

HOW TO USE:

Step 1:
Spray a generous amount on wheel, wheel barrel, and brake caliper. *do not apply to hot wheel *use eye protection

Iron Free will turn purple as it reacts with iron deposits

Step 2:
Agitate Iron Free with soft wheel brush if necessary for heavily contaminated and neglected wheels

Step 3:
Rinse Iron Free preferably strong stream of water for touchless removal

Step 4:
Wipe residual water off wheel with soft micro fiber towel

After <-----> Before
