks are only available at authorized dealers. Edge® 1539 cylinders are available for most American Lock padlocks.

Edge® Key Control

WEATHERBUILT™ PADLOCK PROTECTION

Experience the ultimate in padlock protection. Our Weatherbuilt™ locks are built to endure the harshest environments, with enhanced weather, debris, temperature and chemical resistance—as well as convenient keyway covers and corrosion resistant shackle options.

WEATHERBUILT™

CUSTOM ORDERING AND MORE

The American Lock advantage goes beyond product. Our custom order capabilities, keying and shackle options, custom marking, key charting and Lock Express® service allow us to create tailored security solutions to meet each customer's specific needs.

MAKE-TO-ORDER CAPABILITY

We custom build American Lock security products to our customers' specific requirements. Choices include the following.

KEYING OPTIONS

American Lock® offers full keying flexibility. Over 60 padlock, door hardware or small format interchangeable core keyways are available. Choose from:

Keyed Different (KD)—Each padlock has its own key. This is the standard for all products unless requested otherwise

Keyed Alike (KA)—Padlocks can be opened with the same key, offering convenience and eliminating multiple keys for those who use numerous padlocks.

Master Keyed (MK)—In this system, one key can access one or more separate groups of padlocks or cylinders that are each operated by their own change keys. This is ideal for supervisor access.

Plus, American Lock offers key retaining or deadlocking options, which prevent the padlock from being left unlocked, as the keys cannot be removed while the padlock is open. And we also offer restricted keyways—restricted key systems with factory controlled keys that aren't available at a locksmith, so there is less chance of unauthorized key duplication.

SHACKLE OPTIONS

American Lock offers a wide range of shackle options, including shackles in extra lengths, chain attachments and various materials, including hardened boron alloy, brass and stainless steel.

CUSTOM MARKING

These options include laser engraving or hard stamping of company logos or any alphanumeric characters for safety lockout purposes, employee locker identification or company or institutional/ school branding.

KEY CHARTING

This service maintains the series of key numbers for five- or six-pin padlocks. The keys are blind coded and the key numbers are maintained in a chart. Using one of these systems, a user can simply call to order the next key number in the sequence or a replacement key.

The charting system is perfect for those who have a safety lockout application at a medium or large facility, as we can offer 80,000 unique key cuts per plant location—eliminating the chance of duplication, helping to prevent lockout related accidents, and making it easier to maintain OSHA requirements. For more information on key charting, please see the American Lock price book.

LOCK EXPRESS PROGRAM

For those who need their orders quickly, we're ready to deliver the best padlocks in the industry faster than ever before—available to ship in 24 hours. Customers can choose one-day, two-day or ground delivery, and be assured that the order will arrive keyed exactly as specified, in the style and color needed.

LOCK EXPRESS

All these options are just another part of the American Lock advantage. Whatever level of security you need, you can count on American Lock to be your total security solutions provider. It's a name that's delivered for years: American Lock.

SOLID STEEL PADLOCKS

MAXIMUM SECURITY

American Lock® solid steel padlocks offer the highest protection of hardened steel. Our padlocks come in a wide range of widths, with shackle lengths and diameters to fit any application—great for outdoor protection of commercial buildings, industrial plants and perimeters, remote or unattended properties and high risk areas.

- The strongest padlock available—hardened, triple plated steel bodies resist break-in attempts, corrosion, rust and debris while the stainless steel double ball locking mechanism further assures the lock's strength and performance
- Hardened boron alloy shackles offer superior protection against cutting, while serrated cylinder pins resist picking
- Rekeyable five- or six-pin cylinders can be keyed differently, alike, master keyed or grand master keyed, with a variety of keyways

SOLID STAINLESS STEEL PADLOCKS

HIGHEST CORROSION RESISTANCE

American Lock stainless steel rectangular padlocks offer strong security with the highest resistance to harsh weather and extreme conditions. They are ideal for securing equipment and buildings in outdoor or corrosive environments, such as heavy-duty industrial or marine equipment and factories, and outdoor structures such as sheds, gates or other buildings. See page 9.

