Sportz SUV 82000 Tent

Niagara Falls, NY. (2014)- Napier Outdoors has overhauled its traditional Sportz SUV Tents and has introduced the Sportz SUV 82000 with a new look. The design features a full length rain fly to protect you against the elements and exceptional usability with a frame design that is easily set up by one person. The patented removable vehicle sleeve fits hundreds of CUVS, SUVs and minivans to provide the most versatility and flexibility in camping.

The Sportz SUV 82000 wraps around the cargo area of your vehicle allowing you total access for additional sleeping spaces or for storing gear. No more having to leave your tent to get something you need from your vehicle- it's all in one space! Simply adjust the tent's vehicle sleeve to form a custom fit to your vehicle. Transform the vehicle tent into a ground tent by simply unzipping the vehicle sleeve...double use!

Experience the great outdoors in ways you never thought possible. This spacious 9' by 9' tent provides a sleeping area for five people, along with the additional space provided by your vehicle. Set up is a breeze with its shock-corded steel and fiberglass pole structure. There is plenty of ventilation with two large entrance doors, three large mesh windows and two skylights which all have storm flaps to close for privacy. A full-length tape seamed rain fly keeps you dry even in the wettest weather. When the trip is over, the tent comes down as fast as it went up and stores easily in an expandable carrying bag. It's easy, convenient and affordable.
