Automotive Replacement Parts

Wheel Locks

McGard's Wheel Lock functions like a regular lug nut on your wheel but requires a special key (tool) for installation and removal. Here are some typical examples:

This is what a Wheel Lock looks like installed on a wheel:

Wheel Lock Key (tool)

Used with your lug wrench and are needed to remove and install Wheel Locks. Here are some typical examples:

Center Cap Locks

Security for alloy wheels with bolt-on lug covers (center caps) or wire basket wheels. Here are some typical examples:
