6897

3-Piece Specialty Spark Plug Socket Set

This unique kit combines the most popular sized spark plug sockets. Each socket has a 3/8" drive end for use with a ratchet or breaker bar. Socket ends have soft rubber inserts designed to hold and protect the spark plug during removal and installation.

- No. 6898 works on GM, Chrysler, Ford, and many import vehicles with 13/16" spark plugs, 4-7/8" long.
- No. 6899 works on GM, Chrysler, Ford, and many import vehicles with 5/8" spark plugs, 4-7/8" long.
- No. 6900 works on 2004–newer Ford vehicles with 5.4L, 4.6L, 5.4L, 3-valve Triton V8 & 6.8L Triton V10 engines with 9/16" spark plugs, 5-7/8" long.

No. 6897 – 3-piece spark plug socket set. Wt., 2 lbs., 2 oz.

7687A

Pry Bar Head

- Turns any 3/8" drive ratchet or breaker bar into a rolling head pry bar.
- Gives you the versatility of a pry bar without the storage problems.

No. 7687A – Pry Bar Head. Wt., 5 oz.

8032A

Ford Ball Joint Adapter Set

- Allows easy removal and installation of the lower ball joint on 1996–2004 Ford Taurus and Mercury Sable vehicles.
- Lower ball joint can now be replaced without having to replace the entire spindle assembly saving up to an hour of labor.
- Adapters are used with OTC No. 7248 C-Frame.

No. 8032A – Ford Ball Joint Adapter Set. Wt., 1 lb., 15 oz.