- Stainless steel bodies resist cutting, sawing and corrosion, and their stainless steel shackles provide superior weather and cut resistance
- Exceeds ASTM Grade 6 requirements for padlock corrosion resistance
- Five- and six-pin brass cylinders and serrated pins are pick resistant with tens of thousands of key changes

REKEYABLE HIDDEN SHACKLE PADLOCKS

American Lock's round, heavy-duty, hidden shackle padlocks are the toughest padlocks of their type ever offered to security professionals. Our industrial-strength padlocks are rekeyable and have a replaceable cylinder and shackle.

- Padlocks offer maximum protection against drilling, sawing, prying, crowbars, dent pullers and hammers
- Six-pin tumbler cylinders provide superior pick resistance, with tens of thousands of key changes
- Ideal for high security areas and are adaptable for applications on garages, storage buildings, vehicles, commercial buildings, industrial plants and vending machines
- The three flat back locks, models A2500, A2010 and A2001, are tapped and threaded to attach to either high security hasp A801 or A802, featured on page 23. When affixed, for swing door applications, the combination provides both maximum security by making it virtually impossible to pry the lock away from the hasp and greater convenience, as the lock remains attached to the hasp when unlocked
- Choose bundle packs that combine the lock with patent-pending high security hasps for greater convenience and physical security – defying bolt cutters and prying

A2500

This rekeyable, flat back hidden shackle padlock offers a hardened steel body and a convenient front access keyway, anti-drill cylinder cover plate and easy-to-use spring loaded shackle. Precision machined from high quality solid steel bar and triple plated for superior rust resistance, it exceeds the highest performing grade level (Grade 6) within the American Society for Testing Materials (ASTM) Padlock Standard (F883).

A2500

A2500LHC1

This bundle pack combines our toughest lock, the solid steel A2500, attached to high security hasp A801. This combination offers maximum security for swing door applications.

A2500LHC1

A2000

This hidden shackle, stepped back padlock has a die cast body. It will lock any of the high security hasps shown on page 23.

A2000

A800LHC

This model combines the A2000 stepped back die cast lock with the A800 cast steel hasp.

A800LHC

A2010

This lock is precision machined from high quality solid steel bar and triple plated for superior rust resistance. For maximum security, this lock features a flat back design so it can be fastened to the high security hasps, A801 and A802, featured on page 23.

A2010

A2001

This hidden shackle padlock has a die cast, flat back body. It can be attached to high security hasps A801 and A802 featured on page 23.

A2001

A801LHC

In this bundle pack, the die cast A2001 padlock is pre-attached to the A801 truck hasp, offering greater security in swing door applications.

A801LHC

A802LHC

This lock and hasp combination attaches the strong die cast A2001 padlock to the A802 trailer hasp, ideal for securing overlapping doors with a raised lip or seal.

A802LHC

Keying Options – Keyed Alike (KA), Keyed Different (KD), Master Keyed (MK), BumpStop®, Edge®

REKEYABLE SOLID STEEL PADLOCKS

These padlocks offer the greatest security and fit for real world applications. They're virtually indestructible with hardened, chrome plated solid steel bodies that resist cutting, sawing and corrosion and hardened boron alloy steel shackles that offer superior cut resistance.

- Hardened stainless steel serrated pins (A790, A780 & A748 only) in five- and six-pin brass cylinders and dual ball bearing locking mechanisms resist picking, pulling and prying
- Rekeyable, with replaceable cylinder and shackle, making them easy to service
- Great for security gates, sheds, truck and van doors, industrial machinery and construction equipment

Maximum Security Padlocks

Solid steel padlocks have the largest lock bodies and shackles to best withstand physical attack. Stainless steel cylinder pins provide increased drill resistance.

