

Installation Instructions

Step Systems

01-04 Toyota Tacoma Double Cab

Hardware Kit Contains:

12) 8mm x 1" Bolts

12) 8 mm Nuts

Recommended Tools:

13mm Wrench

Step 1: Locate the driver side nerf-step. The short tail bend goes towards the front.

<u>Step 2:</u> The holes in the mounting brackets will line up with the existing holes in the truck. Line up the brackets to the mounting holes on the vehicle and finger-tighten the bolts.

<u>Step 3:</u> Once you have all the bolts in place torque each bolt location to 15-20 ft/lbs starting with the front bracket, tighten the rear, and finally the center bracket.

<u>Step 4:</u> Repeat the process on the passenger side. This concludes the installation.
