

STRUT-MATE® BOOT KIT

Heavy-duty construction and unique design features make the Monroe® Strut-Mate® boot kit the quality choice for maximum rod protection and improved strut life.

Damaged or missing boots can cause premature strut failure:

- ✓ Deteriorated OE compression bumpers deliver inadequate protection from severe suspension movement
- ✓ Leading to damaged piston rod finish and premature oil leakage

Tie-Strap

Self Draining Design

Boot

Unique Boot Bumper Attachment Method

Soft Entry Jounce Bumper