A790 Series
For all: body width=3" (75mm), body thickness=1" (25mm), shackle diameter=1/2" (13mm), and horizontal clearance=1-5/16" (33mm)

A780 and A784 Series

Keying Options – Keyed Alike (KA), Keyed Different (KD), Master Keyed (MK), BumpStop®, Edge®

NON-REKEYABLE SOLID STEEL PADLOCKS

Designed to secure job boxes and other heavy duty applications. Non-serviceable five-pin APTC12 cylinder can be factory keyed to your requirements.

A50HS

Fits Knaack and Watchman IV job boxes and has stainless steel pins for additional drill resistance.

For all: body width=2" (50mm), body thickness=7/8" (22mm), shackle diameter=3/8" (10mm) and horizontal clearance=3/4" (19mm)

Specifications			
5-pin / APTC12	**A50 A50HS**	**A51**	**A52**
Shackle Height	1-1/8" (28mm)	2" (50mm)	3" (75mm)

Keying Options – Keyed Alike (KA), Keyed Different (KD), Master Keyed (MK), BumpStop®, Edge®

BLADE CYLINDER SOLID STEEL PADLOCKS

Rekeyable, disc tumbler cylinders perform extremely well in external applications— dirt and debris more easily pass through the cylinder and wafers, so the lock does not clog and continues to operate well.

AH10, AH11
Chrome plated solid steel with nickel plated shackles

AH10OPB, AH11OPB
Orange powder coated body and orange rubber bumper

For all: body width=2" (50mm), shackle diameter=7/16" (11mm), and horizontal clearance=3/4" (19mm)

Specifications	Models

SOLID BRASS PADLOCKS

CORROSION-RESISTANT SECURITY

American Lock® solid brass padlocks resist salt water and other moisture, offering ideal protection to equipment and buildings in even the harshest outdoor environments and corrosive atmospheres. They're excellent for protecting marine equipment, industrial plants and perimeters, sheds, gates and outbuildings. As with all American Lock products, brass padlocks come in a full spectrum of widths, with shackle diameters and lengths to meet the needs of all users.

- Hardened boron alloy shackles offer superior cut resistance, while dual stainless steel ball bearing locking mechanism resists pulling and prying
- Shackles are chrome plated for corrosion resistance—rust-resistant brass shackles available for marine applications
- Five- and six-pin brass cylinders and serrated pins are pick resistant with tens of thousands of key changes
- Can meet all keying requirements—brass five- or six-pin cylinders can be keyed differently, alike, master keyed or grand master keyed, with a variety of keyways

SOLID ALUMINUM PADLOCKS

SAFETY LOCKOUT AND DURABLE SECURITY

Our top-selling lightweight, solid aluminum padlocks were an industry breakthrough when introduced and continue to be a top seller. American Lock's aluminum line is offered in nine anodized finishes for easy identification as well as in a full range of widths, with many shackle diameters and lengths available. Our aluminum padlocks can stand up to caustic environments and are best for lockout/tagout uses, utility storage areas, sheds, gates and outbuildings.

- Made from an exclusive aluminum alloy, offering strong protection similar to brass in harsh and corrosive environments
- Lightweight, durable padlocks are ideal to carry from lockout job to lockout job
- All have a sturdy anodized finish, which is perfect for food processing applications
- Most come with hardened boron alloy steel shackles for superior cut resistance and chrome plated for extra corrosion resistance—brass shackle option is offered on some models
- Dual ball bearing locking mechanism resists pulling and prying
- Laser engraving option lets companies permanently add employee information on padlocks for lockout identification compliance

SAFETY LOCKOUT PADLOCKS, IDENTIFICATION AND HASPS

1-1/2" (38mm) Rekeyable Rectangular Padlocks

- Lightweight, durable padlocks are easy to carry from one lockout job to the next
- Choice of nine colors to organize by department: black (BLK), blue (BLU), brown (BRN), clear (CLR), green (GRN), orange (ORJ), purple (PRP), red (RED), yellow (YLW)
- Anodized, durable finish is fused to the lock surface and will not chip, making it ideal for food processing facilities; easily withstands washdown chemicals and caustic environments
- Brass shackle option enhances spark resistance
- Exclusive-to-safety W401 keyway (W417 for Master Keyed systems) with deeper pins and key cut depths minimizes inadvertent key interchange caused by years of hard use. More than 40,000 unique codes assure no duplication in a facility
- Laser engraving option lets companies permanently add employee information on padlocks for lockout identification compliance

