# HOW TO SELECT U-JOINT KITS

Meritor offers U-joints in a full range of sizes for automotive as well as On and Off-highway truck and equipment applications

All sizes and types of Meritor U-joint kits are basically the same. They consist of the following:

- A cross
- Four (4) bearing races
- Seals
- Needle bearings
- Hardware to retain the bearings in the yoke
- Lube fitting (for most kits)

## METHODS OF RETAINING U-JOINT KITS

Meritor U-joint Kits are catalogued by methods of retention within their basic style groups shown on the following pages. Each U-joint kit section uses specific illustrations showing primary dimensions for determining the part number.

The following table shows the basic kits styles used on passenger cars and light duty trucks regardless of vehicle model:

VEHICLE MANUFACTURER	MERITOR	CLEVELAND	DETROIT	SAGINAW/MECH.
AMC/JEEP	OSR	-	ISR	-
CHRYSLER	OSR	-	ISR	-
FORD	OSR	ISR	-	-
GMC	OSR	-	-	INJECTED NLYON/ISR
IHC	OSR	ISR	-	-

For medium and heavy-duty trucks, buses and off-highway equipment, use this catalog to identify the style of U-joint kit that needs replacing and match the dimensions from these pages with the dimensions of the worn kit.

# MEASURING U-JOINT KITS

## MEASURING U-JOINT KITS REMOVED FROM VEHICLE

1. Remove the bearing caps.
2. Remove excess grease from the bottom of the bearing caps and trunnions.
3. Remove the seals from the bearing caps or trunnion to ensure accurate measurements when parts are compressed.
4. Measure as shown, using tolerance of + .005"/-.005" for dimensions "F" and "E", and a tolerance of +.003"/-.003" for all others.

### OUTSIDE SNAP RING STYLE

- A) Measure dimension "F" (Figure 1) and write it down.
- B) Measure dimension "D" (Figure 1) and write it down.
- C) Is there a lube fitting? Is it in the cross or the cap?
- D) If more information is needed, measure dimensions "A" and "B" (Figure 2). These dimensions may vary between manufacturers.
- E) Refer to the pages showing Outside Snap Ring Kits.

FIGURE 1

FIGURE 2

### INSIDE SNAP RING STYLE

- A) Measure dimension "E" (Figure 3) and write it down. Be sure to include the thickness of the snap rings. The following method should be helpful.
  - 1) Measure from the inner edge of the snap ring groove to the inner edge of the other as shown by dimension "X". (Figure 4)
  - 2) Measure the thickness of one snap ring (Dim "Y"). Dimension "E" then equals "X" + 2 ("Y"). (Figure 4)
- B) Measure dimension "D" (Figure 3) and write it down.
- C) Is there a lube fitting? Is it in the cross or the cap?
- D) If more information is needed, measure dimensions "A" and "B" (Figure 2). These dimensions vary between manufacturers.
- E) Refer to the pages showing Inside Snap Ring Kits.

# LUBRICATION OF U-JOINTS

The function of the lubricant in a U-joint is to protect the surface of the rollers and races from rust of corrosion and to reduce the friction between the rollers and races.

## **THE FOLLOWING GREASES ARE RECOMMENDED**

An NLGI No. 2 grease consisting of a mineral oil and Lithium soap or equivalent base with EP additives to give long life characteristics.

Greases approved by Meritor include:

PN-C1AZ 19590 or a grease meeting Ford Motor Company Specification M1C-75B

Kendall L-424 Grease

Amoco Super Chassis

Amalie All-Purpose Grease with Moly, Li-2M

Exxon 5160

Shell Super Duty Special FF

Maralube Moly Code 529

Philube MWEP2 Grease

The center crosses of the U-joints hold a generous supply of lubricant. This stored lubricant is supplied to the bearing by the centrifugal action of the rotating cross.

## **LUBRICANT REQUIREMENTS FOR U-JOINTS WILL VARY WITH THE APPLICATION.**

Light duty, low angle service may permit "greased for life" initial lubrication only.

Conditions of high angle, high speed or extremely dirty or moist conditions may require daily greasing.

The lubrication of the slip assembly can be done with the same type lubricant and at the same time as the U-joint. For slip assemblies, an EP chassis grease with a molybdenum disulfide ( $\text{MoS}_2$ ) additive has shown good results in some applications.

## **ARVINMERITOR AFTERMARKET PARTS WARRANTY**

We warrant all new parts for one year from date of shipment to the buyer against defective material or workmanship (but not against damage caused by accident, abuse or improper installation, maintenance or repair) when such parts are used on vehicles the specifications of which have been approved by our Engineering Department.

As the exclusive remedy under this warranty, we will, at our option, repair or replace such parts free of charge, or take back the nonconforming parts and refund the monies paid by buyer for such parts, if found on examination by us to be nonconforming and if any necessary return charges are prepaid.

If it is necessary to return any parts under this warranty, buyer agrees not to make any deduction on account thereof from remittances on current accounts while claims are in the process of disposition. Any expense incurred without our consent for repairs or replacement will not be allowed.

**THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS, IMPLIED OR STATUTORY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE. IN NO EVENT SHALL SELLER BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE.**

Only genuine ArvinMeritor replacement parts are covered by this aftermarket parts warranty.
