

Solar Powered

SOLmate®

MOLE & GOPHER CHASER

The Sol Mate® Mole & Gopher Chaser repels unwanted burrowing rodents with the strongest and least expensive power available – the sun. Solar-powered and maintenance-free, the Sol Mate® Mole & Gopher Chaser uses state-of-the-art technology to repel moles, gophers, voles, shrews and other destructive burrowing rodents.

This ingenious device is environmentally friendly and eliminates the use of poisons and traps around children and pets. Since one full charge yields up to 4 days of trouble-free power, the unit is capable of operating without interruption even in unfavorable weather. The solar panel is embedded in a watertight ABS plastic housing with unique mow-over design.

The Sol-Mate® Solar Mole & Gopher Chaser produces a sonic pulse of approximately 400 Hz every 30 seconds and provides up to 7,500 square feet of coverage. Pets won't be affected, but rodents will find the noise irritating and eventually move to quieter surroundings. Moles, voles, shrews, gophers and other destructive rodents "can't hide anymore".

- Covers up to 7,500 Sq. Feet
- Safe around children and pets
- Water resistant ABS plastic housing
- Design blends with landscape
- Rodents are chased away unharmed

Specifications:

Model:	P7912
Solar Panel:	4.3V 20mAh
Battery:	1 "AA" LiFePO4 3.2V 250mAh
-	replaceable rechargeable (included)
Operating Time:	up to 4 days without recharge
Frequency:	400Hz
Duty Cycle:	30 seconds
Coverage:	7,500 sq. feet
Weight:	3.1 oz.
Dimensions:	12 1/3" X 2 1/2"

Specifications subject to change without notice.