For all: body width=1-1/2" (38mm), body thickness=3/4" (19mm), shackle diameter=1/4" (6mm), and horizontal clearance=3/4" (19mm)

Padlock Identification Labels

Photo ID labels – Personalize the S1100/A1100 Series safety padlocks in your facility to make the user immediately recognizable.

Write-on Labels – Customize the S1100/A1100 Series safety lockout padlocks with worker name and department.

Safety Lockout Hasps

Steel lockout hasps in popular scissors style feature locking tabs for extra pry resistance. Red PVC-free coating on handle identifies safety application. Two sizes available to fit most applications.

GOVERNMENT PADLOCKS

American Lock® padlocks offer unsurpassed quality and superior performance, exceeding commercial industry standards. These padlocks protect assets at facilities throughout the world, securing high-value property, withstanding extensive use and harsh environments, and defeating attempts to breach security. American Lock brings this pride and workmanship to our padlocks, made to exacting government standards.

For over 65 years, American Lock has provided security solutions to every segment of the U.S. government and military defense agencies. With our unmatched line of security products, American Lock has more than 60 National Stocking Numbers (NSNs) assigned to our product line to meet government requirements.

Our A5200GLN and ASL40N solid body government locks are designed to stringent government standards CID-A-A-59486 and CID-A-A-59487. They feature a five-pin tumbler cylinder for more than 10,000 key changes and a dual locking mechanism for superior pry resistance. For added security, all models have non-removable keys.

American Lock government padlocks can be ordered by NSN or by Commercial Part Number. Additional variations are available to be built to your specific requirements:

- Combine individual locks into custom sets consisting of any quantity or keying combination
- Padlocks can be keyed alike or master keyed
- Available with extra length shackles and laser engraved marking on ASL40N and A5560N Locks
- Chain attachments available to attach to shackle so lock cannot be removed
- Brass shackle options, available on brass padlocks, offer extra protection against the elements
- Government padlocks use an Advanced Cylinder Technology to resist bump attacks

Please visit our Government Padlock section of www.americanlock.com or see the Government price list for the full NSN listing.

Solid Steel Rectangular Padlocks

Solid steel locks have a zinc chromate finish. Available with chains (W) attached to the shackle. **Stainless steel shackles available (SS)**

Shrouded Padlocks

Shackle shrouds offer the greatest protection against cutting and prying attacks.

For A5200GLN Series: body width=1-3/4" (44mm), body thickness=3/4" (19mm), shackle diameter=5/16" (8mm), and horizontal clearance=3/4" (19mm)

DOOR KEY COMPATIBLE CYLINDERS AND PADLOCKS

SECURITY OPTIONS

Just one key can open them all. American Lock's door key compatible cylinders and padlocks mean the same key system can be used for all doors and padlocks —for greater key control, security, affordability and convenience.

- Padlock bodies accept the Edge® Key Control cylinder as well as the following OEM cylinders: Medeco® #20W20000 six-pin cylinder; Schlage® six-pin key-in-knob; Assa® #65611; Lori® #1539; and Schlage® Primus® and GMS® cylinders
- Changing keyways is easy—with many keyways available, most door security systems can be easily matched
- Recreate and/or expand any current key system using existing records
- Order cylinders both as part of a complete American Lock door key compatible padlock assembly, or separately, keyed up and ready to use
- WO comes standard with drivers to accommodate Medeco®, Lori®, 1539 and Schlage® cylinders

DOOR KEY COMPATIBLE PADLOCKS

With hardened boron alloy shackles, our door key compatible padlocks offer superior resistance against bolt cutters and prying, while the dual ball bearing locking mechanism resists pulling and prying. Padlocks are rekeyable, with replaceable cylinders and shackles.

