

## HOW TO USE:

**Step 1:**  
Spray a generous amount of Rain Prep on glass surface.

**Step 2:**  
Using the rubber polymer side of the included Autoscrub sponge, work the surface back and forth with light to medium pressure. \*do not allow Rain Prep to run dry while working with Autoscrub

**Step 3:**  
Wipe glass surface clean of residual Rain Prep

**Step 4:**  
Apply Rain glass sealant on previously prepared Rain Prep glass surface

**Step 5:**  
Wipe residual Rain from glass surface. Repeat Rain application step one more time to complete Rain application
