

P7930 Vibratech Mole & Gopher Chaser Operating Manual

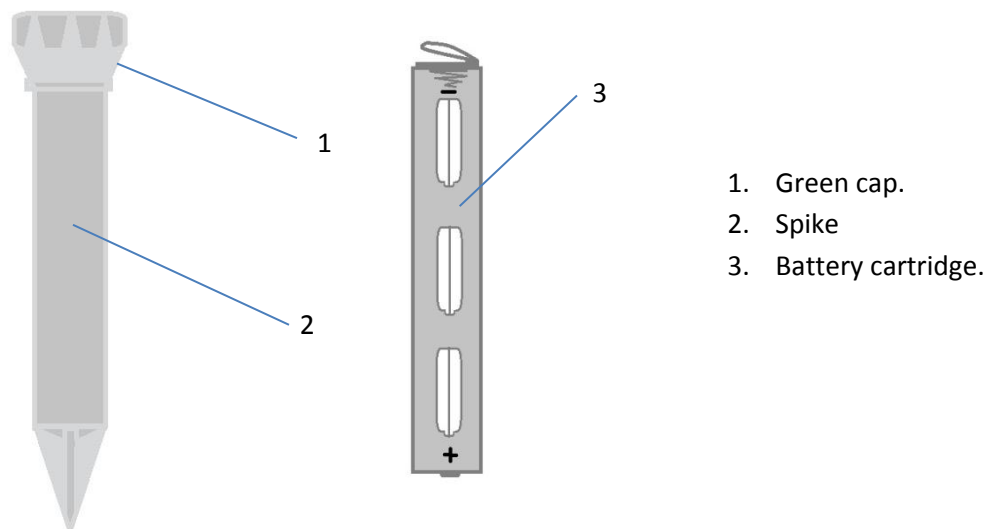

KEEP BURROWING RODENTS OUT OF YOUR GARDEN FOREVER!

The **Vibratech Mole & Gopher Chaser** is the most humane and environmentally friendly way of keeping gardens and lawns free of destructive ground rodents.

Most underground rodents have poor eyesight, yet nature has given them a very acute sense of hearing and sensitivity to ground vibration. The Vibratech Mole & Gopher Chaser exploits this sensitivity to produce a penetrating sonic sound over an area of approx. 13,500 sq. ft. (1/3 Acre) at random intervals.

Vibratech Mole & Gopher Chaser is completely harmless to worms and other underground bugs.

Vibratech Mole & Gopher Chaser operates in a circular pattern, approx. 130 ft. in diameter. This must be an unobstructed 130 ft.

OPERATING INSTRUCTIONS :

- a. To open, unscrew GREEN cap counter-clockwise.
- b. Remove battery cartridge and insert 3 "D" cell batteries. Re-insert the battery cartridge into the Spike. If battery installation is correct, you should hear the first vibrating sound within 45 seconds.
- c. Tighten the cap securely to keep out moisture.

INSTALLATION INSTRUCTIONS :

- a. Use a wooden or steel rod (or stake) to make pilot holes prior to inserting the Vibratech Mole & Gopher Chaser. To prevent damage, do not hammer the Vibratech Mole & Gopher Chaser into the ground.

- b. Insert each Vibrattech Mole & Gopher Chaser until the bottom of the cap begins touching the ground.
- c. It is possible to insert a Vibrattech Mole & Gopher Chaser all the way into the ground. This will prevent the chance of hitting it with a lawnmower. Be certain to insert the Vibrattech Mole & Gopher Chaser so that the cap is flush with ground. If it protrudes an inch or two it could be a tripping hazard. Remember where the Vibrattech Mole & Gopher Chaser is located so it may be removed for battery replacement.
- d. Remove Vibrattech Mole & Gopher Chaser when flooding may occur or before ground freezes.
- e. Replace battery after approximately 4-6 month or when sound is no longer audible.

Please note damaged lawns, shrubs, etc. will take up to 6 weeks to rejuvenate. Climate permitting, leave your Vibrattech Mole & Gopher Chaser in ground to repel new generations of pests.