Solid Steel Padlocks

Solid steel padlocks are made of hardened steel and are chrome plated—resisting cutting, sawing and corrosion.

For 3800 Series: body width=2-1/4" (57mm), body thickness=3/4" (19mm), shackle diameter=7/16" (11mm), and horizontal clearance=15/16" (24mm)

Solid Brass Padlocks

Solid brass padlocks are corrosion resistant and ideal for harsh environments. **Brass shackles available (B)**

For 3700 Series: body width=2" (50mm), body thickness=3/4" (19mm), shackle diameter=3/8" (10mm), and horizontal clearance=3/4" (19mm)

For 3600 Series: body width=1-3/4" (44mm), body thickness=3/4" (19mm), shackle diameter=5/16" (8mm), and horizontal clearance=3/4" (19mm)

Specifications	Models

Keying Options – Keyed Alike (KA), Keyed Different (KD), Master Keyed (MK), BumpStop®, Edge®

WO – Without Cylinder

INTERCHANGEABLE CORES AND PADLOCKS

American Lock® offers small and large format interchangeable core padlocks designed to accept other manufacturer's cylinders so anyone can easily and affordably fit them into an established keying system. SFIC padlock bodies also will accept the following OEM cores: Arrow,® Best,® Best® PKS, Falcon,® Kaba® Peaks,® KSP® and Lori.®

- Changing cores is simple—match a door security system with 16 small format interchangeable core keyways, including Best,® Arrow® and Falcon®
- Recreate and/or expand a current key system using existing records
- Order cores both as part of a complete American Lock interchangeable core padlock assembly, or separately, keyed up and ready to use with any system

INTERCHANGEABLE CORE PADLOCKS

With hardened boron alloy shackles, our door key compatible padlocks offer superior resistance against bolt cutters and prying, while the dual ball bearing locking mechanism resists pulling and prying. Padlocks are rekeyable, with replaceable cylinders and shackles.

SMALL FORMAT INTERCHANGEABLE CORE PADLOCKS

Padlocks accept six- and seven-pin cores with no spacers required.

Solid Steel Padlocks
Solid steel padlocks are made of hardened steel and are chrome plated—resist cutting, sawing and corrosion. Available with Weatherbuilt™ Padlock Protection;

Keying Options – Keyed Alike (KA), Keyed Different (KD), Master Keyed (MK)

CAM LOCKS

UNIVERSAL MAILBOX LOCK

The Universal Mailbox Lock, with 9 included reversible cams and 90 degree operation, fits most apartment and group style mailboxes. The lock is available keyed different and has a secure 5-pin tumbler cylinder with two keys.

- Secure 5-pin tumbler cylinder
- 9 reversible cams in lengths from 1" (25mm) to 1-7/8" (48mm) and offets from 1/64" (.4mm) to 1/2" (13mm)
- 90 degree operation
- Includes 2 keys per lock
- Keyed different
- Bright nickel finish

Specifications	Model
	APTCL6814A
Keying	Keyed Different
Finish	Bright Nickel
Cam Body Length	3/4"
For Door Thickness	1/2"
Cam Body Length (mm)	19"
For Door Thickness (mm)	13"

TUBULAR CAM LOCKS AND INNER CYLINDER LOCKS

Made of hardened steel, these seven-pin tubular cam and inner cylinder locks provide outstanding security, offer more than 50,000 key changes and meet National Automatic Merchandising Association (NAMA) requirements. The cam itself acts as a locking bolt and is directly operated when the key turns the plug. Circular seven-pin tumbler design deters picking and is suitable for laundry facilities, vending machine or arcade coin boxes, cabinets and desks, burglar alarms, currency chargers or cash drawers.

