

Under Hood Animal REPELLER

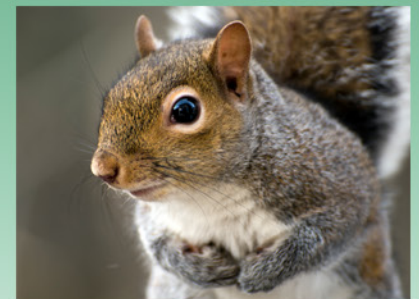

Avoid expensive repair bills!

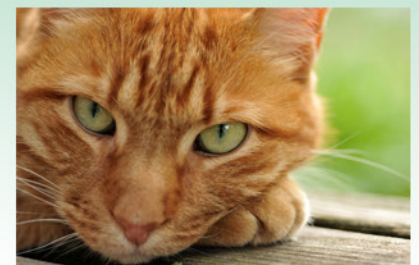

- Easy to install
- Battery operated
- Water resistant
- LED Indicator
- ON/OFF Button

Rats and mice

Squirrels and Rabbits

Cats and Sables/Martens

Keep pesky animals from making themselves at home under the hood of your car. Squirrels, rabbits, rats, martens/sables, and even cats commonly crawl inside engine compartments due to the enticing heat. In the meantime they can damage cables, wiring harnesses and other expensive parts.

The P7825 Under Hood Animal Repeller is a battery operated, weather resistant device that can be easily mounted within any car, tractor, snowmobile, boat or other vehicle. The unit produces powerful sound waves that are very irritating to small animals. Random blasts of this high frequency sound keep pests from getting comfortable insuring that they move on and leave your car alone.

Specifications:

Model:	P7825
Frequency:	12kHz
Batteries:	2 x C Alkaline batteries (not included)
Battery Life:	6-8 months
Dimensions (L x W x H):	5 1/8" x 2 1/2" x 1 5/8"
