

LIFETIME LIFTING FROM OTC

✓ MEETS THE NEW PASE SAFETY STANDARDS

2-TON & 3-TON ALUMINUM RACING JACK PACKS

The Aluminum Racing Service Jack Packs combine the Service Jack and Jack Stands for a ready-to-go package made from durable aircraft-grade aluminum. The lightweight sets include a jack with side handles for easy transport and loading into a truck for mobile service calls. Quick-lift design gets vehicles in the air quickly with fewer pumps. New and improved hydraulics and a wider track for the wheels make it durable and easy-to-use. A 4-foot padded lower handle protects rocker and door panels while providing maximum leverage to lift vehicles. A rubber saddle protects the vehicle undercarriage and prevents slipping. Saddle can be removed for lower profile to get under road-hugging vehicles.

1533A – 2-TON ALUMINUM JACK AND JACK STAND PACK

1532A 2-Ton Aluminum Service Jack

- Light-weight aircraft-grade aluminum construction makes it easy to carry and roll
- Low profile allows it to be used with ground-hugging high-performance cars
- Foam sleeve on handle makes pumping more comfortable
- Meets ASME PASE-2014 Standard for Service Jacks
- Includes side mounted carrying handles for quick and easy carrying
- Five pumps to reach maximum lifting height
- Min. height 3-1/4"; max height 18-5/8"

Product Specs:

- Handle Length (in) | 47.6
- Saddle Diameter (in) | 4.5
- Wheel Diameter (in) | 2.5
- Caster Diameter (in) | 1.75
- Strokes to Full Height | 5
- Actuating Handle Effort (lbs) | 85

1582A 2-Ton Aluminum Jack Stands (2 included)

- Flat round base doesn't dig in to soft surfaces such as asphalt
- Placement of hole locations allows for broad range from low to high heights
- Light weight material makes handling and use easy

Product Specs:

- Capacity | 2 tons
- Low Height | 9.5 inches
- High Height | 15.2 inches
- Number of Adjusting Positions | 6
- Base Diameter | 7.0 inches
- Weight of Each Stand | 4.70 lbs
- Saddle Size | 2.2 x 2.2 inches

1547 – 3-TON ALUMINUM JACK AND JACK STAND PACK

1546 3-Ton Aluminum Service Jack

- Light-weight aircraft-grade aluminum construction makes it easy to carry and roll
- Low profile allows it to be used with ground-hugging high-performance cars