Tubular Cam Locks: Models A8068-A8148

- When fitted with a cam, available separately, the cylinders become a locking assembly
- Cylinders have threaded bodies on which appropriate mounting hardware can be used
- Removable zinc plated flat and offset cams allow versatile design applications

Inner Cylinder Lock: Model A8300

- Hardened steel face and locking bolt resist drilling and pulling
- Adaptable to most "pop out" door handle mechanisms

Specifications	Models				
	A8068	A8078	A8118	A8148	A8300
Overall Length	1-11/32" (34mm)	1-17/32" (39mm)	1-23/32" (44mm)	2-3/32" (53mm)	1-5/8" (41mm)
Maximum Latching Distance	11/16" (18mm)	15/16" (24mm)	1-1/8" (28mm)	1-1/2" (38mm)	1-3/32" (28mm)

Keying Options – Keyed Alike (KA), Keyed Different (KD)

DISC CAMS

American Lock disc cam locks can be used to secure office and laboratory furniture, appliances, tool and cash boxes, and more. They come in bright brass and bright nickel finishes, and each includes one flat cam and one reversible offset cam, 90 and 180 degree stop plates and mounting hardware. They're available keyed different and keyed alike.

Keying Options – Keyed Alike (KA), Keyed Different (KD)

HASPS AND LOCKING BOLTS

American Lock® heavy-duty, industrial grade steel hasps offer features to complement the strength of our padlocks. These hasps are a superior choice for commercial and industrial use on warehouses, utility rooms, storage buildings, van doors and vending machines.

- Hardened steel models resist cutting and sawing
- Choose from single- or double-hinged hasps for mounting to an internal or external corner, as well as straight bar, angle bar or circular shrouded vehicle hasps

HIGH SECURITY HASPS FOR HIDDEN SHACKLE PADLOCKS

- Hasps secure sliding and swinging doors on garages, storage buildings, vehicles, commercial buildings, industrial plants and vending machines
- Use with A2500, A2010 or A2001 or A2000 padlocks, featured on page 6
- Hasps are made of steel for maximum strength and durability
- A801 and A802 are designed so hidden shackle padlocks can be attached directly to the hasp for swing door applications, which adds security and convenience, and prevents loss of a loose padlock
- A802 secures overlapping trailer doors with a raised lip or seal
- Installation requires six 3/8" carriage bolts, washers and nuts. Due to variation in applications, mounting hardware not included

These hasps also are available with padlocks in bundle packs. Please see page 6.

Specifications	Models

HEAVY DUTY GATE HASP

A810

- Use with A700, A5260 or A5200 padlocks
- Patent-pending gate hasp provides maximum security; for double-drive industrial gates with 1-5/8" or 2" frames
- Protects padlocks from cutting
- Simple four-bolt installation, with all mounting hardware included
- Adjustable slide fits gate openings from 3" to 6" wide
- Accepts padlocks with 7/16" diameter shackle and 1" vertical shackle clearance

A810

LOCKING BOLT

A895

- 3/4" hardened steel locking bolt for maximum strength
- Chrome plated for corrosion resistance; mounting hardware included
- Fully adjustable from 3/4" to 2-3/8"
- Accepts padlocks with 7/16" diameter shackle
- Mounting hardware included

A895

COMBINATION LOCKS

Our combination locks, for use on lockers, bicycles and utility cabinets, feature a stainless steel case and a three-number combination dial. They are available with key control for supervisory access.

BLOCK GUARD®
patent no. 8,099,985

- Now featuring U.S. patented BlockGuard® Dual Protection Anti-Shim Technology; foreign patents pending. These enhanced combination locks feature a unique flat latch that deters shimming, a method of violating the lock by inserting a specially designed tool into its latch mechanism
- Automatic scrambler moves the dial upon shackle closing to ensure that lock is secure once closed
- Dial face available in blue, red, black, or green

For all: body width=2" (50mm), body thickness=3/4" (19mm), shackle diameter=9/32" (7mm), horizontal clearance=13/16" (21mm), and shackle height=3/4" (19mm)

DEALER RESOURCES AND SERVICE KITS

American Lock offers more than 30 popular padlocks and hasps packaged for showroom display. These keyed different items satisfy immediate customer security needs. Also available are compact rotating displays with preplanned product assortments, showroom product displays and signage.
