

Vibrasonic MOLE CHASER®

Not just sound, but powerful vibrations

The secret weapon of golf courses and landscapers isn't a secret anymore. The state of the art Vibrasonic Molechaser® is the most advanced Molechaser® available, providing up to 13,500 square feet (1/3 acre) of coverage. Moles, voles, shrews, gophers and other destructive burrowing rodents "can't hide anymore."

A patented motor drive generates powerful vibrations that, though harmless to pets and humans, are irritating to rodents. Intermittent emissions minimize the chance that rodents will become immune to the effect. The Vibrasonic Molechaser® is anodized with a rich gold tone and crafted from a single billet of aluminum to ensure lifetime performance.

The watertight cap allows easy insertion at ground level, protecting your lawn mower and making it virtually invisible. The battery cylinder allows you to change batteries without removing the unit from the ground.

- **Up To 13,500 Sq. Feet (1/3 Acre) Coverage**
- **Bury Flush With Ground For Easy Mowing**
- **Rodents Are Chased Away Unharmed**
- **Does Not Affect Pets**
- **Convenient Battery Change Cylinder**
- **100% Waterproof**

Specifications:

Model:	P7906
Power:	6V DC
Battery:	4 X D alkaline batteries
Battery Life:	4-6 months
U.S. Patent Number:	6134827
Frequency:	Multi-modal
Duty Cycle:	18 seconds
Coverage:	13,500 sq. feet (1/3 Acre)
Weight:	14 oz.
Dimensions:	16" X 2"

Specifications subject to change without notice.
